**"I THINK WE'RE ON TO
SOMETHING HERE DAD.."**

James Barth to father Lew, circa 1991 when a row of Jeeps at Tierra Del Sol each had one of their 4x4 parts installed - proving wheelers of all skill levels had embraced their 100% family owned company and American made product.

MADE IN USA. NO EXCUSES.

Every single ROCK HARD 4x4 product we produce must safeguard the legacy started in 1991. We set out to build a premium line of Jeep armor and safety upgrades in the USA, and we have not compromised since.

100% MADE IN NEBRASKA.

There is a certain level of quality you can only maintain when you build parts in the United States, under your own roof, with family members running the show.

No compromise, no excuses.

OUR PROMISE TO YOU.

We promise to give you the customer service you deserve.

We promise to promptly correct any error we make.

We promise to remember our roots, that we are wheelers ourselves, and to always love what we do.

Simply put, we promise to care.

POWDER COAT FINISH

DURABLE, WEATHER RESISTANT, AND GREAT LOOKING!

Quality from start to finish! We professionally powder coat in house to ensure your Rock Hard 4x4 upgrade has a premium, durable, and beautiful coating.

We describe our coating as a semi-smooth, semi-gloss finish. It feels like an egg shell (20% texture) which makes it scratch resistant and cuts down on glare. Rough "hammered" finishes have large pores that make it nearly impossible to wipe away dirt and mud, and mirror-like glossy finishes scratch with even a light touch. Often rough finishes are used to mask poor welds and stress cracks during bending, and high gloss coatings show their wear very quickly. Many years ago we outsourced powder coating and had no control over quality. Now, from prep to media blasting to coating to curing, we have total control over how our products present themselves.

Cleaning: put that heavy duty dishwasher detergent away. Most contain properties that are damaging to even the clear coat on your paint. Mild soaps are ideal. Remove salt and adverse weather road sprays as quickly as possible. Off-road, rinse, repeat!

SPORT CAGE PADDING KITS

FABRICATION COLLARS

PATENTED DESIGN

Protected by Patent US6908107 and used in all our cage systems, our locking collars are the foundation for our Ultimate Sports Cage upgrade. Magazine editors, trail guides, wheelers from across the world, and even competitors have turned to our bolt-in cage for their own vehicles. The strength our collars provide is inherent in how they couple our cage components together.

Our patent not only protects RH4x4 from domestic and overseas “knock-offs” but also gives you the peace of mind knowing we stand 100% behind our product. Our registration gives you the exact definition and purpose for our cage components. We encourage you to read our patent registration and see just how much thought, time, and care was put into our system. Why has no other manufacturer patented their cage system? Either its a copy of another system, or they simply don't feel confident enough in their development.

Don't settle on a cage meant to compete in the market, **purchase the product that was born to create the market!**

PATENTED LOCKING COLLAR - FABRICATION READY:

*SHIPS BARE STEEL - UNCOATED

INSIDE DIAMETER	PART #
1.50"	#RH-1150
1.75"	#RH-1175
2"	#RH-1200
2.25"	#RH-1225
3"	#RH-1300

EACH FABRICATION COLLAR COMES WITH
MATCHING CAP AND HARDWARE.

AR-500 SHOOTING TARGETS

SHOOTING TARGETS
