Parts and Accessories

# Your Source for Innovative Parts

At Ringbrothers we take pride in offering the best quality parts and components on the market, born from using innovative engineering and intelligent design with a superior machining process for the highest-quality parts available. With stringent standards of cutting fluid mixtures, pH-balanced water, a meticulously sequenced cutting process, and hundreds of fixtures and jigs, the machining and production of our durable, 6061-T6 billet aluminum parts ensures that at Ringbrothers we consistently define the standards for quality, innovation and durability.

# BILLET HINGE STYLE GUIDE

**AIRFRAME**

For the hardcore industrial look—our air frame style is a unique blend of pocketing and frame spacing that gives a lighter weight mechanical feel.

A direct replacement for stock hinges, these top-quality hinges require no modification for your application and are machined from durable 6061-T6 billet aluminum for uncompromising performance. Ringbrothers hood hinges are available in two styles, three finishes and for fiberglass or steel hoods. Installation hardware and instructions are included.

## SOLID

Our classic design that is smooth and subtle—the right amount of style to compliment any engine bay. The one that started it all.

# GM DOOR HANDLES

**Polished with Polished Insert**

**Polished with Matte Insert**

**Grey Anodized**

**Black Anodized**

A modern take on classic, functional hardware. Ringbrothers GM Billet Two-Piece Door Handles sport a unique two-piece design with multiple finishes and feature a removable insert for customization options. Designed around the '67-'69 Camaro door handle and machined from 6061-T6 billet aluminum, they are a direct replacement door handle for most early GM models. All installation hardware and instructions are included.

Ringbrothers 47

Replace your factory plastic clutch reservoir with Ringbrothers unique billet reservoir. Machined from 6061-T6 billet aluminum for aesthetics and durability. This is an easy and affordable way to dress up your engine bay and a unique part that you aren't going to find anywhere else. The reservoir can also be used to replace your stock brake master cylinder. Accepts a 1/8" NPT to AN fitting or a 5/16" hose barb fitting - not included.

Part #		Finish
99000-4501B	Billet Clutch Reservoir	Black Anodized
99000-4501G	Billet Clutch Reservoir	Grey Anodized
99000-4501N	Billet Clutch Reservoir	Natural

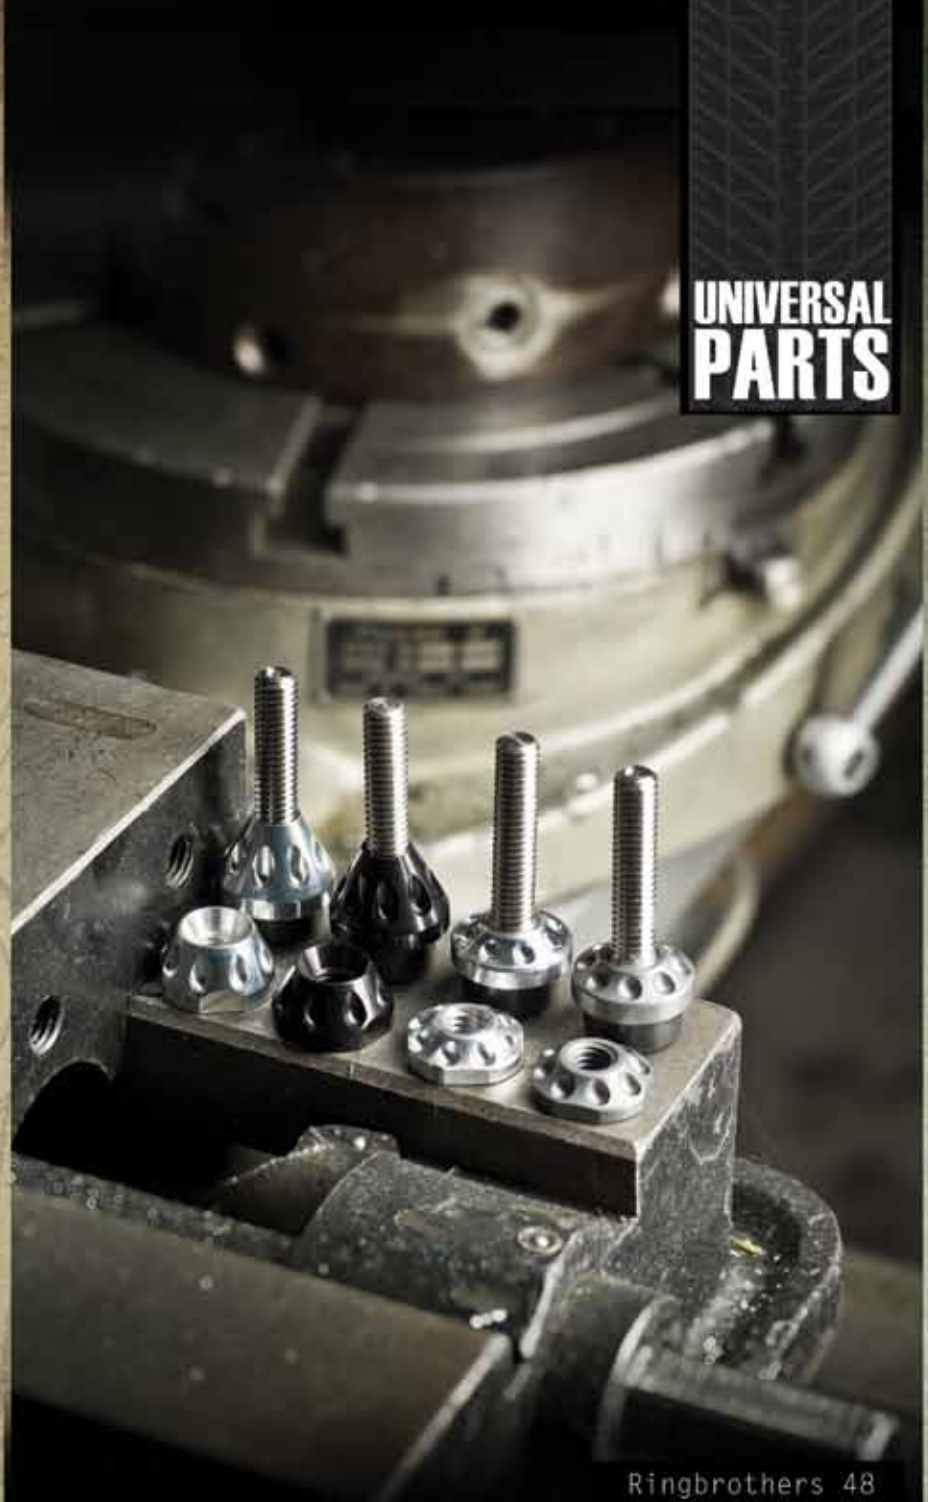

Attention to detail defines the Ringbrothers Billet Hood Adjusters. Available in two different lengths to fit your application and three refined finishes. A simple way to dress up under the hood, the adjusters replace your stock hood adjusters and give you the quality and innovation of Ringbrothers components.

Application Requirements: Short adjusters need 7/8" clearance for proper installation and fit. Choose the Tall Hood Adjuster for applications with greater clearances.

Part #	Finish

Eject Button

Part #	
99000-8001	Terminator Touch Start
99000-8005	Ringbrothers Eject Button

Start your next cruise in style with the Terminator Touch Start System. We teamed up with Phantom Products to bring you a state-of-the-art one touch system. The detail is in the machined billet bezel that adds the finishing touch. The ultimate way to start your muscle machine.

# HARDWARE

It's all in the details: replace your standard, lackluster hardware with the Ringbrothers Stainless Steel Fasteners to fulfill both form and function! This elegant machined hardware provides secure, durable fastening and ensures visual impact with purpose. Sold individually so you can order the exact quantity you need.
