Engine Sources

Transmissions, Clutches, Scattershields, Etc.

Chapter 4: Building Your Cobra On Time and On Budget

Develop a Plan

Evaluate Your Skills

Create a Spending Budget

Create a Time Budget

Chapter 5: Organization and Preparation

Kit and Component Inspection

Organization

Consult Your Build Manual

Tools and Supplies

Chapter 6: Chassis, Suspension and Brakes

Deconstruction Begins

Project 1: Disassembly

Project 2: Panel Removal

Project 3: IFS Installation Preparation

Project 4: Front Shock Absorber Installation

Project 5: Front Spindle Installation
Project 6: Front Disc Brake Installation

Chapter 7: Rear Suspension and Differential

Project 1: Independent Rear Suspension Installation
Project 2: Rear Brake Installation

Chapter 8: Pedal Box, Steering Shaft and Steering Rack

Project 1: Footbox Panel Installation
Project 2: Pedal Box Assembly Installation
Project 3: Steering Shaft and Steering Rack Installation

Chapter 9: Fuel System, Brakes and Footbox

Project 1: Fuel Tank Installation
Project 2: Fuel Pump Installation
Project 3: Footbox Installation
Project 4: Fuel Line Installation
Project 5: Brake Line and Master Cylinder Installation

Chapter 10: The Engine

Small-Block or Big-Block?
Crate Engines
Stroker 427 Small-Blocks
Dart Machinery
QMP Racing Engines
Project 1: Install Long Block Assembly
Mating Engine to Transmission

Chapter 11: Drivetrain and Cooling System

Project 1: Drivetrain Installation
Project 2: Driveshaft Installation
Project 3: Radiator Fan Installation
Project 4: Radiator Hose Installation

Chapter 12: Electrical System

Project 1: Wiring Harness and Fuse Box Installation
Project 2: Trunk Wall Installation
Project 3: Battery Installation
Project 4: Gauge Installation

Chapter 13: Miscellaneous Parts

Project 1: Header Installation
Project 2: Clutch Cable Installation

Project 3: Transmission Shifter Installation
Project 4: Roll Bar Installation
Project 5: Seat Installation
Project 6: Emergency-Brake Installation
Project 7: Sidepipe Installation
Project 8: Weather Strip Installation

Chapter 14: Body Fitment and Paint

Project 1: Fitment Procedure
Project 2: Door Latch and Hardware Installation
Project 3: Eliminate Mold Line and Trim Body Panels
Project 4: Hood Scoop Installation
Project 5: Primer Application
Project 6: Complete Footbox
Project 7: Painting Procedure

Chapter 15: Interior and Windshield
