

MID SERIES RCA AUDIO CABLES

PRODUCT OVERVIEW

The standard Mid Series RCA audio cables will have right-angled connectors that fit better into shallow applications, allowing for less looping wires and a cleaner installation. The Mid Series amp kits have also been updated to use these same RCA cables.

New Mid Series Part Numbers

- R4RCA18IN - 2CH - 1.5FT/0.4M
- R4RCA3 - 2CH - 3FT/0.9M
