USER'S MANUAL

P695MB

BLUETOOTH® | MP3-COMPATIBLE DIGITAL
MEDIA AM/FM RECEIVER

Planet Audio®

To ensure safety while driving

and to comply with laws,

drivers should not watch video or

operate the video device while driving.

IMPORTANT NOTICE & PRECAUTIONS

Thank you for using our company multi-media player! To operate the unit correctly, please read the operation manual carefully before using. Keep this operation manual for further reference.

The unit is designed only for DC 12V negative ground operation system. Make sure your vehicle is connected to DC 12V negative ground electrical system. Do not connect it to 24V power supply in trucks or buses, or else it will be damaged. Be sure to connect the speaker (-) leads to the speaker (-) terminal. Never connect the left and right channel speaker wires together or to the vehicle body.

The normal temperature for operation is between -20 and +60 degree Celsius. Do not work in extreme high or low temperature and block vents or radiator panels of the unit, blocking them will cause heat to build up inside the unit and may cause damage or fire.

Do not put the device in a moist environment or water to avoid electric shock, damage and/or fire due to a short circuit.

This unit can play the following media files: WMV / MP3 / WMA / JPEG.

INSTALLATION & ACCESSORIES

This unit comes with the following accessories for installation:
2 x mounting brackets / 8 x mounting screws / 1 x mounting stud with boot / 1 x trim ring / 3 x power cables
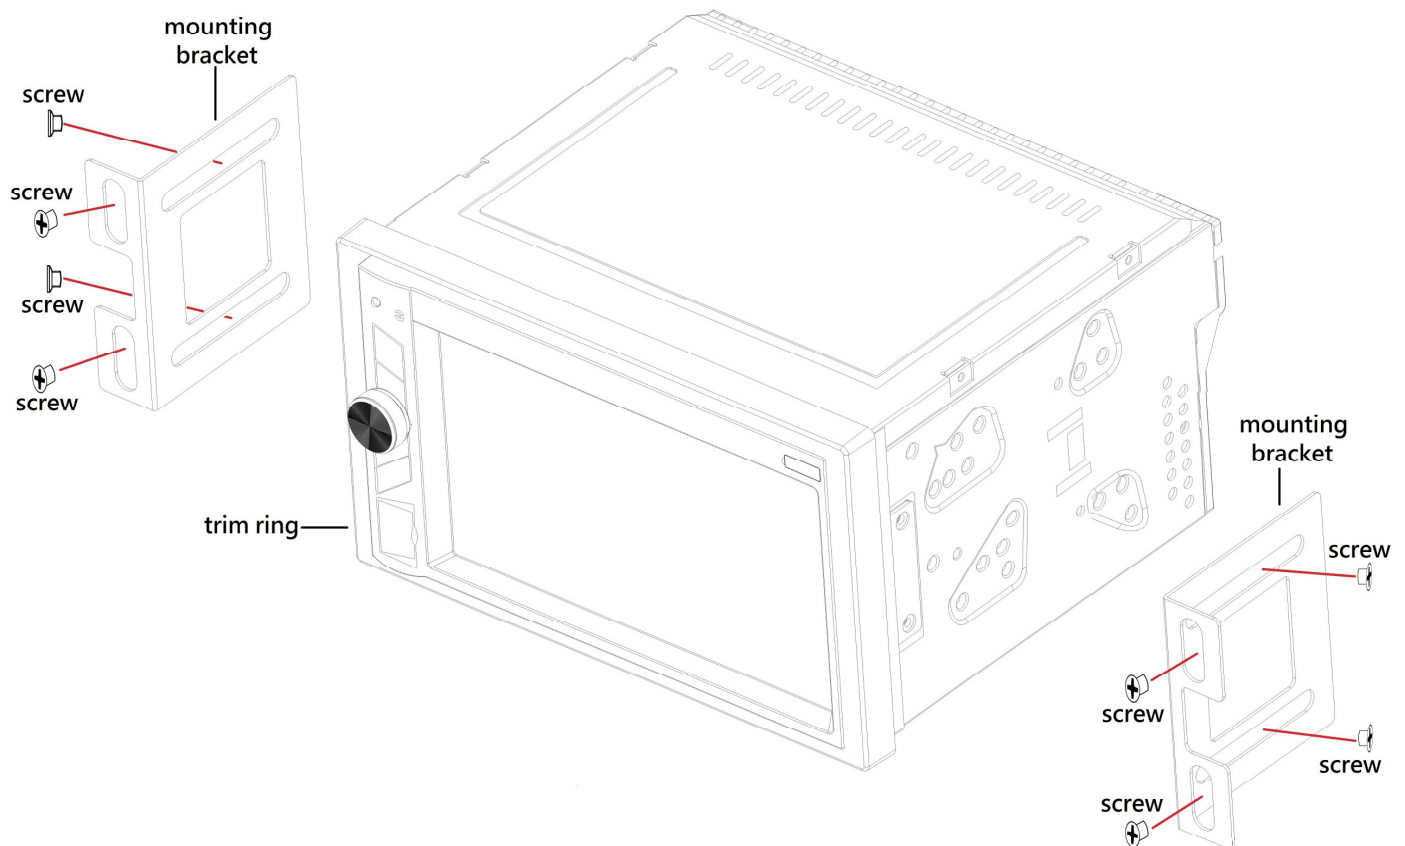

- To ensure safety and operate the device normally, installation of unit by professional technician is strongly recommended.
- Only use the mounting brackets and screws supplied for installation. Installation may vary on type of cars and supplied parts.

WIRING CONNECTION

BACK OF MAIN UNIT
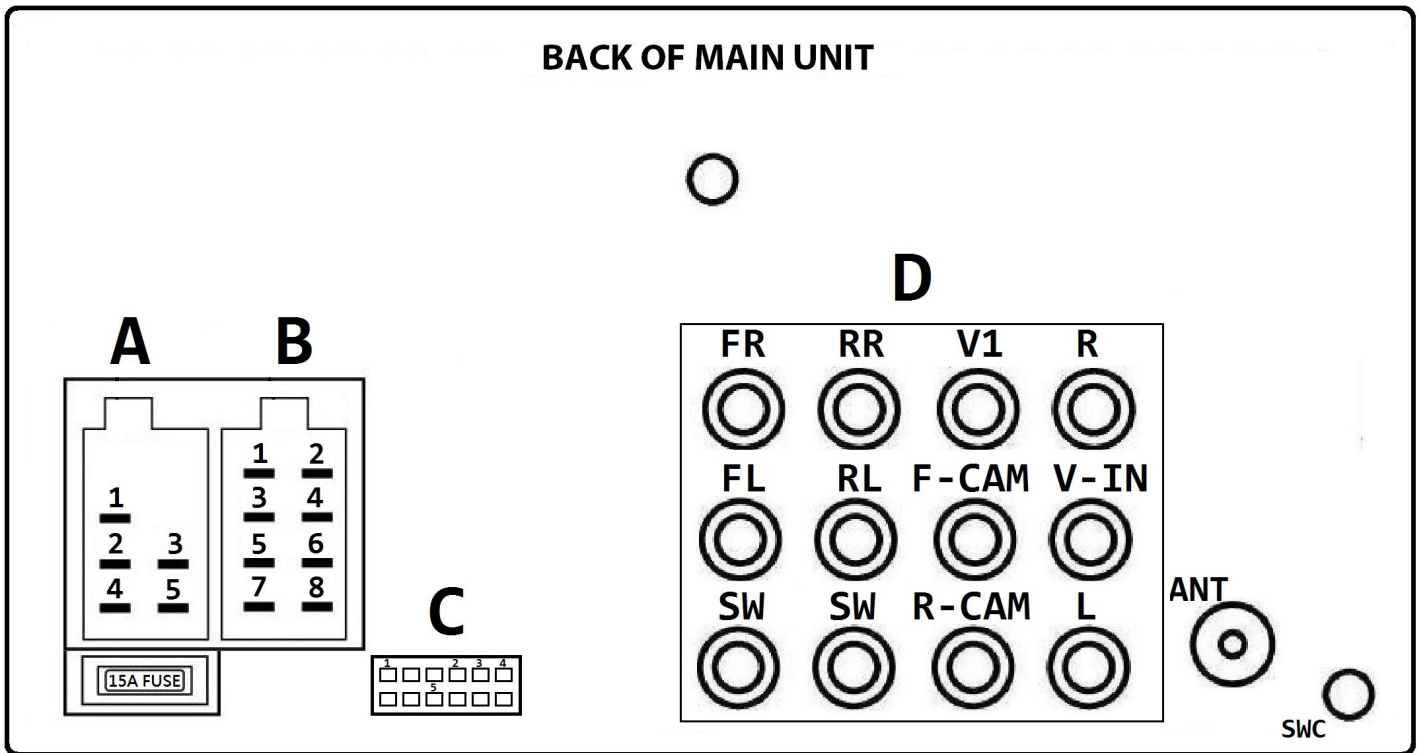

Socket A (Power)

MAIN UNIT OPERATION
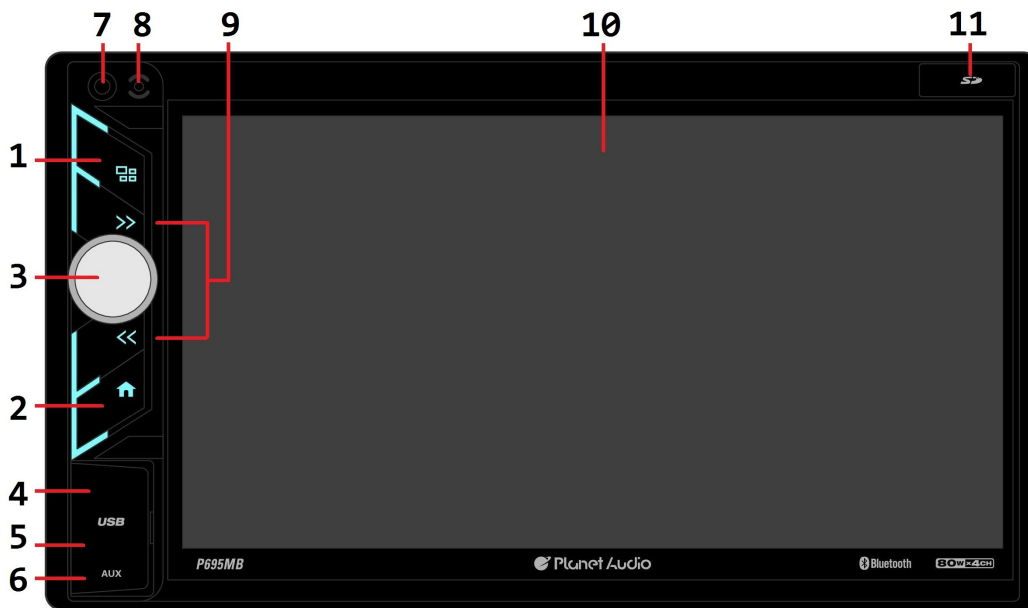

Operations & Controls

1. Press repeatedly to select the desired mode for operation.

2. Press to shift screen between MAIN MENU and current operation mode.

3. Power On/Off
    When the unit is turned off, press to turn on the unit.
    When the unit is turned on, press & hold shortly to turn off the unit.
    Volume Control
    Rotate to adjust sound output level
    Sound Mute
    When the unit is turned on, press to turn on or off of sound mute control.

4. Open the USB cover and insert USB device to the USB slot for digital files playback.

5. Open the USB cover, press with a pointed object (such as a ballpoint) to reset the unit to its initial setting by the factory (default stage).

6. Open the USB cover and Insert an external device to this jack in order to have sound output of that external device through the unit.

7. Built-in microphone for voice reception under Bluetooth operation.

8. Remote control sensor for signal reception from remote handset.

9. Tuner Mode
    Press to tune the radio frequency upward or downward and stop for broadcasting when a radio station received.
    Press & hold shortly to shift to manual tuning mode. At this mode, press repeatedly to fine tune the radio frequency upward or downward.
    USB/SD Input Mode / Bluetooth Streaming Mode
    Press repeatedly to shift track upward or downward for playback.
    Press & hold shortly to activate fast forward/rewind mode. At this mode, press repeatedly to select various fast forward/rewind speeds for playback.
    (Note: Fast forward/rewind is not available at Bluetooth mode & picture playback mode)

10. It shows the status of operation on the unit. This screen is also a touch display – soft touch the screen for different operations of unit (refer to other parts of this manual for operation details).

11. Open the SD cover and Insert micro SD card to this port for digital files playback.

REMOTE HANDSET – GENERAL OPERATION
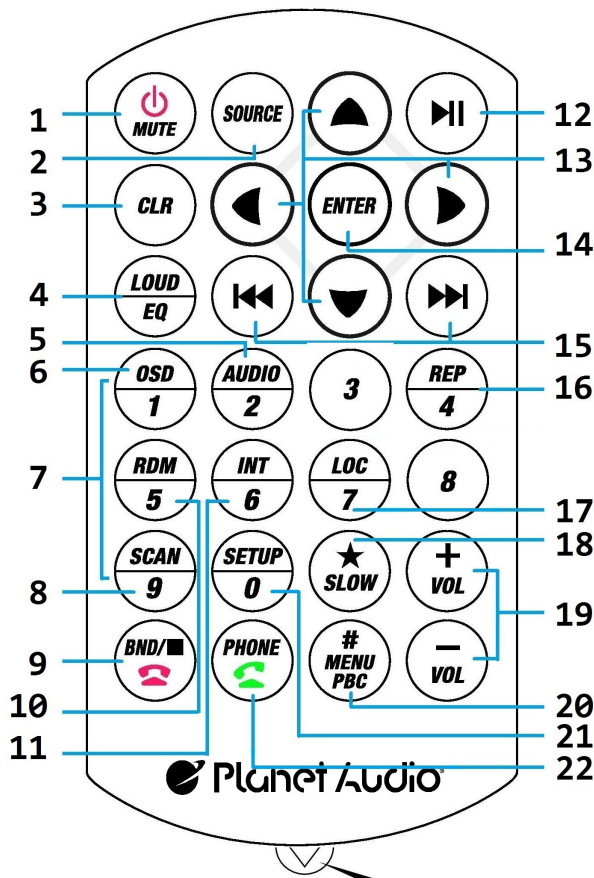

Remove this tab before using the remote handset

BATTERY REPLACEMENT

Refer to the back of remote handset for details on how to replace the battery. Replace the battery only with the same or equivalent type.

Note: If the remote handset will not be used for a long time, please remove the battery from the battery compartment.

| NO.	SYMBOL	OPERATION & CONTROL MODES
1.	⏻	When the unit is turn off, press to turn on the unit.
		When the unit is turn on, press & hold shortly to turn off the unit.
	MUTE	During unit operation, press to turn on or off of sound mute control
2.	SOURCE	Press repeatedly to select the desired mode for operation
3.	CLR	At Phone (Bluetooth) mode, press to erase the digit input by error.

20.	MENU / PBC #	No available for operation. <u>Phone (Bluetooth) Conversation Mode</u> Press to input if so required.
21.	SETUP	During unit operation, press & hold shortly to activate settings menu on screen for various system setup. Press & hold shortly again to return to previous operation mode. (Note: System setup cannot be operated by remote handset)
22.	☎ / PHONE	<u>Phone (Bluetooth) Mode</u> During unit operation, press to shift to Phone (Bluetooth) mode for operation. Press to pick up an incoming call; dial out after input a phone number; redial last contacted number. <u>Phone (Bluetooth) Conversation Mode</u> Press to shift conversation between main unit and mobile phone.

Remarks: Depends on the input devices & playback media files, operation may be varied or not available for operation.

ON SCREEN – MAIN MENU OPERATION
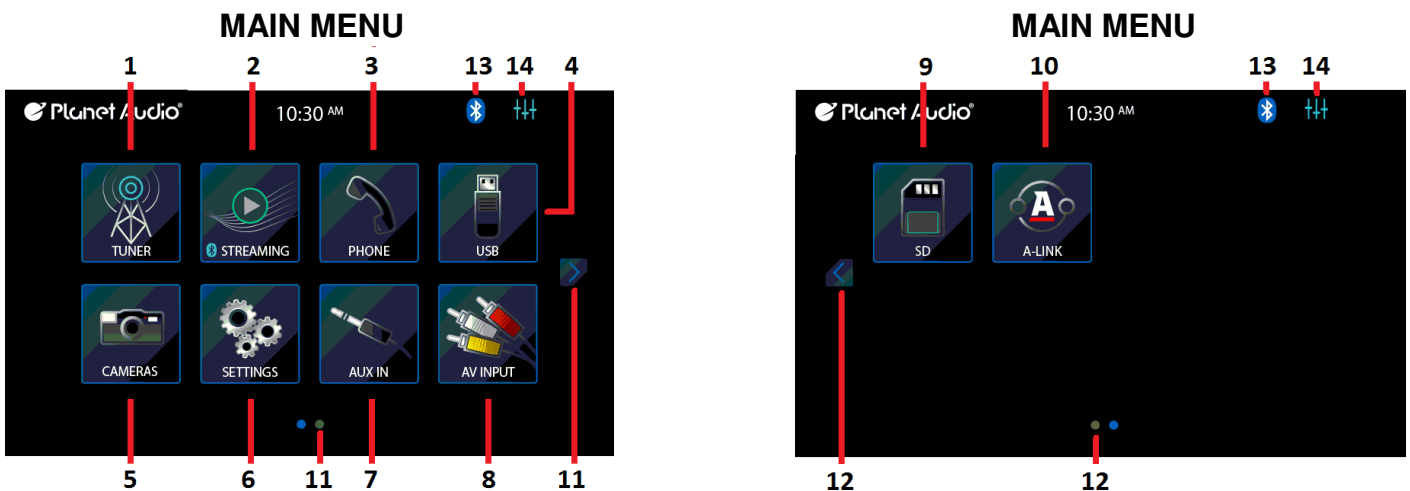

At **MAIN MENU**, touch the icon of the desired mode on screen and the unit will then enter into the mode that selected for operation.

At **MAIN MENU**, touch & hold on screen and slide to left or right will shift screen to another **MAIN MENU** for operation selection.

1. Touch to start tuner operation (when the radio antenna connected).
2. Touch to start Bluetooth streaming operation (when a mobile phone connected).
3. Touch to start phone (Bluetooth) operation (when a mobile phone connected).
4. Touch to start USB input operation (when an USB device inserted).

5. Touch to start camera input operation (when connected with front and/or rear camera).

6. Touch to start various setup of the unit.

7. Touch to start auxiliary input operation (when an external device has been connected).

8. Touch to start AV input operation (when an external AV device has been connected).

9. Touch to start SD card input operation (when a micro SD card inserted).

10. Touch to start mobile phone mirror linking operation (when the mobile phone connected to the front USB port).

11. Touch to shift to next **MAIN MENU**.

12. Touch to shift to previous **MAIN MENU**.

13. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.

14. Touch to activate **AUDIO MENU** for various audio settings.
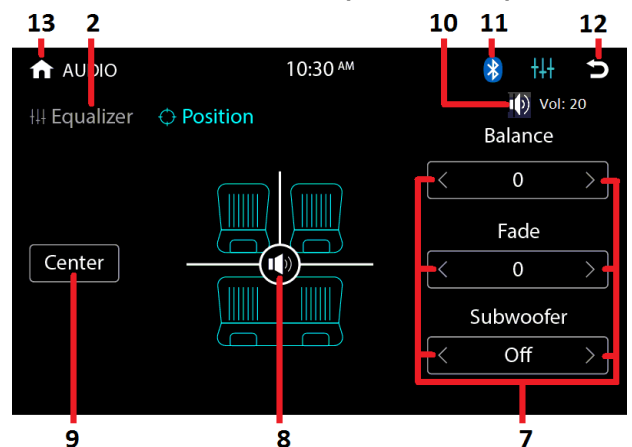

ON SCREEN – AUDIO SETTING

During unit operation and when this icon appeared on screen, touch to activate **AUDIO MENU** for various audio setup.
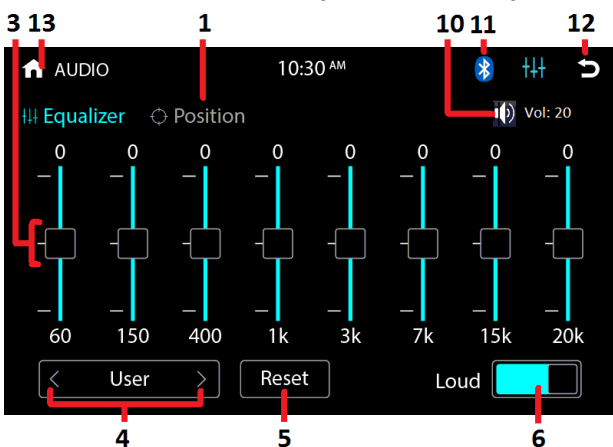

### AUDIO MENU (EQUALIZER)   AUDIO MENU (POSITION)

1. Touch to shift to **AUDIO MENU (POSITION)** for various audio output settings.

2. Touch to shift to **AUDIO MENU (EQUALIZER)** for various equalization settings.

3. At "User" mode, hold & slide to set for the desired frequency level.

4. Touch repeatedly to select the desired preset equalization mode. At "User" mode, the frequencies can be set by the user.

5. At "User" mode, touch to reset the frequencies to the default level.

6. Touch to turn on or off of loudness.

7. Touch repeatedly to set for the desired output level on balance, fader & subwoofer.

8. Hold & slide to set for the output level on left / right / front / rear speaker.

9. Touch to reset the output level of left / right / front / rear speakers to center position.

10. This shows the current volume output level.

11. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.

12. Touch to shift screen to previous menu or operation mode.

13. Touch to shift screen to previous menu or operation mode.

VOLUME CONTROL MENU
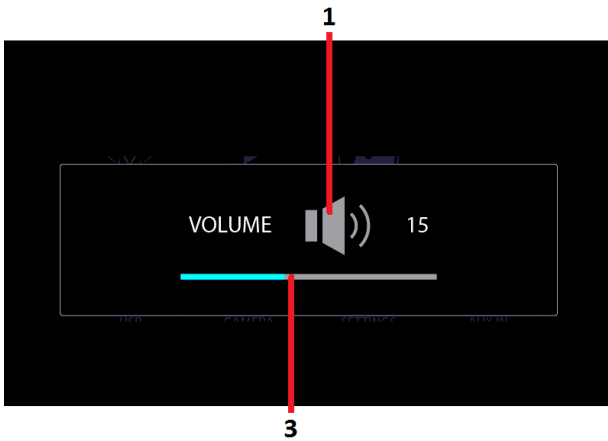

VOLUME CONTROL MENU
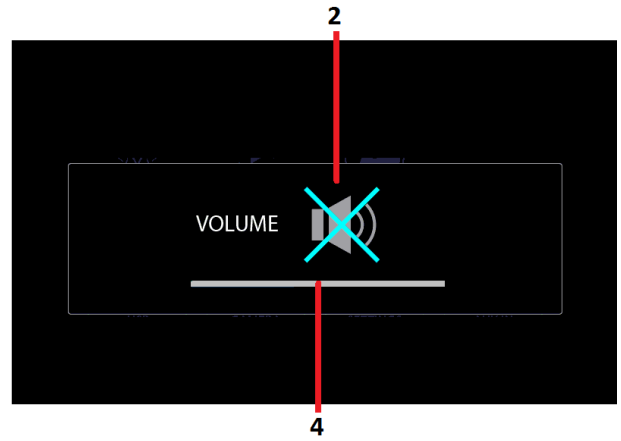

During unit operation and when the above **VOLUME CONTROL MENU** appeared on screen:

1. Touch to turn on sound mute.
2. Touch to turn off sound mute.
3. Hold & slide to set for the desired sound output level.
4. Hold & slide to turn off sound mute and set for the desired sound output level.
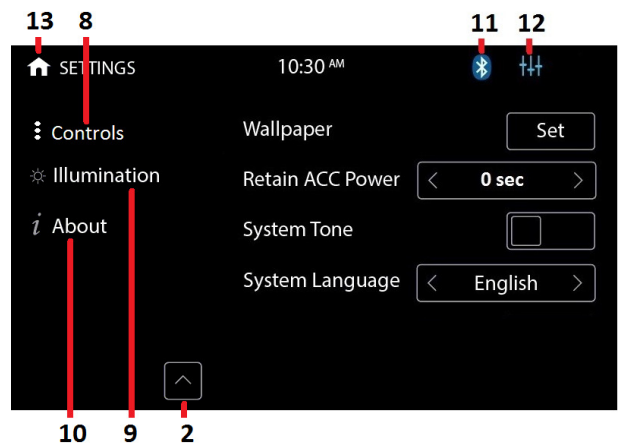

ON SCREEN – SETUP OPERATION

At **MAIN MENU**, touch on screen and shift to **SETTINGS MENU** for various setup selection of the unit.

SETTINGS MENU
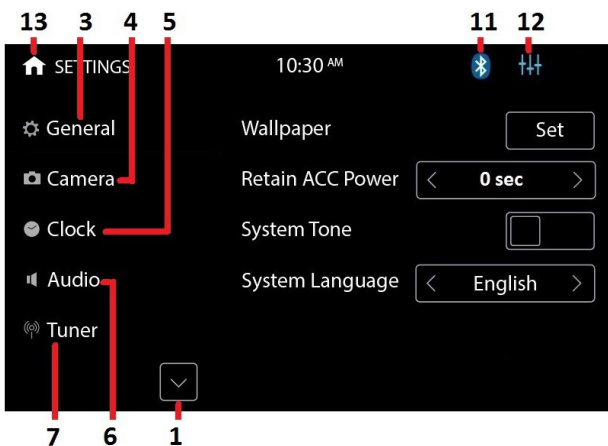

SETTINGS MENU

1. Touch to shift to next **SETTINGS MENU.**
2. Touch to shift to previous **SETTINGS MENU**.
3. Touch to shift to **GENERAL SETTINGS MENU** for general settings of the unit.
4. Touch to shift to **CAMERA SETTINGS MENU** for camera settings of the unit.
5. Touch to shift to **CLOCK SETTINGS MENU** for clock settings of the unit.
6. Touch to shift to **AUDIO SETTINGS MENU** for audio settings of the unit.
7. Touch to shift to **TUNER SETTINGS MENU** for radio settings of the unit.
8. Touch to shift to **CONTROLS (BACKLIGHT) SETTINGS MENU** for backlight settings of the unit.
9. Touch to shift to **ILLUMINATION (VISUAL) SETTINGS MENU** for visual settings of the unit.
10. Touch to shift to **ABOUT (SYSTEM) SETTINGS MENU** for system settings of the unit.

[9]

11. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.

12. Touch to activate **AUDIO MENU** for various audio settings.

13. Touch to shift to **MAIN MENU** for operation mode selection.

GENERAL SETTINGS

GENERAL MENU
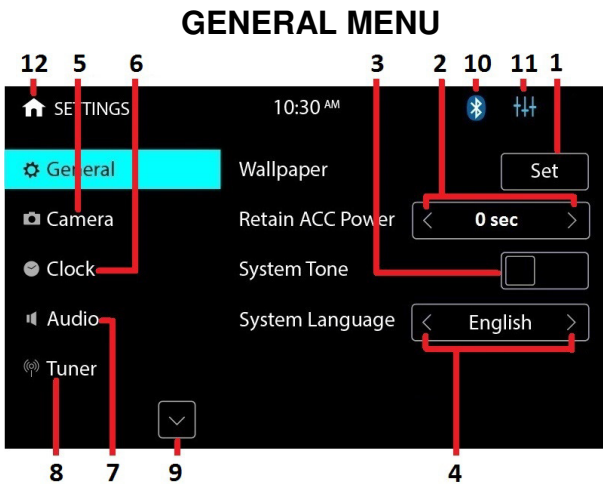

1. Touch to activate WALLPAPER INTERFACE to select the desired wallpaper (background) of the unit.

2. Touch repeatedly to select the delay time of ACC power cutoff.

3. Touch to turn on or off of beep sound when touching on screen or pressing the control keys on main unit / remote handset for control.

4. Touch to select the system language on screen.

5. Touch to shift to **CAMERA SETTINGS MENU** for camera settings of the unit.

6. Touch to shift to **CLOCK SETTINGS MENU** for clock settings of the unit.

7. Touch to shift to **AUDIO SETTINGS MENU** for audio settings of the unit.

8. Touch to shift to **TUNER SETTINGS MENU** for radio settings of the unit.

9. Touch to show other settings modes of the unit.

10. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.

11. Touch to activate **AUDIO MENU** for various audio settings.
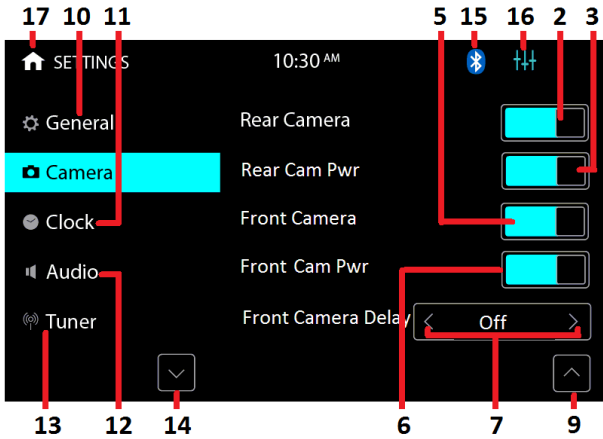

12. Touch to shift to **MAIN MENU**.

CAMERA SETTINGS

CAMERA MENU
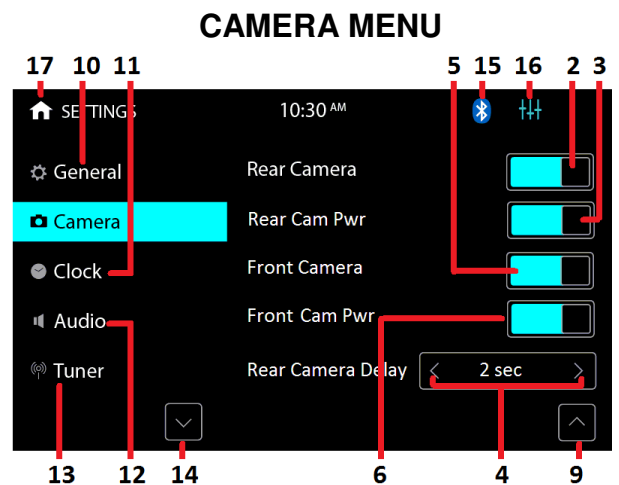

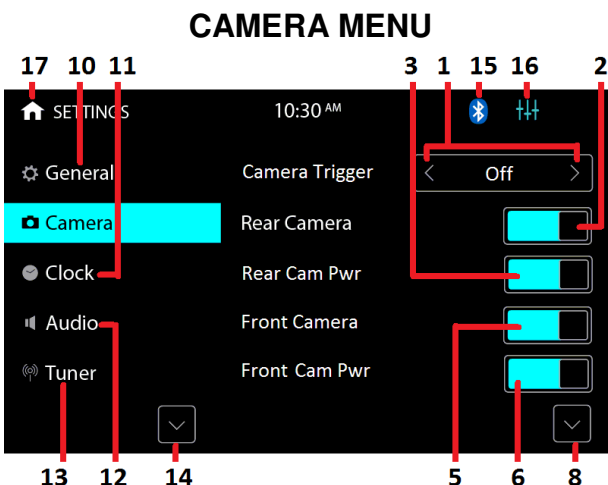

CAMERA MENU

CAMERA MENU

1. Touch repeatedly to select the front or rear camera viewing when the car is shifted from forward mode to backward mode. When "Off" is selected, no camera viewing available at car backward mode.

2. Touch to turn on or off of rear camera input.

3. When rear camera input turn on, touch to turn on or off of +12V power connection to the rear camera (when the red/white wire connected).

4. When rear camera input turn on, touch repeatedly to select the delay time of rear camera input viewing.

5. Touch to turn on or off of front camera input.

6. When front camera input turn on, touch to turn on or off of +12V power connection to the front camera (when the red/violet wire connected).

7. When front camera input turn on, touch repeatedly to select the delay time of front camera input viewing.

8. Touch to shift to next **CAMERA SETTINGS MENU**.

9. Touch to shift to previous **CAMERA SETTINGS MENU**.

10. Touch to shift to **GENERAL SETTINGS MENU** for general settings of the unit.

11. Touch to shift to **CLOCK SETTINGS MENU** for clock settings of the unit.

12. Touch to shift to **AUDIO SETTINGS MENU** for audio settings of the unit.

13. Touch to shift to **TUNER SETTINGS MENU** for radio settings of the unit.

14. Touch to show other setting modes of the unit.

15. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.

16. Touch to activate **AUDIO MENU** for various audio settings.

17. Touch to shift to **MAIN MENU**.

CLOCK SETTINGS

CLOCK MENU
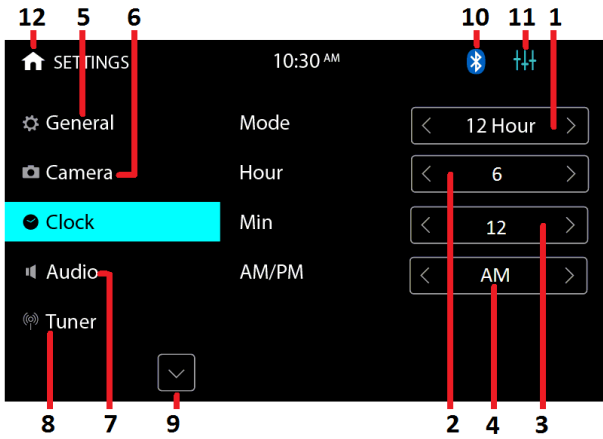

1. Touch to select 12 hour or 24 hour display format of clock.
2. Touch repeatedly to adjust hour of clock.
3. Touch repeatedly to adjust minute of clock.
4. At 12 hour display format, touch to select AM / PM display.
5. Touch to shift to **GENERAL SETTINGS MENU** for general settings of the unit.
6. Touch to shift to **CAMERA SETTINGS MENU** for camera settings of the unit.
7. Touch to shift to **AUDIO SETTINGS MENU** for audio settings of the unit.
8. Touch to shift to **TUNER SETTINGS MENU** for radio settings of the unit.
9. Touch to show other settings modes of the unit.
10. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.
11. Touch to activate **AUDIO MENU** for various audio settings.
12. Touch to shift to **MAIN MENU**.

AUDIO SETTINGS
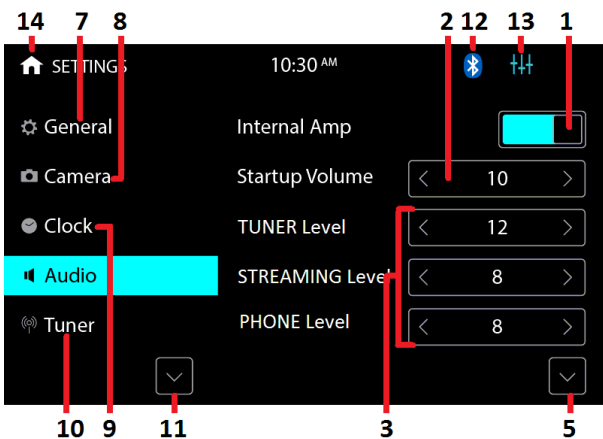

AUDIO SETTING MENU
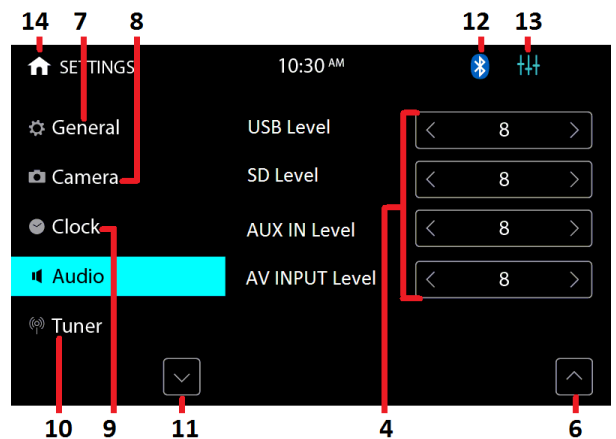

1. Touch to turn on or off of internal amplifier output.
   When the internal amplifier has been turn off, this is no power output from all the speakers but output from RCA and sub-woofer still remain.

4. Touch to activate **AUDIO MENU** for various audio settings.
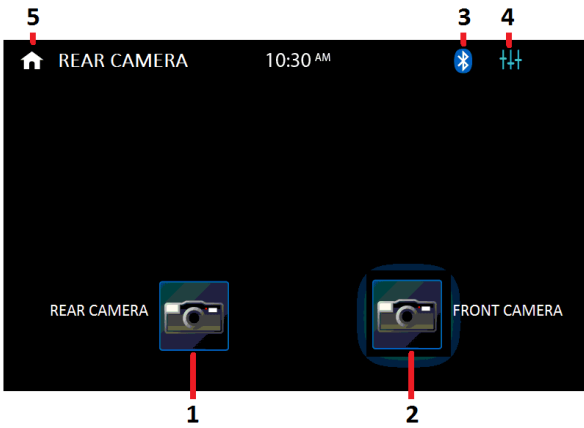

5. Touch to shift to **MAIN MENU**.

ON SCREEN – CAMERA OPERATION

At **MAIN MENU**, touch on screen and shift to front / rear camera viewing on screen.
(Note: Front and/or rear camera should be connected)

During camera viewing on screen, touch any portion on screen to activate **CAMERA INPUT MENU** for camera operation.
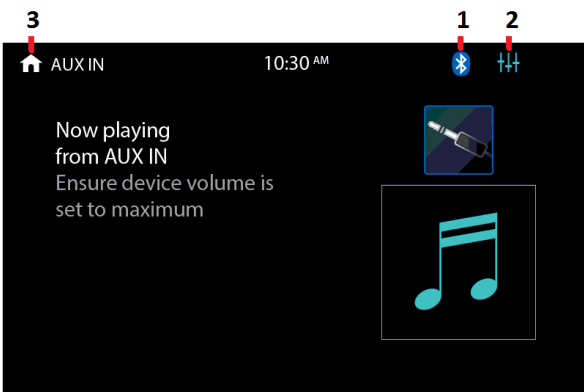

CAMERA INPUT MENU

1. Touch to select rear camera viewing.
2. Touch to select front camera viewing.
3. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.
4. Touch to activate **AUDIO MENU** for various audio settings.
5. Touch to shift to **MAIN MENU**.

ON SCREEN – AUXILIARY INPUT OPERATION

At **MAIN MENU**, touch on screen to shift to **AUXILIARY INPUT MENU** for auxiliary input operation (provided an auxiliary audio device had been connected).

AUXILIARY INPUT MENU

1. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.
2. Touch to activate **AUDIO MENU** for various audio settings.
3. Touch to shift to **MAIN MENU**.

ON SCREEN – AV INPUT OPERATION

At **MAIN MENU**, touch on screen to shift to **AV INPUT MENU** for audio & video input operation (provided an AV device had been connected).
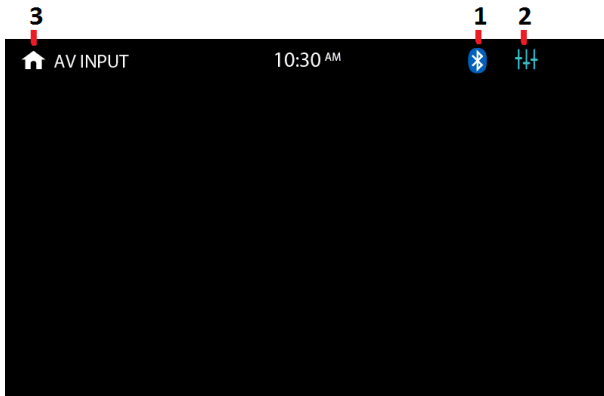

During AV input operation, touch any portion on screen to activate **AV INPUT MENU** for AV input operation.

[23]

Due to the law of some countries and areas, watching video is not allowed during driving. To allow video playback, parking brake must be engaged (light green wire - parking brake input must be connected).

The **PARKING BRAKE WARNING INTERFACE** will appear on screen and no video playback start in case the parking brake input has not been connected and engaged.

PARKING BRAKE WARNING INTERFACE

For Safety, the vehicle must be parked in a safe location and parking brake engaged

AV INPUT MENU

1. This Bluetooth icon will light up if the unit has connected to a mobile phone. If no connection made, the icon will flash.
2. Touch to activate **AUDIO MENU** for various audio settings.
3. Touch to shift to **MAIN MENU**.

ON SCREEN – A-LINK OPERATION

At **MAIN MENU**, touch on screen to start mobile phone linking (mirror linking) of the connected mobile phone operation. Follow the instruction as shown on screen for the first time connection.

Remark: For A-Link operation, parking brake must be engaged (light green wire – parking brake input must be connected).

The **PARKING BRAKE WARNING INTERFACE** will appear on screen in case the parking brake input has not been connected and engaged.

PARKING BRAKE WARNING INTERFACE

Parking Brake must be engaged to use this feature   OK
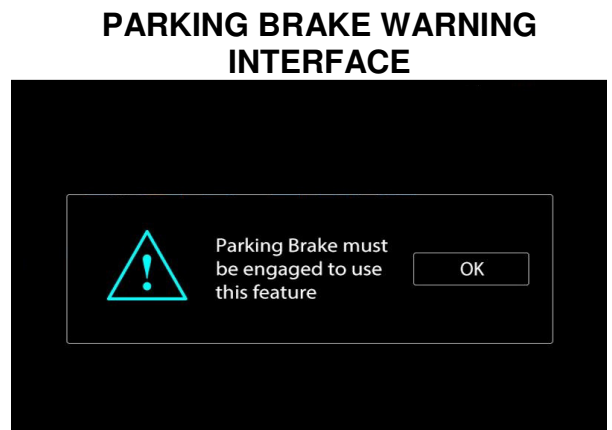

Procedures for A-Link operation:
1. Using USB cable to connect the mobile phone to the front USB slot of the head unit.
2. In case of need, touch "A-LINK" operation mode on screen from the **MAIN MENU**.
3. **SETUP MENU** appears on screen, scan the QR code by using the connected mobile phone.
4. Download and install Autolink app.

5. After installation, mirror linking of mobile phone will appear on screen and A-Link operation activated.
6. Depends on the mobile phone used, it may be necessary to disconnect the mobile phone from the USB slot first and then plug in again in order to start A-Link operation.

SETUP MENU
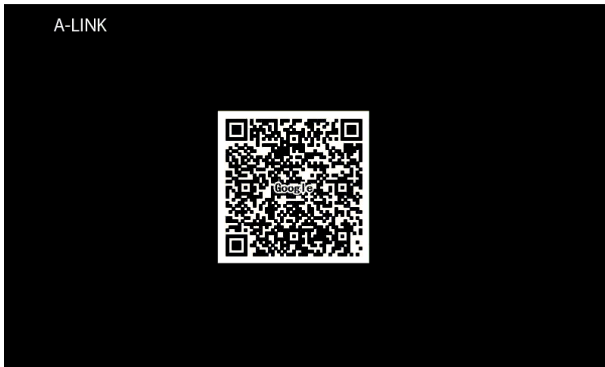

**Important notice on mobile phone linking operation on Android mobile phone:**
1. This head unit supports Android phone 6.0 or above with USB mirror linking function.
2. USB cable should be used to connect the phone to the front USB slot of the head unit.
3. In case connection failed, **SETUP MENU** will remain on screen.
4. Phone set up may be varied from different phones and USB debug may be necessary. Refer to the operation method of the mobile phone for details (usually at setting mode → developer options → USB debugging).
5. A-Link operation does not support IOS mobile phone.

FLOATING DOCK OPERATION UNDER A-LINK

At A-Link operation mode and when this floating dock icon appeared on screen, touch to activate **FLOATING DOCK MENU** on screen for various functions and controls of the unit. This menu will be closed when no operation for a while. Touch any blank portion on screen will also close this menu.

SETUP MENU
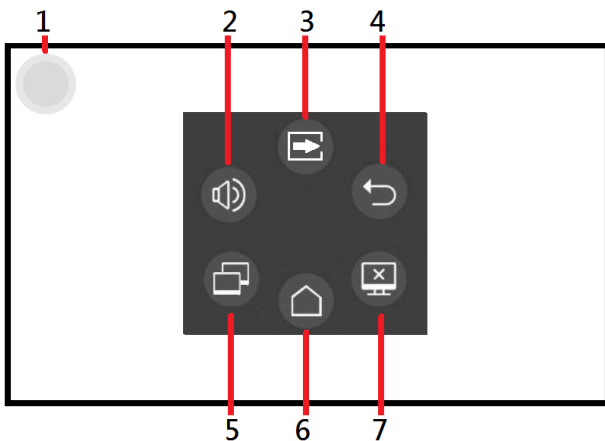

1. Touch to activate **FLOATING DOCK MENU** on screen for various functions and controls of the unit. Hold & slide can move this icon to other desired position on the screen.
2. Touch to activate volume & sound mute control of the car unit.
3. Touch to shift screen to the **MAIN MENU** of the car unit.
4. Touch to shift screen to previous page of the connected phone.
5. Touch to shift horizontal / vertical viewing of the connected phone.
6. Touch to shift screen to the main menu of the connected phone.
7. Touch to turn off the screen. When the screen turned off, touch any portion of the screen to turn on the screen.

SPECIFICATION

GENERAL

Power Requirement:	DC 12 Volts, negative ground
Load Impedance:	4 Ohms
Maximum Power Output:	80 watts x 4

AM RADIO SECTION

Frequency Range	530 – 1710 KHz (America)
	522 – 1620 KHz (Europe)

FM RADIO SECTION

Frequency Range	87.5 – 107.9 MHz (America)
	87.5 – 108 MHz (Europe)

VIDEO SECTION

Video System:	PAL / NTSC
TFT Screen:	800*480 pixel

BLUETOOTH SECTION

Communication type:	V4.2
Maximum Distance:	5 meters

AUDIO SECTION

Maximum Output Level:	3 Vrms (+/-3 dB)
Frequency Response:	20 Hz to 20 KHz
Signal to Noise Ratio:	85 dB
Channel Separation:	80 dB

Note: Specification and design; functions and features; unit illumination; color and display segment are subject to change without prior notice. Photos and drawings on gift box or operation manual might be varied from the exact unit. Depends on the input devices, operation might be varied or not available from the operation manual described.

SIMPLE TROUBLE SHOOTING

PROBLEMS, CAUSES & SOLUTIONS

No power
- Check and make sure the connecting wires are connected correctly
- Check whether the fuse is blown. Replace with the proper value fuse if necessary.

No sound
- Check and make sure the speaker wires are connected correctly.

No picture
- Check whether the video wire is connected to the video device.

Unit hang-up
- Press the RESET button to reset the unit to its default stage.

No function when pressing the buttons or TFT screen
- Press the RESET button to reset the unit to its default stage.

Poor effect or unable to receive radio
- Check whether the radio antenna is inserted or properly connected.
- Antenna may not be the proper length. Make sure the antenna is fully extended.
- Antenna may be poorly grounded. Check and make sure the antenna is properly grounded.

Stereo cannot be received under radio mode
- Tune the radio frequency accurately.
- The broadcasting signal is too weak, set the mode to MONO & DX modes.

Remote handset does not work
- Replace new battery of the remote handset.
- Point the remote handset directly at the remote sensor of the main unit.
- Clean the surface of the remote sensor.

Bluetooth not operated
- check the devices are linked up correctly.

Note
After the above efforts, if the unit still cannot be worked normally, consult your service dealer. Never attempt to disassemble the unit by yourself. No service part inside the unit.
