

OE Series Super <u>5th Hitch Cover</u> Instructions Part #1412

(fits #1300 & #1400 models)

NOTE: Before proceeding, make sure the hitch height is adjusted to the proper height.

- 1. Place the hole, located on the back left corner of the hitch cover, over the handle of the hitch.
- 2. Pull the front and back of the cover snugly over the hitch.
- 3. Pull the side portions of the cover snugly over the hitch, and make a mark on each side where the Velcro strips on the cover should be located for a tight fit.
- 4. Remove the cover.
- 5. Clean and dry the areas you have marked before attaching the Velcro.
- 6. Remove the backing to expose the sticky side of the Velcro and position where you made your marks. Be sure the Velcro is firmly secured.
- Place the cover back on the hitch.

NOTE: To clean the hitch cover, use mild soap and water with a soft cloth. DO NOT use a brush, harsh chemical or abrasive. DO NOT scrub the logo area or power wash.
