Introduction

Chapter 1: Getting to Know the Camaro

Valuable Camaros

Acquiring a Camaro

Identifying a Fake

Identifying Your VIN Plate

Deciphering the Cowl Tag

Chapter 2: Getting Started

Skills

Tools and Tool Basics

Materials and Specialty Tools

Where Do I Start?

Repair or Replace?

Game Plan

The Process

Original or Reproduction?

Parts Sources

Documentation

Organization

Disassembly

Chapter 3: Bodywork

What Should Be Replaced?

Common Rust Areas

Floorpan Replacement

Sound-Deadener Removal

Quarter Panels

Body Panel Alignment

Dings and Dents
Paint Removal
Body Stamp Care
Cowl Tag Removal

Chapter 4: The Painting Process

Can You Paint?
Why are Shops so Expensive?
What Can Go Wrong?
Decisions about the Outcome
How Correct?
Interior Paint
Underbody Paint
Firewall Paint
Cowl Paint Differences
Black Cowl Paint to Firewall Transition
Trunk Paint
Spraying Format
Spraying Disassembled Parts
Masking
Steps Before Spraying
Black-Out Paint
Stripes
Vinyl Top
Powder Coating
Scuff and Buff

Chapter 5: Engine Rebuilding

Selecting a Machine Shop
Identification
Inspecting and Preparing Parts
Engine-Rebuilding Lubricants

Dampers

Gaskets

Picking Parts

Extrude Honing

Engine Fasteners

Factory Engine Detailing

Factory Clamps

Chapter 6: Transmissions

Removal Safety

Manual Transmissions

4-Speed Manufacturers

Overdrive Transmissions

Automatic Transmissions

Chapter 7: Differentials

Inspection

Aftermarket Gear Sets

Gear Swap and Rebuild

Backlash

Test Drive

Identifying Parts

Identifying Gear Ratio

Chapter 8: Brakes

Original Components and Restoration

Brake Hardlines

Master Cylinder

Hold-Off Valve

Brake Distribution Block (with brake warning)

Pressure Regulator Valve

OEM Brakes

Home-Brewed 4-Wheel Disc Brakes

Aftermarket Components

Install the Master Cylinder

Proportioning Valve

Residual Pressure Valve

Chapter 9: Front Suspension

Pre-Disassembly Inspection

Separation Anxiety

Front Suspension Tools

Front Suspension Removal

Subframe Changes

Subframe and Control Arm Problems

Painting Suspension Parts

Rebuilding the Subframe

Replacing Body Bushings

Installing the Subframe

Chapter 10: Rear Suspension

1967

1968

1969

Mono-Leaf vs. Multi-Leaf

Spiral Shocks

Aftermarket Shocks

Spring Perches

Leaf Spring Removal

Isolators In or Out

Leaf Spring Bushing Types

Performance Leaf Springs

Installing Leaf Springs

Rear Sway Bar

Chapter 11: Electrical

Safety Tips

Battery

Installing the Harness

Ignition

Ignition Coils

Tools

Non-Factory Wiring

Relay

Electrical Components

Aftermarket Accessories

Chapter 12: Interior

Headliner

Kick Panels

Interior Paint

Door Panels

Door Mechanicals

Rebuilding a Window Mechanism

Water Shields

Water Drains

Carpet

Dash Pad

Console

Seats

Headrests

Steering Wheel

Seat Belts

Sill Plates

Repairing Plastic Parts

Chapter 13: Miscellaneous Mechanicals and Other Items

Cooling System

Cowl Hood

Fresh-Air System

Air Conditioning

Carburetor

Fuel Line Sizes

Fuel Pump Installation

Hood Latches and Hinges

Endura Bumper

Vinyl Top

Convertible Top

Wheels

Tires

Water Control

Rubber Bumpers

Source Guide
