## **Rennen International**

For over a decade, Rennen International has been one of the world's leading international distributors for automotive aftermarket wheels. Rennen International has been strategically positioned to become an international powerhouse for wheel manufacturing, distribution, and design. The company prides itself in always being able to "reinvent the wheel", and for always staying a step ahead of the competition. For two consecutive years 2009 and 2010, Rennen International has been honored and recognized by the INC 500, as being one of the top 500 fastest growing companies in the US, and awarded membership to its very elite and exclusive club. Members of this club include the likes of such companies as Google, Zappo's and Facebook. From artistic creation and engineering, to production and sales, we put 100% behind each step in the process. We ensure the highest level of customer satisfaction. With bi-coastal manufacturing and distribution locations in New York and Los Angeles, Rennen can efficiently manufacture and distribute product in the fastest turnarounds times known in the industry. Rennen International provides products that tap into virtually every single market segment:

- a. DONZ Forged Series** - The epitome of luxury alloy multi-piece wheels hand crafted in the USA with forged 6061-T6 aluminum alloy, built to order, and specifically tailored for each vehicle based on the customer's wants and needs.
- b. DONZ Signature Series** - Imported one piece luxury staggered wheels with stainless steel lips.
- c. Rennen Forged** - Lightweight one piece and multi-piece forged performance wheels. Styling for the enthusiastic - classic wheel designs with very fine details with a perfect balance between performance and aggressive styling.
- d. Rennen CSL, CRL** - CSL introduced removable stainless steel lips that can be changed into different colors. CRL are light weight cast wheels inspired by Rennen's well known forged designs.
- e. Rennen Blue Label** - Premium cast 1pc performance alloys for your luxury sedan or SUV.
- f. Rodtana Designs** - Retro hot rod wheel styles with a modern twist for your American muscle car and/or SUV. All styles are Available in multi-piece forged as well as limited edition styles available in cast.
- g. ONYX Luxury Collection** - "Blacked-Out" style luxury 1pc cast wheels and they are also available in Chrome.
- h. ONYX Offroad and Forged Offroad** - are made for the true offroad enthusiast. Built strong and built to last. All Onyx Forged wheels are made in the USA and manufactured in house.
- i. ZEN RACING WHEELS** - Lightweight one pc cast aftermarket tuner wheels for your sport compact luxury car or sedan.
- j. Private Label Wheel Manufacturing** - Rennen offers private label manufacturing for any wheel company, large or small, they specialize in aluminum alloy wheel manufacturing for 1pc 2pc and 3pc with variety of material composition and construction options.

Rennen International is the one-stop shop for all your wheel needs, from custom manufacturing forged one-off sets to mass production of some of the latest and greatest cast wheels. Rennen International is a company that fully understands all spectrums of the wheel market and can custom tailor a product to fit your market. This company constantly strives to meet the demands of high end consumers to exceed the expectations of their products and innovate the marketplace.
