

[Table Of Contents](#)

**Acknowledgments**

**Introduction**

**Chapter 1:**

Building Basics  
Organization  
Compression Ratio  
Power Physics  
Building a Cleveland Stroker

**Chapter 2:**

The Block  
Cleveland Block Identification  
Block Preparation  
Fasteners and Threads

**Chapter 3:**

Rotating Assembly  
Crankshaft  
Balancer and Flywheel  
Pistons  
Connecting Rods  
Displacement  
Cleveland Stroker Kits  
Sweat the Details

**Chapter 4:**

Lubrication  
Pump Blueprinting  
Oil Control

**Chapter 5:**

Cylinder Heads  
Factory Iron Heads  
Head Prep  
Cylinder Head Sources  
Cylinder Head Innovations  
Jon Kaase Racing Engines

Powerheads Performance Engineering  
MPG Head Service/Cam Research Corporation  
Scott Cook Motorsports  
Edelbrock Corporation  
Trick Flow Specialties  
Pro Comp USA  
Air Flow Dynamics

### **Chapter 6:**

Camshaft/Valvetrain  
Street Cams  
Race Cams  
Lifters  
Valvetrain

### **Chapter 7:**

Induction  
Carburetion  
Carburetor Sources  
Holley Carburetors  
Edelbrock Corporation  
Demon Carburetion  
Proform  
Exotic Ford Carburetion  
Weber Induction  
Intake Manifold  
Electronic Fuel Injection Sources  
MSD Ignition  
Holley Performance Products  
Fuel Air Spark Technology  
Nitrous Oxide  
Supercharging and Turbocharging

### **Chapter 8:**

Ignition  
Quick Fire  
Ignition Timing  
Spark Knock  
Breaker-Point Ignition  
Electronic Ignition  
Ignition Coils  
Distributor Sources  
MSD Ignition

Mallory Ignition  
Performance Distributors  
Crane  
Magnetos  
Ignition Wires  
Distributor Caps  
Spark Plugs

### **Chapter 9:**

Exhaust  
Header Selection  
Calculating Primary Tube Size  
Secondary Tubes and Collectors  
Equal-Length, Step, and Tri-Y Headers  
Exhaust System

### **Chapter 10:**

Break-In & Tuning  
Getting Started  
Break-In  
Exhaust System  
After the Break-In

### **Chapter 11:**

Power Builds  
400 Horsepower  
MCE Engines TMeyer, Inc. 500 Horsepower  
Trick Flow Specialties Horsepower Monster 400  
Jeff Huneycutt 600 Horsepower  
JGM Performance Engineering 400 Proof Positive  
Richard Holdener
