Electrical safety

All products are fitted with a detachable power cord (supplied) which connects to the AC mains and the back panel of the loudspeaker. The power cord has an IEC female connector on one end and male mains connectors on the other end. This cord is supplied specially to accommodate the different worldwide safety and electrical code requirements. The power cord supplied with your product has a 3-pin type plug. Do not cut off or damage the grounding plug. Like any electrical appliance, your EON powered speakers should not be used in water or when wet.

Product design and specifications are subject to change without previous notice.
