Euro Tail Light Guards

For proper installation and best possible fit, please read all instructions BEFORE you begin.

Contents

NOTE: Actual product may vary from illustration.

(2) Tail Light Guards

(4) Small Diameter Screws

(4) Large Diameter Screws

Tools Required

Philips Head Screwdriver

---

1 Remove the 4 factory screws secureing the lens to the taillight.

Note: the (2) screws closest to the tailgate also secure the tail light assembly to the vehicle. Take care the assembly does not fall after removing the screws.

See **Figure 1**.

Figure 1

Remove

---

2 Using the provided Large Diameter Screws, attach the Tail Light Guard to the Tail Light at the two outer screw locations.

Then install the Small Diameter Screws through the light guard, through the tail light and into the pre-existing holes in the body.

THe outer edge of the tail light has clips that hook to the sheet metal. Make sure they are properly engaged before installing the inner screws.

See **Figure 2**.
