

## **MobileMule™**

### **8 Channel Mobile DVR with Live Video Remote Viewing + GPS**

The MobileMule™ 8170 is an eight channel mobile DVR designed for on-board vehicle recording which comes with remote live video viewing. With 4G, the footage can be accessed even while the vehicle is on the road, as long as it has 4G service. This allows easy viewing and downloading of real time footage from the vehicle while it's on the road! It has eight ports to record up to eight cameras simultaneously and an ethernet port to connect a forward facing IP camera. The system comes with GPS to record the vehicle location and driving route as well. Footage records onto a hard disk drive (sold separately) expandable up to 2TB, while also backing up the latest footage onto a 128GB SD Card! With a solid and compact build, the MobileMule™ 8170 is vibration-proof, installation-friendly and combines powerful functions together with a stable performance.

8 Channel Mobile DVR with Live Video Remote Viewing + GPS

## FEATURES

### IMPROVES PRODUCTIVITY

Know exactly where your drivers are and what they are doing at all times.

### SUPPORTS UP TO 8 CAMERAS

Can connect and record up to eight cameras (in addition to an IP camera), records all cameras simultaneously.

### CONNECT TO MONITOR

DVR connects to monitor allowing the driver to view all cameras connected in addition to recording them. Allows all trigger functions of a regular backup camera system.

### GPS TRACKING

Records speed, location and exact driving route together with footage. Seamless integration with Google Maps.

### GEO FENCING

Allows you to set a route and will alert you on playback if vehicle deviated off route.

### LOOP RECORDING

Records camera feeds continuously, looping over oldest recordings when storage is full.

### EVENTS

Can trigger certain recorded footage as events to be overwrite protected.

### G-SENSOR

Recognizes sudden movements i.e. hard acceleration, sudden stops, speeding and impacts. Can set alerts to keep these recordings as events.

### SATA DRIVE

Footage records onto SATA Drive with a maximum total storage capacity of 2TB

### H.264 VIDEO COMPRESSION

High quality compression allows the greatest quality video in the smallest storage space.

### DELAY POWER OFF

Up to 24 hour power off delay. To record footage even after the vehicle is shut off.

### MOBILE APP

Remote access extends even to Android operated mobile devices. View the cameras together with the vehicle location directly from your smartphone!

### NO ANNUAL CONTRACT

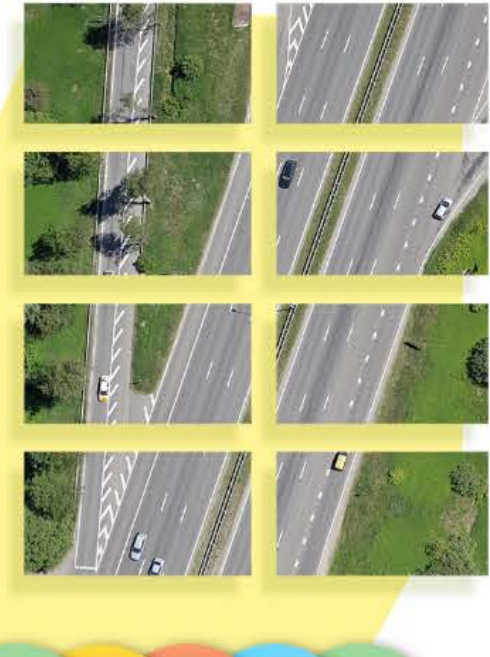

We don't charge any monthly or annual fees!

We allow you to organize data plans for the 4G directly through the network provider keeping your cost as low as possible.
