2006-2017 1500 4WD

**Tubular Upper Control Arm**  
**4" SST Lift Kit**

# 4" LIFT

### FEATURES & BENEFITS:

- Fixes OEM control arm/ball joint failure. Ram 1500 4WD factory ball joints have a chronic problem of popping out at full droop. This control arm Fixes that problem!
- Lift Your Ram 1500 truck a true 4 inches with confidence.
- DOM .120-wall tube steel upper control arms.
- New one-time urethane bushings and steel sleeves.
- CNC machined billet aluminum top mount and pre-load spacers.
- CNC machined billet aluminum rear coil spring spacers with polyurethane noise isolators built in.
- CNC machined billet aluminum rear bump stop extensions.
- Includes important front/rear sway bar relocation brackets.
- Includes Limited Lifetime Warranty
- Made in U.S.A.

## 4" SST LIFT KIT
