in the trailer, shop or at the track!**

INSTALLATION INSTRUCTIONS FOR TRAILER LIGHT BRACKETS Part # 130/131

These units facilitate the state-of-the-art clip-on design of our trailer lights to your trailer. Simply follow the instructions below to install them on your trailer wall!

Using rivets available in our catalog, pre-drill holes as shown, making sure one side of the bracket is securely mounted to one of the trailer's vertical ribs in either interior or exterior applications to provide a solid anchor for these lights.

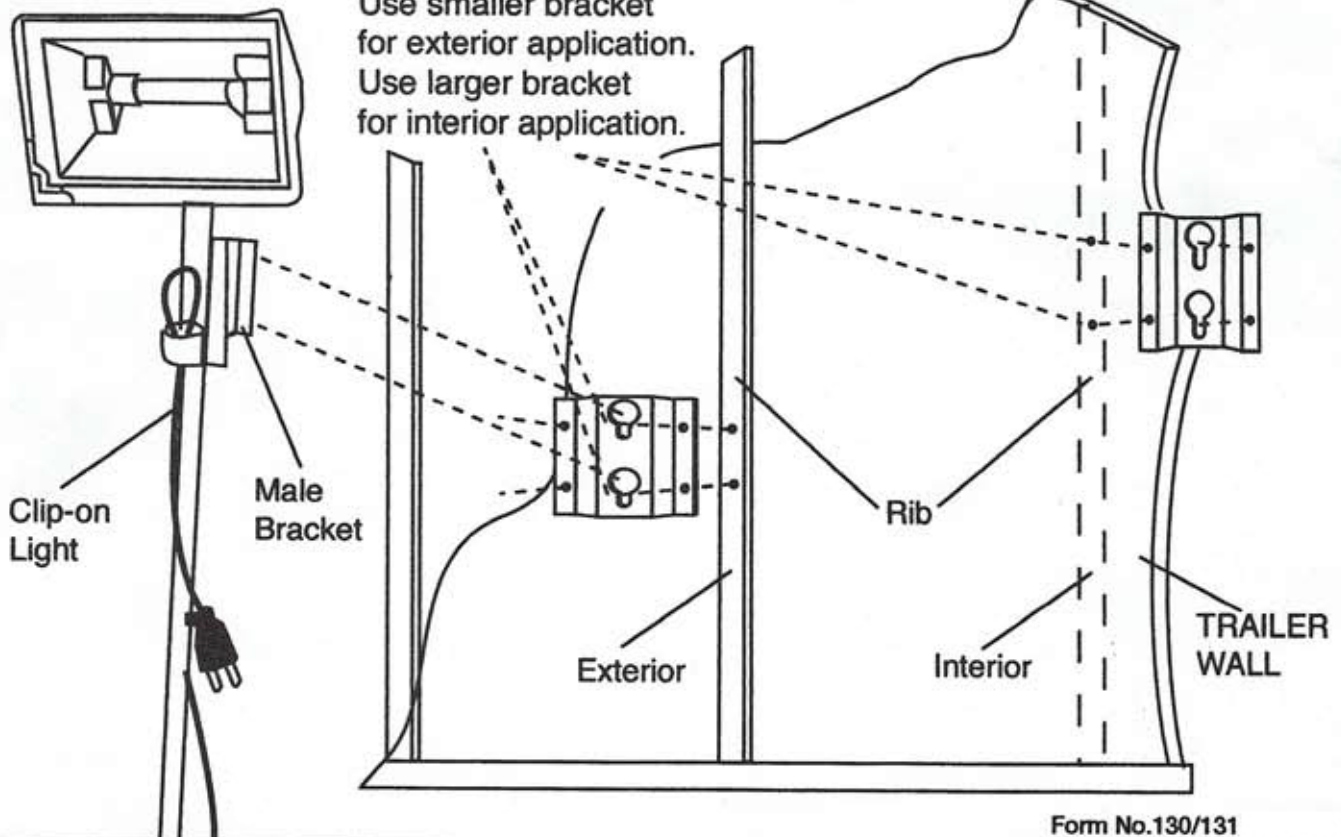

LIGHT BRACKET INSTALLATION

Drill 4 - 3/16" holes to mount light bracket to trailer wall.

Be SURE to mount one side of bracket (2 holes) through rib in wall.

Use smaller bracket for exterior application.

Use larger bracket for interior application.

Form No.130/131
