

SAFE T PLUS

Steering Control

Limited Lifetime Warranty

United Safety Apparatus, Inc., warrants qualifying Safe T Plus Steering Control® products against any defects in materials and workmanship (except finish) when used under normal operating conditions for as long as the products are installed on, and the original purchaser owns, the original vehicle on which Safe T Plus was installed. The manufacturer will replace any Safe T Plus [Steering Control product](#) found to be defective as a result of the manufacturer's material and/or workmanship by the manufacturer. Date of purchase will be used for purposes of this warranty. If, however, the original purchase date is indeterminate, then the manufacturing date will be chosen as the reference date.

All warranty considerations must receive a Returned Goods Authorization (RGA) number assigned from the manufacturer. Customer may then ship the Safe T Plus unit or mounting brackets to the Decatur, Georgia factory location at customer's expense. Warranty Replacement units or mounting brackets will be returned to customer by manufacturer (freight prepaid for return).

Warranty turnaround time is 24 hours or less upon receipt of Safe T Plus product at factory.

Lifetime Vehicle Warranty program was officially set up on July 4, 2013. All Safe T Plus Steering Control units manufactured prior to January 1, 2009 will not be subject to a Lifetime Vehicle Warranty. Rather, the original two (2) year warranty will be applied on all earlier manufactured Safe T Plus units. To check the manufactured date, verify the first four numbers of the serial number. Numbers represent the two digit month and two digit year of manufacture. For example, "04108199" was manufactured in April 2010. Serial numbers are found in two places: 1) on the Safe T Plus label, and 2) stamped in the large end of each unit.

This warranty will not apply where a Safe T Plus unit, mounting brackets, and mounting bolts and nuts have been altered outside our factory in any way so as, in our judgment, to affect its stability, functionality, or longevity which has been subject to misuse, negligence, or accident. This warranty does not cover any other component related to a vehicle's steering assembly, front end suspension, or chassis.

Manufacturer reserves the right to change or modify any products without assuming obligation to modify any previously manufactured products. This limited lifetime vehicle warranty does not apply unless proper installation is followed according to factory instructions, or if failure is due to accident, improper use, abusive use, unauthorized repairs are attempted, or purchased from a non-authorized Safe T Plus distributor, dealer, service center, or retail outlet. Manufacturer assumes no liability for labor, freight, or any other incidental or consequential charges or damages incurred.

The warranty is expressly in lieu of all other warranties expressed or implied and all other obligations or liabilities on our part of any kind or character, including liabilities for alleged representation or negligence.
