NEW PRODUCT ANNOUNCEMENT

2015 CHEVY/GMC - SILVERADO/SIERRA 2500/3500 3" BODY LIFT KIT
2WD/4WD GAS
PART NUMBER 10333

Performance Accessories Body Lift raises your vehicle's body 3" over the factory frame, allowing the use of up to 33" diameter tires. Installation maintains OEM [suspension](#) geometry and improves on and off-road capabilities.

- Maintains superior factory ride
- Preserves factory suspension geometry
- Maintains factory turning radius
- Preserves vehicle driveline angles
- Can be used with OE wheels
- Provides lower center of gravity as opposed to full-suspension kit with same amount of lift

- Allows Dealers/Jobber to sell a complete lift system with wheels and tires to customers with a limited budget
- Installs in 7-8 hours

Urethane Gap Guard Kit: #6547 (sold separately)

Proudly manufactured in the U.S.A.

PA also offers a Urethane Gap Guard kit #6547 to cover internal components exposed by lifting your vehicle. PA's durable Gap Guards are CNC precision molded from the highest quality polyurethane for long lasting durability. Gap Guards enhance the appearance of your vehicle and keep your engine compartment clean.

Performance Accessories (PA) offers the most comprehensive line of affordable vehicle-specific body lift kits on the market for 2WD and 4WD vehicles. PA body lift kits include the highest quality, laser cut, CNC machined steel components, steering extensions, shift extensions, body lift blocks, and bumper brackets. Performance Accessories kits do not alter the vehicle's OEM suspension components, maintaining the vehicle's high-quality factory ride and preserving the vehicle warranty.
