

[Table Of Contents](#)

Acknowledgments

Foreword by Terry Walters

Introduction

Chapter 1:

Displacement Decisions

Bores and Flow Anomalies

Minimizing Intake Shrouding

Bore Offset Power

Piston Wrist Pin Offset Potential

Modifications to the Bottom of the Bores

Bore Finishes

Modifications to the Lubrication System

Head Bolts and Studs

Strokers and Crank Clearances

Tall-Deck Blocks

Aftermarket Blocks for Big Inches

Aluminum Blocks

Other Critical Dimensions

Lifter Bores and Flat Followers

Lifter Bores and Roller Followers

Chapter 2:

Pistons, Connecting Rods and Crankshafts

Piston Porting

Dome Development

Gas Ports

Piston Rings

Connecting Rods

Crankshafts

Crank Dampeners

Chapter 3:

Lubrication Systems

Oil Pump

Block Modifications

Crankcase Vacuum

Oil Pans

Chapter 4:

Cylinder Heads

Port Shape and Volume

Flow Curves

Production Heads

Aftermarket Iron Heads

Aluminum Head Sources

Chapter 5:

Intake Manifolds

Single- and Dual-Plane Intakes

Rectangular-Port 4150 Intakes

Dominator Intakes

Options by Manufacturer

Chapter 6:

Single-Carb Induction

Brake Specific Air Consumption

True Street Carburation

Using What You Have

Mechanical or Vacuum?

High-Flow 4150-Style Carbs

Carb Flow Capability

Spacers

Dominator Tips

Chapter 7:

Tunnel Ram Intake Manifolds

Power Attributes

Dyno Test

Race-Only Applications

Chapter 8:

Electronic Fuel Injection

Carbs versus EFI

EFI System Variations

Port Injection

Chapter 9:

Camshafts and Valvetrain Events

A Few Basics

The Importance of Overlap

LCA Selection

Flow Figures

LCA Compression Correction

Optimal LCA

Wide LCA Syndrome

Cam Timing Precision

Chapter 10:

Valvetrain Optimization

Cam and Valve Lift

Cam Factors

Rockers and Ratios

Ratio Analysis

Pushrods

Stud Girdles or Shaft Rockers

Rocker Arms

Valvesprings

Retainers

Valve Weight

Cam Master Program

Chapter 11:

Ignition Systems

Advance Curve

Spark Power

Plasma Ignition

Crank Triggers

Chapter 12:

Exhaust Systems

Primary Lengths

Collectors

Evacupan Fittings

Chapter 13:

Chevy Big-Block Builds

Build 1: Edelbrock E-Street

Build 2: Entry-Level 496

Build 3: 482 Revisited

Build 4: UNO 525

Build 5: AFR 510

Build 6: AFR 572

Build 7: 496 EFI

Build 8: Pro-Filer Oval-Port 87-Octane

Build 9: 712 with Pro-Filer 12-Degree Heads

Source Guide
