

# 18' x 32' x 15' U.N. Disaster Relief Tent

Protect Your Investments from Inclement Weather & Sun Damage

Rhino Shelter Disaster Relief Tents provide the best in instant, portable protection for any environment. The Disaster Relief Tent can accommodate up to 40 people comfortably in hot or cold climate. The double fly cover helps reduce heat gain inside the main tent and also provides water run off so that the roof windows can stay open at all times for maximum ventilation. This model has been a popular choice among relief agencies, specifically the U.N. The frame members slide into each other so there is no need for hand tools. Unlike other products, no drilling or field cutting is required. All frame components are

made from heavy duty Structural steel. Main cover and doors are made from long life UV Resistant, Fire Retardant PVC Vinyl Fabric that is CPAI-84 rated. All fabric components feature heat-welded seam construction. Unit features PVC door flaps with mosquito screen. Each door has velcro hold-ups for securing them up during use. A fabric floor kit with a rubber bottom that is both heavy duty and comfortable to sit on. Each unit comes with an anchor system complete with stakes for keeping the outside fly from touching the inner shelter.
