

## GM 2500/3500 HD BIG LIFT KITS w/ BILSTEIN SHOCKS

- **44-3072 - 2011-18 Chevy Silverado/GMC Sierra 2500/3500 HD 2WD/4WD - 7"-8" Adj. Big Lift Kit**
- **44-3052 - 2011-18 Chevy Silverado/GMC Sierra 2500/3500 HD 2WD/4WD - 5"-6" Adj. Big Lift Kit**

ReadyLIFT<sup>®</sup> is excited to announce that we now offer a popular, proven 5-6" and 7-8" Big Lift Kits for 2011-2018 Chevy Silverado / GMC Sierra 2500/3500HD trucks with premium Bilstein 5100 Series shocks! GM HD customers have asked for a high-quality shock matched up with their high-quality ReadyLIFT lift kit. We answered the call with the creation of two NEW lift kits that include 4 of the best shocks on the market today - the Bilstein 5100 series.

Bilstein 5100 series shocks are ideal for our new 44-3052 (5"-6") and 44-3072 (7"-8") lift kits. These 5100 shocks are dialed in for the proper valving for larger wheels and tires while providing the required length for each lifted application. These two new premium complete adjustable Big Lift Kits for 2011-2018 Chevy Silverado/GMC Sierra 2500HD/3500HD 2WD/4WD trucks are specifically designed to give you a quality lift with rugged off road strength while maintaining the factory ride on the street.

These two HD lift systems feature precision-designed laser-cut and CNC formed sub-frame assemblies that directly bolt in. Kits also include custom-formed nodular iron knuckles engineered to provide perfect geometry for superior ride and handling performance. Kits include an integrated differential drop bracket system to ensure correct CV axle angles on 4WD applications and maximum performance in 4WD mode. Front lift is provided by ReadyLIFT forged torsion keys. This system provides adjustable lift from 5"-6" on 44-3052 and 7"-8" kit 44-3072 all while delivering an exceptional factory ride and handling courtesy of the Bilstein 5100 shocks and ReadyLIFT forged torsion keys. The complete kit 44-3072 includes tubular upper control arms. To lift the rear, this system includes OEM quality cast iron rear block that will not sacrifice ride quality. Kits also include tough steel bump stop extensions, sway bar end links and skid plate protection.

Part#	Max Tire	Wheel	Offset
44-3072	37X12.50	20x9	-6
44-3052	35X12.50	20x9	-6
