correct location.	nsure that the Roof Rack System is installed in the cing fitment and report any discrepancies.						
<b>Note:</b> Be sure to check Rhino-Rack website to see if you have the latest version of instructions before beginning installation.							
	TEARAGEART						
Important Information							
1. Check Part No./Kit is correct	3. Fit roof rack accessory						
Load must be evenly distributed over the entire basket.	4. Check and recheck all fasteners are secure em including the weight of the rack system. Up to 150kg (330lbs) bok for maximum carrying capacity. Always use the lower of the two figures.						
regarding fitting to the dealer from where the roof racks were purchased.							

## Use only non-stretch fastening ropes or straps.

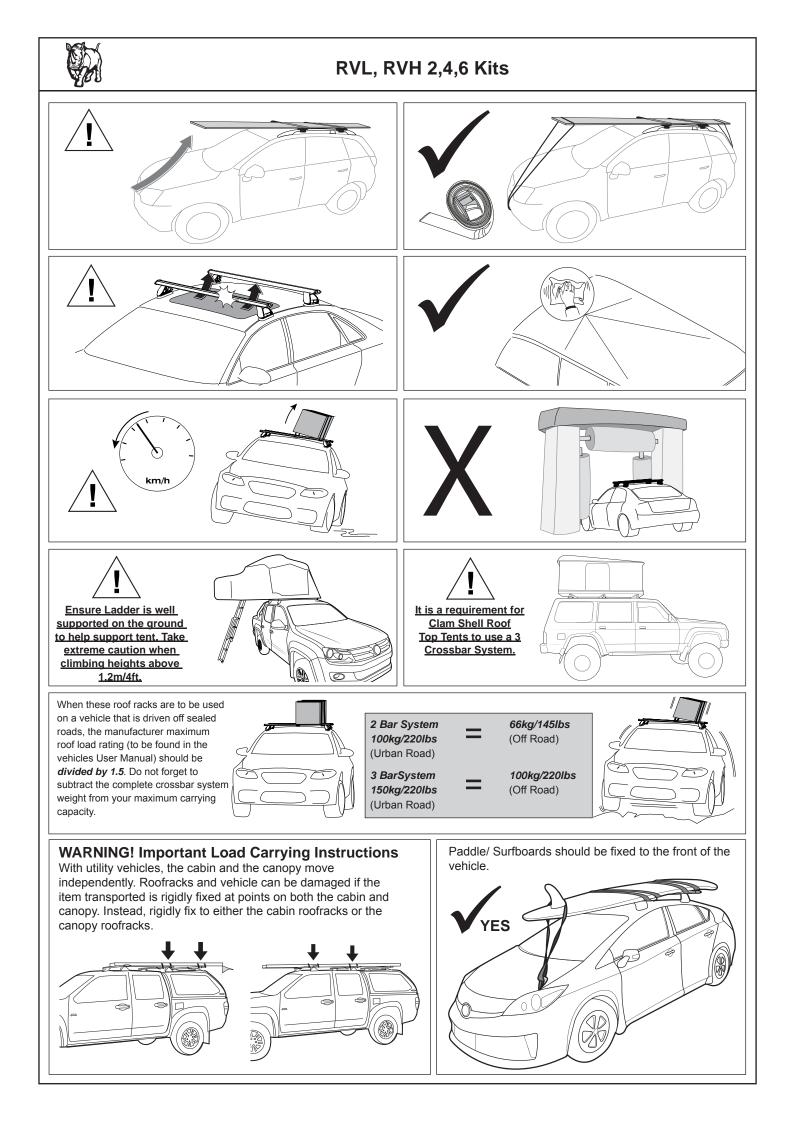

**Recommendations:** It is essential that all bolt connections be checked after driving a short distance when you first install your roof racks. Bolt connections should be checked again at regular intervals (once a week is enough, depending on road conditions, usage, loads and distances travelled). You should also check the roof racks each time they are re-fitted. Always make sure to fasten your load securely. Please also ensure that all loads are evenly distributed and that the centre of gravity is kept as low as possible and must be entirely contained within the extents of the

## roof racks. Rack System must be removed when putting vehicle through an automatic car wash.

**Caution:** The handling characteristics of the vehicle changes when you transport a load on the roof. For safety reasons we recommend you exercise extreme care when transporting wind-resistant loads. Special consideration must be taken into account when cornering and braking.

## Off-road use:

The Roof Rack System may be used in off road applications, however a safety factor of 1.5 is enforced. For example if the maximum permissible load is 100kg (220lbs) then the off road load is 66kg (145lbs). Although the crossbars are tested and approved to AS1235-2000/ 15011154, off-road conditions can be much more rigorous. Extreme car must be taken in off road conditions
