2007-2014 Land Rover LR2 and TD4 In-Dash Installation Solution

The Scosche LR8108SRB premium installation kit is for 2007 to 2014 Land Rover LR2/TD4 vehicles with MOST 25 systems and a grey (14-pin) and green (10-pin) connector. It combines a seamless replacement from the factory stereo to a Double DIN aftermarket unit and allows you to retain vehicle information and settings to be displayed on aftermarket AV head units for access to the vehicles configuration settings.

Rely on [premium car stereo / video installation parts](#) by [Scosche](#) if you're looking for quality and efficiency.
