

REV Distance +

What is DISTANCE+ Diesel Fuel Additive?

DISTANCE+ Diesel Fuel Additive is simply the most cost effective, complete, and high performance fuel additive available for running any diesel-powered equipment in summer conditions.

When you are looking for the highest quality summer fuel additive for today's ultra low sulfur diesel fuel, you need to look no further than our DISTANCE+ Diesel Fuel Additive. The DISTANCE+ Fuel Additive was formulated to be a true all-in-one ULSD fuel additive that requires NOTHING else to be added. DISTANCE+ Fuel Additive boosts ULSD fuel performance to a level that diesel owners simply have not had the opportunity to purchase.

Benefits of using DISTANCE+ Diesel Fuel Additive:

- Year-Round Protection in Warm Weather Areas
- 6 point Cetane Increase (not 6% like others)
- Neutralizes Negative Aspects of Bio Blend Fuels (B5 - B20)
- Improved Cold Starting On All Diesel Engines
- Increases Detergent and Lubrication Properties
- Increases Corrosion Protection
- Increases Engine Performance
- Reduces Component Wear
- Reduces Engine and Exhaust Emissions and Toxic Smoke
- Dramatically Increases Fuel Storage Life
- Increases Water Dispersion
- Reduces EGT Temperatures
- Keeps Fuel Stable to -0°F
- Many Customers Are Also Reporting Fuel Mileage Gains as Well!
