

[Table Of Contents](#)

**Acknowledgments**

**Part 1: LS Gen IV**

**Chapter 1: LS Gen IV Engine Overview**

LS2 Differences

Performance Gains

Retrofitting the LS

**Chapter 2: Engine Blocks**

Stock Blocks

Modifying the Stock Aluminum Block

Disabling Performance-Robbing Displacement on Demand

Main Caps

Aftermarket Blocks

**Chapter 3: Crankshafts and Connecting Rods**

Crankshaft Reluctor Wheel

Crank Snout Length

Connecting Rods

Rod Bearings

Crank Stroke and Rod Length

Aftermarket Connecting Rods

High-Performance Crankshafts

**Chapter 4: LS7, LS3, and LS9 Cylinder Heads**

LS7

LS3

L92

LS9

Cylinder Head Interchangeability

Water Temp Holes

Rocker Arm Pedestal Rails

Aftermarket Performance Heads

Selecting a Cylinder Head

## **Chapter 5: Pistons**

Piston Compression Height

Bore Size, Dome, and Compression Ratio

Skirt-to-Wall Clearance

Piston and Rod Orientation

Skirts and Major/Minor Thrust

Offset Pin

Piston Coatings

## **Chapter 6: Camshafts and Lifters**

Camshaft Terminology

Factory Camshafts

Active Fuel Management (AFM)

Intake and Exhaust Difference

Camshaft Firing Order

Hydraulic or Solid

Cam Gears

Lifters and Lifter Guides

## **Chapter 7: Rocker Arms**

Stock LS Rocker Arm Trunnion Upgrades

Tool Note

Aftermarket Rockers

High-Performance Rocker Arms

## **Chapter 8: Oiling Systems**

Rear Main Seal

High-Pressure/Volume Upgrade

Dry Sump

Oil Pressure Sensor

## **Chapter 9: EFI and Intake Manifolds**

Intake Manifolds

Throttle Body Injection

Fuel Injector Size

Low Impedance versus High Impedance

## **Part II: Two High-Performance LS Builds**

### **Chapter 10: Dual-Carb LS 408**

Block

Camshaft

Crankshaft

Connecting Rods

Pistons

Timing Set

Oil Pump

Cylinder Heads

Lifters

Pushrods

Water Pump

Crank Damper

Intake Manifold

Carburetors

Ignition

Our Dyno Results

### **Chapter 11: Dart LS Next Build**

The LS Next Block

Machining the LS Next Block

Crankshaft Balancing

Pistons

Connecting Rods  
Camshaft  
Timing Set  
Piston/Rod Assembly  
Oil Pump  
Oil Pan  
Lifters  
Crank Damper  
Cylinder Head Installation  
Rockers  
Pushrods  
Intake System  
Ignition Coils  
The LS Next Dyno Session

## **Chapter 12: Assembly Procedures**

Crankshaft Installation  
Cylinder Head Installation  
OEM Lifter Buckets  
Rear Oil Diverter  
Rear Main Seal Installation  
Front Cover  
Valley Plate  
Crank Damper/Pulley Installation  
Timing Chain Damper  
Connecting Rod Bolts  
Changing Camshafts  
Valve Cover Swap  
Carb Setup on LS  
Custom Cylinder Head Steam Plumbing  
Hose Lengths

## **Appendix**
