Installation Guide

Lock nut Tie Rod Ball Stud Grease fitting

Maintenance Instructions

Adjustment to eliminate end-play

Remove set screws (2)

Use pliers to secure here

Tighten inner face

Apply Loctite to set screws

Reinstall set screws

Tie Rod length

1 1/8" Jam nut

Inner flats (5/8")

Zerk fitting (2011+ only)

Inner face

End Cap

Installation: Instructions for installation of new PPE Tie Rods to be performed on each side.

Remove front wheels and engine shield.

- Step 1:** Locate installed tie rods.
- Step 2:** Remove Lock Nut from outer Tie Rod Ball Stud. Use a tie rod fork tool to remove Tie Rod Ball Stud from tapered hole in Steering Knuckle.
- Step 3:** Unthread inner Tie Rod End from centerlink.
- Step 4:** Clean tapered hole and threaded end of center link.
- Step 5:** Measure length on removed tie rod from inner face to the center of the grease fitting.
- Step 6:** Using measurement from Step 5, adjust the length of the new PPE Tie Rod assembly to match the length of the old assembly.
- Step 7:** Tighten Jam Nut to lock length using a 1 1/8" wrench.
- Step 8:** Apply "red thread locker" and thread in the inner Tie Rod face to centerlink. Torque to 74 lb. ft.
- Step 9:** Insert tapered stud into tapered hole in spindle boss. Attach Lock Nut.
- Step 10:** Tighten lock nut using a 20 mm wrench. Torque to 48 lb. ft.
- NOTE:** A 9 mm wrench can be used to secure stud while tightening the Lock Nut.
- Step 11:** Grease outer Tie Rod end and center link with high-grade lubricant.
- Step 12:** Perform and confirm proper alignment and clearance. Longer sway bar end links may be required.
- Step 13:** To adjust toe, use 5/8" wrench on the inner flats if adjustment is necessary.
- Step 14:** Confirm/tighten set screws on Tie Rod inners.
- Step 15:** Steering wheel and toe adjustment will need to be adjusted to factory specs with a professional alignment.

Upgrade: Instructions for performance upgrade of PPE Tie Rods to be performed on each side.

A: Loosen or remove set screws and remove end cap.

B: Install performance shim. Replace and tighten set screws. Reinstall end cap.

DISCLAIMER OF LIABILITY

Performance products can increase horsepower above and beyond factory specifications. Additional horsepower creates more stress on the drive-train components, which could result in drive-train failure.

Note regarding emissions-related, non-E.O.-legal products: THESE PRODUCTS ARE LEGAL IN CALIFORNIA ONLY FOR RACING VEHICLES THAT MAY NEVER BE USED, OR REGISTERED OR LICENSED FOR HIGHWAY OR OFF-ROAD USE.

This agreement sets forth the terms and conditions for the use of PPE products. The installation of this product indicates that the Buyer has read and understands this agreement and accepts the terms and conditions. PPE (Pacific Performance Engineering) Inc., its distributors, employees, and dealers (the "Seller") shall not be responsible for the product's proper use and service. The buyer hereby waives all liability claims. The Buyer hereby acknowledges no reliance on the Seller's skill or judgment to select or furnish goods suitable for any particular purpose and that there are no liabilities which extend beyond the description on the face hereof, and the Buyer hereby waives all remedies or liabilities expressed or implied, arising by law or otherwise (including without any obligation of the Seller with respect to fitness, merchantability and consequential damages), or whether or not occasioned by the Seller's negligence. The Seller disclaims any warranty and expressly disclaims any liability for personal injury or damages. The Buyer acknowledges and agrees that the disclaimer of any liability for personal injury is a material term for this agreement and the Buyer agrees to indemnify the Seller and to hold the Seller harmless from any claim related to the item of equipment purchased. Under no circumstances will the Seller be liable for any damages or expenses by reason of use or sale of any such equipment. The Seller assumes no liability regarding the improper installation or misapplication of its products. It is the installer's responsibility to check for proper installation and if in doubt, contact the manufacturer. The Buyer is solely responsible for all warranty issues from the manufacturer.
