Pick-Up Bed Corrugation Height Change

Product Family

Fifth Wheel and Gooseneck

30035, 30095, 50066, 56001,
6300, 8339

Vehicle Applications

2016 GMC/Chevrolet 2500 / 3500
pick-up trucks

The height of the bed corrugation on model year 2016 GMC/Chevrolet 2500/3500 pick-up trucks has been increased from prior model years. The distance between the high and low surfaces of the bed has increased by 1/8 inch. To compensate for this additional space, a 5/8-inch flat washer may be added to the shims provided in each installation kit. This will minimize the deformation of the truck bed when installing a Fifth Wheel or Gooseneck.
