2015-2017	VW	Tiguan	Front	371614	Tug Shaft	

**** Special fitment note: Our tow hook shafts have a .875" diameter. The hole in the bumper beam of some cars is smaller than this size. To get our shaft threaded into the bumper beam, the hole needs to be increased in diameter so the threads on the shaft, reach the threads inside the bumper beam. ****

Check out the collection of racing tow hooks we offer.
