

Qi Certified, the symbol for Safe, Reliable Wireless Charging!

Wireless charging's rapid ongoing growth has led to some poor-quality and low performance products being introduced that could also be unsafe. Qi Certified products, like our universal wireless car charger, have been thoroughly tested by independent laboratories to ensure their safety, compatibility and energy

efficiency. Our products are designated as "Qi Certified" by the Wireless Power Consortium. Others may use terms like Qi compliant, Qi compatible and Works with Qi, but these terms are not the same as Qi Certified and products using such terms have not undergone Qi certification testing.

What is Qi (pronounced "chee") wireless charging anyway?

First off, it's the global standard for smartphone wireless charging. Wireless charging functionality is finding its way into millions of devices. Wireless charging uses electromagnetic fields to safely transfer power from a transmitting source (in this case the MagicMount Charge unit) to a receiving device (built into Qi-enabled smartphones or available as an add-on via battery covers, receivers and more) for the purpose of wirelessly charging the device's battery.

SScosche has combined the latest Qi wireless charging technology with our #1 Mount Brand for the ultimate magnetic Qi charger solution in hands-free magnetic mounting and wireless charging.

Apple® & Samsung™ Wireless Fast Charge Compatible

The Scosche UQ01 wireless magnetic charging mount delivers up to a blazing 10W of charging power, making it compatible with Apple and Samsung Wireless Fast Charging.

Powerful 100% Device Safe Magnetic Contact Point

Not only do these wireless magnetic charging mounts deliver fast wireless charging, they also provide a point of magnetic contact for a solid hold from powerful, rare-earth, neodymium magnets.

Foreign Object Detection

Advanced safety features like Foreign Object Detection safeguards your device from overheating and becoming a potential fire hazard.

INSTRUCTIONS FOR APPLYING THE MAGICPLATE™ THAT CAME WITH YOUR MAGICMOUNT™ CHARGE

Wireless Charging Devices

It is important to mount the MagicPlate in the proper location on these devices to avoid interfering with wireless charging functionality. We have created a MagicPlate Template Guide to assist wireless phone users who plan to use their device with our MagicMount Charge products or other Scosche wireless chargers.

*\* The MagicMount is not recommended with use of a wallet case.*

Install MagicPlate

Includes options for mounting to a case or directly to your device.

**Phone Plate**

Easily removed without damaging your phone

**Phone Case Plates**

Securely sticks to your phone case
