

SOFT TOP STORAGE BOOT 92-95 BLACK

1. Remove the side and rear windows from the soft top. Release the tension on the top by lowering the soft top spreader bars and removing the rear side curtains.

2. Unsnap the sides of the top and remove the top from the front tracking. Fold the front portion to the rear.

3. Unlock the side retainer and fold down the top and frame to the rear. Fold the excess top over the frame.

4. Open the boot and wrap it around the soft top and frame. Snap the boot closed around the top.
