- Trade name: 61073 Multimax Clear
- Article number: 61073
- · Application of the substance / the mixture Coating

2 Hazard(s) identification

*

· Classification	of the substance or mixture
	GHS02 GHS04 Flame, Gas cylinder
Flam. Aerosol	1 H222 Extremely flammable aerosol.
GH	S04 Gas cylinder
Press. Gas	H280 Contains gas under pressure; may explode if heated.
	S08 Health hazard
Muta. 1B	H340 May cause genetic defects.
Carc. 1B Repr. 2	H350 May cause cancer. H361 Suspected of damaging fertility or the unborn child.
STOT RE 1	H372 Causes damage to the central nervous system through prolonged or repeated exposure.
Asp. Tox. 1	H304 May be fatal if swallowed and enters airways.
GH	S07
Eye Irrit. 2A	H319 Causes serious eye irritation.
STOT SE 3	H336 May cause drowsiness or dizziness.
· Label element · GHS label eler	s ments The product is classified and labeled according to the Globally Harmonized System (GHS). (Contd. on page 2)

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Description:

Mixture: consisting of the following components. Weight percentages

 Dangerous 	components:	
68476-86-8	Petroleum gases, liquefied, sweetened	30 - 40%
67-64-1	acetone	13 - 30%
64742-88-7	7 Solvent naphtha (petroleum), medium aliph.	10 -13%
64742-89-8	Solvent naphtha (petroleum), light aliph.	10 -13%
8032-32-4	Ligroine	1.5 - 5%
108-88-3	toluene	1-1.5%
1330-20-7	' xylene	1-1.5%
	t ethylbenzene	<u>≤1%</u>
64742-82-1	Naphtha (petroleum), hydrodesulfurized heavy	<i>≤1%</i>

4 First-aid measures

- · Description of first aid measures
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Generally the product does not irritate the skin.
- · After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- · After swallowing: If symptoms persist consult doctor.
- · Information for doctor:
- · Most important symptoms and effects, both acute and delayed No further relevant information available.

• *Indication of any immediate medical attention and special treatment needed No further relevant information available.*

5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- Special hazards arising from the substance or mixture No further relevant information available.
- · Advice for firefighters
- · Protective equipment: No special measures required.

6 Accidental release measures

- *Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.*
- · Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- *Methods and material for containment and cleaning up:* Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.
- **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.
- · Protective Action Criteria for Chemicals

• PAC-1:		
67-64-1	acetone	200 ppm
108-88-3	toluene	67 ppm
1330-20-7	xylene	130 ppm
100-41-4	ethylbenzene	33 ppm
95-63-6	1,2,4-trimethylbenzene	140 ppm
· PAC-2:

7 Handling and storage

- · Handling:
- Precautions for safe handling

No special measures required. Ensure good ventilation/exhaustion at the workplace.

• Information about protection against explosions and fires:

Do not spray on a naked flame or any incandescent material.

Keep ignition sources away - Do not smoke.

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.

- · Conditions for safe storage, including any incompatibilities
- · Storage:
- **Requirements to be met by storerooms and receptacles:** Observe official regulations on storing packagings with pressurized containers.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

· Control parameters

· Components with limit values that require monitoring at the workplace:

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

67-64-1 acetone

PEL Long-term value: 2400 mg/m ³ , 1000 pp	m
---	---

REL Long-term value: 590 mg/m³, 250 ppm

• Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls

- · Personal protective equipment:
- General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Store protective clothing separately. Avoid contact with the eyes.

Avoid contact with the eyes and skin.

· Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

• Protection of hands:

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. • *Material of gloves*

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection: Safety glasses

Tightly sealed goggles

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

- · Information on toxicological effects
- Acute toxicity:

· LD/LC50 values that are relevant for classification:

64742-88-7 Solvent naphtha (petroleum), medium aliph.

Oral LD50 >6500 mg/kg (rat)

Dermal LD50 >3000 mg/kg (rab)

Inhalative LC50/4 h > 14 mg/l (rat)

· Primary irritant effect:

- on the skin: No irritant effect.
- on the eye: Irritating effect.

• Sensitization: No sensitizing effects known.

· Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Irritant

The product can cause inheritable damage.

· Carcinogenic categories

· IARC (Inte	ernational Agency for Research on Cancer)	
108-88-3	toluene	3
1330-20-7	xylene	3
100-41-4	ethylbenzene	2B
