CLASSIC COAT™

- **Renews Color on Vinyl & Leather**
- **Superior Adhesion and Flexibility**
- **Multidirectional Fan Spray**
- **Ideal for In-Car Repairs**
- **OEM Matched Colors**

CLASSIC COAT™

CLASSIC COAT uses advanced technology to provide superior adhesion and flexibility when changing or restoring the color of most leather and vinyl. **CLASSIC COAT** is a fade resistant coating that won't chip or peel and is available in many of today's popular OEM colors.

PREPARE YOUR SUBSTRATE

VINYL

Clean first with **SEM Soap** and a gray scuff pad, paying close attention to textured or recessed areas. Rinse with water or wipe off with a clean, damp, lint-free towel.

Clean thoroughly with **Vinyl Prep** using a clean, damp, lint free towel and wiping in one direction or apply **Zero VOC Surface Cleaner**. Rinse with water and dry or wipe off with a clean, damp, lint-free towel. If contamination still exists, water will bead on the surface. Repeat this step until beading no longer occurs.

CAUTION: Do not allow **Vinyl Prep** or **Zero VOC Surface Cleaner** to splash or stand on painted surface as discoloring may occur.

LEATHER

Clean with **SEM Soap** and a gray scuff pad, paying close attention to textured or recessed areas. Wipe with a clean damp towel to remove all residue and allow surface to dry.

Clean with **Plastic & Leather Prep** or **Zero VOC Surface Cleaner** wiping in one direction only.

When dry, scuff the leather with a clean, gray scuff pad or 400 – 600 grit sandpaper.

Clean again with **Plastic & Leather Prep** or **Zero VOC Surface Cleaner**.

CAUTION: Do not allow **Zero VOC Surface Cleaner** to splash or stand on painted surface as discoloring may occur.

SEM SOAP

A mild abrasive cleaner used as the first step in refinishing flexible substrates.

39362 16 oz. Tube

PLASTIC & LEATHER PREP

A mild solvent blend to clean plastic and leather prior to refinishing.

38351 Gallon
38353 16 oz. Aerosol
38354 Cone Top Quart

VINYL PREP

A strong solvent blend critical to refinishing vinyl.

38343 16 oz. Aerosol
38344 Quart

ZERO VOC SURFACE CLEANER

A water-based cleaner designed to eliminate surface contaminants prior to refinishing.

40401 Gallon
40404 Quart

APPLY CLASSIC COAT

VINYL OR LEATHER

Apply 2 – 3 light coats, allowing 5 – 10 minutes between coats. Even though coating is dry to touch, the substrate should not be subjected to heavy abuse or abrasion for 24 hours.

Note: Spray tip may be adjusted for either a vertical or horizontal fan spray pattern. After each use, turn can upside down and spray several seconds to clear spray tip.

CLASSIC COAT

OEM matched aerosols for renewing or restoring leather and vinyl.

- Superior adhesion, flexibility and hiding
- Will not crack
- Quick drying
- Simple to use

17013 – 17503 16 oz. Aerosol
