

# Recovery Just Got Smaller

The RG3 sets the new standard in refrigerant recovery. All jobs are different. From a rooftop to a marine HVAC system, the RG3 is easy to use and ideal for any residential and appliance sized recovery job. Capable of recovering both liquid and vapor refrigerant, the RG3 is engineered to withstand the punishment of daily use even under extreme conditions.

# AC/Refrigeration Service: RG3

## Features

**Compact and Lightweight:** 40% smaller footprint, easy to carry, weighing in at 18 lbs!

**Oil-less Compressor :** Capable of handling both liquid and vapor recovery.

**Handles Almost All Refrigerants :** Works with all common CFC, HFC, HCFC refrigerants including R-410A.

**High Efficiency Cross Flow Design:** Layout of fan and condenser is maximized for shorter cycle times.

**High Pressure Safety Shut-off Switch:** Eliminates potential for cross-contamination and saves time.

**Easy to Operate, Rugged Case:** Easy to read gauges, comfortable handle and simple 2 valve controls

**IEC connector and power cord**
