APPLIES TO ALL ROWS

- ① Detach Velcro from upper portion of seat cover.

- ② Slide the opening of the upper seat cover over the headrest and re-secure the Velcro.

- ③ To complete installation of the upper portion of the seat cover, slide the plastic anchors at the bottom of the upper seat covers through the separation of the upper and lower sections of the car seat. Pull / secure the straps of the anchors to ensure they are in place and will hold the cover in place.

- ④ To install lower portion of the seat cover, slide the plastic anchors at the bottom of the upper seat covers through the separation of the upper and lower sections of the rear car seat as done in step 3. Pull / secure the straps of the anchors to ensure they are in place and will hold the cover in place.

- ⑤ To complete installation of the lower seat cover, secure the hooks at the bottom of the seat cover to the underside of the seat. Be sure NOT to connect the hooks to any wiring, electrical components or mechanisms used to move the seat forward, backward, up or down.
