

## Table Of Contents

### **Introduction**

### **Chapter 1: Blocks**

Nailhead

Small-Block 350

Big Blocks

V-6 Turbo

Main Bearing Cap Studs

### **Chapter 2: Pistons, Rods and Cranks**

Crankshafts

Main Seals

Connecting Rods

Rod Bolts

Pistons

Piston Pins

Rings

### **Chapter 3: Oiling System Upgrades**

Disassembly and Modification

Crankshaft Mods

Close Bearing Tolerances

Oil Pumps

Rear Oil Pressure Gauge Installation

Oil Pans

Motor Oil Considerations

### **Chapter 4: Cams and Timing Covers**

Cam Bearing Options

Oiling System Upgrades

Timing Cover Options

Oil Pump Booster Plate

Cam Thrust Control  
Distributor Gear Oiling  
Front Main Seal  
Lifter Bore Reinforcement

## **Chapter 5: Cylinder Heads**

Gasket Port Matching  
Blending the Bowls  
Exhaust Porting  
Valve Sizing  
Valve Jobs  
Combustion Chamber Polishing  
Heat Crossover Vent Modification  
Flow Testing  
High-Performance Head Parts  
Big-Block Heads  
Big-Block Head Porting  
Nailhead Cylinder Heads  
Aftermarket Head Options

## **Chapter 6: Valvetrain**

Rocker Arms  
Pushrods and Lifters  
Camshaft  
Lifters  
Timing Chain  
Retainers, Keepers and Springs

## **Chapter 7: Ignition and Fuel Systems**

Distributors  
V-6 Turbo  
Electronic Timing Boxes

Fuel Systems

Engine Cooling

### **Chapter 8: Intake, Carbs and Exhaust**

Carburetors

Intake Manifolds

Sheet Metal Intake Fabrication

Headers, Manifolds and Exhaust Systems

### **Chapter 9: Race Engines**

Block Preparation

Rotating Assembly

Camshafts

Heads

Induction

Oiling System

Factory Racer Kits

### **Chapter 10: V-6 Turbo**

Turbo System Porting

Turbo Replacement

Intercoolers

Downpipes and Wastegates

Intakes

Fuel Pump

Electronics

### **Appendix A: Source Guide**

### **Appendix B: 1953-1955 Nailhead Engine Specifications**

### **Appendix C: 1953-1971 Engine Specifications**

### **Appendix D: 1987 3.8L V-6 Turbo Engine Specifications**
