INTRODUCTION

Introduction

PURFLUX, a world-known filtration expert, is constantly focused on new products introduction in order to improve the car parc coverage and provide excellent service to its customers.

Early this year PURFLUX is launching 100 new references. Most important references are available from January 2019. Other references will complete this batch in February 2019. We are starting 2019 at our best!

This catalogue presents:

- 57 air filters
- 17 cabin filters
- 18 fuel filters
- 8 oil filters

Thanks to these new references, PURFLUX is putting its filters offer to even higher level, specifically on vehicles of Asian manufacturers (HYUNDAI, KIA, MAZDA, TOYOTA) and German producers (BMW, MERCEDES BENZ). In total, it's more than 10 million of additional vehicles covered in Europe and 300 models on which Purflux proposes a complete filters range.
