RTX

2021 WHEELS & ACCESSORIES

RTX

The RTX series of wheels is the original line from Thibert. More than 50 models encompass the RTX series, offering an unsurpassed selection of styles to satisfy any customer. Styles range from classic wheel designs to modern trends making RTX series a powerhouse in the industry. The RTX series is produced using low-pressure casting and is compliant with JWL and VIA industry standards.

RTX R-SPEC

The R-SPEC line from RTX wheels is at the forefront of technology, using Flow-forged technology to produce many of the styles to provide lighter, stronger alloy wheels. Featuring large wheel diameters, trending finish colours and multiple widths for staggered tire applications. Produced using either Flow-forged technology of low-pressure casting the R-SPEC wheels are compliant with the JWL and VIA industry standards.

RTX OE

RTX OE offers a vast selection of Original Equipment inspired wheel styles. Covering more than 20 vehicle brands and 70 wheel styles, the RTX OE series presents alternative solutions from dealership replacements as luxurious upgraded wheel looks, larger diameter summer wheels or winter wheel options. Produced with Flow-forged technology or low-pressure casting the RTX OE series is compliant with international industry standards of JWL and VIA.

RTX OFF-ROAD

TRUCKS

Engineered for strength and durability, the RTX OFF-ROAD series features wheel styles designed for trucks and SUVs. The selection grows and evolves every year with new fitments and styles keeping pace with the ever-changing truck trends. RTX Off-Road has styles for every truck owner, whether it is a brand new or a classic truck. Produced using low-pressure casting, RTX Off-Road is compliant with international standards of JWL and VIA.
