SC-BK001-PAD-1ST, SC-BK001-PAD-2ND, SC-DB001-PAD-1ST, SC-DB001-PAD-2ND

## FRONT SEAT COVERS

### Seat Covers

- ① Unzip the top of the cover to allow for the cover to slide over the headrest of your front seat.

- ② Close the zippers and attach the two Velcro sides to create a secure fit around the base / posts of your headrest.

- ③ Slide the straps (1 & 2) on the inner back side of the cover through the separation between the upper and lower sections of the front seat. Now take the straps on the outer back side of the cover (3 & 4) and connect them to the corresponding inner straps after stretching them around the hinges at the base of the upper front seat section.

- ④ Secure the hooks at the bottom of the seat cover to the underside of the front seat. Be sure NOT to connect the hooks to any wiring, electrical components or mechanisms used to move the seat forward, backward, up or down.

#### Headrests

- ⑤ Attach the headrest covers by connecting the straps with quick connect clips around the base / posts of your headrest. The wider portion of the headrest should be forward facing.

## REAR SEAT COVERS

### Upper Section

- ① Connect the 3 pieces of the upper seat covers with their respective zippers.

- ② The upper straps of the 2 outer seat covers (5 & 6, 7 & 8) should be connected around the base or posts of the headrests.

- ③ Slide the plastic anchors at the bottom of the upper seat covers through the separation of the upper and lower sections of the rear car seat. Pull the straps of the anchors to ensure they are in place and will hold the cover in place.

Lower Section

- ④ Lay the single piece rear seat cover across the rear bench seat.

- ⑤ Connect the center straps (9 & 10, 11 & 12, 13 & 14) by wrapping them around the center of the bench seat.

*Note: You may need to lift the bench seat to secure the straps.*

- ⑥ On either end, connect the straps after wrapping them around the bench and through the loop strap located on the outer edges of the seat cover.

#### Headrests

- ⑦ Attach the headrest covers by connecting the straps with quick connect clips around the base / posts of your headrest. The wider portion of the headrest should be forward facing.
