- Application: High beam
- Technology: Halogen
- Base: P22d

- DOT Compliant
- Range: X-tremeVision
- Type: 9006 (single)

## Marketing specifications

- Expected benefits: More light
- Product highlight: 100% more light

## Light characteristics

- Color temperature: 3400 K

9006XVB1

# Highlights

## 100% more light on the road

Based on a unique filament design and optimized geometry, X-tremeVision is engineered with state-of-the-art technology for ultimate performance and bright, white light where it matters the most.

## Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

## Change by pairs

Highly recommended to change them by pairs for symmetric light performance

## High quality and visibility

X-tremeVision provides you with a better reactivity thanks to an earlier recognition of obstacles and traffic signs. Light is a fundamental part of the driving experience and light is the first and only part of the safety circle that actually helps prevent accidents. Philips promotes active safety protection to prevent accidents by increasing overall visibility and road illumination.
