Introduction

Chapter 1: Introduction to the 4G63t

Sirius Engines

The 4G63t in the USA

The Lancer Evolution

The Evo in America

Finding and Buying a Turbocharged Mitsubishi

Engine Swaps

Buying a Core Engine

Maintenance

Power Goals and Budgeting

Other Factors

Paper Engine Building

Chapter 2: Basic Bolt-On Modifications

Expectations

Staged Tuning

Gauges and Instruments

DSM versus Evo Bolt-Ons

Air Filter or Air Intake

Exhaust

More Boost

Tuning or Chipping

Other Parts

Chapter 3: Turbocharging and Intercooling

Volumetric Efficiency

Enter the Turbo

Turbo Theory

Compressor Efficiency

Turbine Efficiency

Turbo Lubrication and Cooling

Ball- Vs. Sleeve-Bearing Turbos

Wastegates

Better Boost Control

Intercooling Theory

Intercooler Construction

Intercooler Spray

Chemical Intercooling

Bypass Valves and Blow-Off Valves

Stock Turbos and Intercoolers

Stock Turbo Manifolds

Turbo Swaps

Turbo Swap Collateral Damage

Intercooler Upgrades

Chapter 4: Intake and Exhaust: Making the Turbo's Life Easier

Pre-Turbo Airflow

Turbo/Intercooler/Intake Plumbing

Throttle Body

Intake Manifolds

Insulating Spacers

Exhaust Systems

Exhaust Manifolds and Headers

Manifold Swapping and Porting

O2 Sensor Housing & Wastegate Plumbing

Exhaust Heat Control

Downpipes

Exhaust System and Mufflers

Emissions Equipment and Legality

Chapter 5: Fuel System

Octane

Fuel Injectors

Fuel Pressure Regulators and Gauges

Fuel Lines

Fuel Pump Needs

Fuel Pump Wiring

Upgraded Pumps

Chapter 6: Engine Management and Tuning

Stock ECU Sensors

Limits of the Stock ECU

Why Tune the ECU?

Hacking the MAS and MAS Swapping

Piggybacks and Airflow Computers

MAF Translator

Blow-Through MAF

Advanced ECU Fooling (Speed Density)

Reprogramming the Stock ECU

Standalone Engine Management

Building Your Own ECU

Choosing an Engine Management System

ECU Tuning and Emissions

Ignition System

Ignition Modifications

Tuning Basics

Chapter 7: Cylinder Heads, Camshafts and Valvetrain

Head Swapping

Head Gaskets

Head Bolts and Studs

Port Flow

Combustion Chamber

Valvetrain

Camshafts

Cam Drive

Chapter 8: The Bottom End

Stock 4G63t Bottom Ends

Machining a Block

Oiling System

Pistons, Pins and Rings

Compression Ratio

Connecting Rods

Crankshafts

Engine Bearings

Crank Walk

Source Guide
