

CL230PA

NEW PRODUCT ANNOUNCEMENT

2007-2015 CHEVY/GMC SILVERADO/SIERRA/TAHOE/YUKON 1500 2.25"
LEVELING KIT, 2WD/4WD
PART NUMBER CL230PA

Performance Accessories now offers an easy-to-install 2.25" leveling kit for Chevy/GMC 1500 pickups and SUVs that levels the front-to-rear stance of the vehicle. This leveling kit features a heavy-duty pair of two-piece aluminum top strut spacers and steel lower bar pin shims. Each is precision machined and laser cut to ensure the highest quality and fitment. Installation of CL230PA allows the vehicle to run up to a 33" diameter tire. This system does not need a coil spring compressor and can be installed in 1-2 hours.

- Offers a smooth ride while maintaining proper suspension geometry to prevent premature component wear
- Divides the lift between the bar pin and the top of the strut
- Levels front-to-rear vehicle stance
- Eliminates the need to disassemble strut
- Compatible with magnetic ride
- Installs in only 1 to 2 hours
- Allows use of up to 33" diameter tires

Kit Includes:

- Precision laser cut steel bar pin shims
- Aluminum top strut spacer
- Heavy-duty hardware and thread locker
- Detailed instructions

Performance Accessories (PA) offers the most comprehensive line of affordable vehicle-specific body lift kits on the market for 2WD and 4WD vehicles. PA body lift kits include the highest quality, laser cut, CNC machined steel components, steering extensions, shift extensions, body lift blocks, and bumper brackets. Performance Accessories kits do not alter the vehicle's OEM suspension components, maintaining the vehicle's high-quality factory ride and preserving the vehicle warranty.
