

# G - SERIES BACKUP CAMERA SYSTEM FOR DODGE

## RVS - 776718 - DODGE

**REAR VIEW  
SAFETY**  
A Safe Fleet Brand

This Backup Camera System comes with a 718 Mirror Monitor made with a mounting bracket specific for Dodge vehicles. This monitor will fit easily onto the windshield of all Dodges without any adjustments needed. Paired with the monitor in this system is the 776 Camera which despite its small size is powerfully built to withstand all weather conditions. The G-Series monitor replaces the existing rear view mirror for a clean look. Its screen is 4.3 inches wide and pushed to the left of the mirror to be more easily viewed by the driver. For an absolute perfect backing up experience, this monitor comes with adjustable grid lines, allowing you to adjust the grid lines to be completely accurate regardless of where you mount the camera. It is controlled with illuminated touch screen buttons.

The backup camera in this system is surface mounted and can fit almost any vehicle. This slick compact design makes the camera virtually invisible. The camera has an IP68 rating which makes it completely weatherproof and boasts excellent night vision. This system comes included with all parts necessary for installation.

Note: Monitor is specific for Dodge vehicles from 2012 onwards.
