

Product Warranty and Warnings-

RBP provides a Limited Lifetime Warranty to the original retail purchaser who owns the vehicle, on which the product was originally installed, for defects in workmanship and materials.

The Limited Lifetime Warranty excludes the following RBP items; bushings, bump stops, ball joints, tie rod ends, limiting straps, cross shafts, heim joints and driveshafts. These parts are subject to wear and are not considered defective when worn. They are warranted for 60 days from the date of purchase for defects in workmanship.

Take apart shocks are considered a serviceable shock with a one year warranty on leakage only. Service seal kits are available separately for future maintenance. All other shocks are covered under our Limited Lifetime Warranty.

RBP does not warrant any product for finish, alterations, modifications and/or installation contrary to RBP's instructions. Alterations to the finish of the parts including but not limited to painting, powder coating, plating and/or welding will void all warranties. Some finish damage may occur to parts during shipping, which is considered normal and is not covered under warranty.

RBP products are not designed nor intended to be installed on vehicles used in race applications or for racing purposes or for similar activities. (A "RACE" is defined as any contest between two or more vehicles, or any contest of one or more vehicle against the clock, whether or not such contest is for a prize). This warranty does not include coverage for police or taxi vehicles, race vehicles, or vehicles used for government or commercial purposes. Also excluded from this warranty are sales outside of the United States of America.

Installation of most suspension products will raise the center of gravity of the vehicle and will cause the vehicle to handle differently than stock. It may increase the vehicle's susceptibility to a rollover, on road and off road, at all speeds. Extreme care should be taken to operate the vehicle safely at all times to prevent rollover or loss of control resulting in serious injury or death. RBP front end Desert Guards may impair the deployment or operation of vehicles equipped with supplemental restraining systems/air bag systems and should not be installed if the vehicle is equipped as so.

RBP makes every effort to ensure suspension product compatibility with all vehicles listed in the catalog, but due to unknown auto manufacturer's production changes and/or inconsistencies by the auto manufacturer, RBP cannot be responsible for 100% compatibility, including the fitment of tire and wheel sizes listed. The Tire and Wheel sizes listed in RBP's catalog are only a guideline for street driving with noted fender trimming. RBP is not responsible for damages to the vehicle's body or tires. RBP is not responsible for premature wear of factory components due to the installation of oversized tires and [wheels](#).

RBP's obligation under this warranty is limited to the repair or replacement, at RBP option, of the defective product only. All costs of removal, installation or re-installation, freight charges, incidental or consequential damages are expressly excluded from this warranty. RBP is not responsible for damages and/or warranty of other vehicle parts related or non related to the installed RBP product. This warranty is expressly in lieu of all other warranties expressed or implied. This warranty shall not apply to any product that has been subject to accident, negligence, alteration, abuse or misuse as determined by RBP.

RBP suspension components must be installed as a complete system including shocks as shown in our current catalog. All warranties will become void if RBP parts are combined and/or substituted with other aftermarket suspension products. Combination and/or substitution of other aftermarket suspension parts may cause premature wear and/or product failure resulting in an accident causing injury or death. RBP does not warrant products not manufactured by RBP.

Depending on the condition of the factory suspension components retained after the installation of a RBP suspension not all vehicles may have the same ride stance front to rear as described in the catalog. The blue color of suspension components shown in all RBP photographs are for display purposes only. Majority of all RBP components will be black specifically where noted with part numbers ending in BK.

Installation of RBP product may void the vehicles factory warranty; it is the consumer's responsibility to check with their local vehicle's dealer for warranty disposition before the installation of the product. Some state laws may prohibit modification of suspension to a vehicle in whole or in part. It is the responsibility of the installer and consumer to consult local laws prior to the installation of any RBP suspension product to comply with such written laws.

It is the responsibility of the distributor and/or the retailer to review all warranties and warnings of RBP products with the consumer prior to purchase.

RBP reserves the right to super cede, discontinue, change the design, finish, part number and/or application of parts when deemed necessary without written notice. RBP is not responsible for misprints or typographical errors within the catalog or price sheet.
