SEVENTIETH ANNIVERSARY
LABELED BY
EMPLOYEE OWNER
MARIA DIAZ

WE ARE AMERICAN MANUFACTURING
The employee owners of SEM engineer best in class products to reduce repair times, steps, and waste in the collision center. From intelligent product design to technical support, the “built better” promise is engrained in our DNA.

INTERIOR & EXTERIOR PREP
Proper preparation is the foundation to a quality repair. SEM prep products are specifically designed for each substrate to eliminate contaminants and maximize adhesion of top coats and repair materials.

Scuff & Clean
An abrasive paste that cleans and prepares panels for repair or refinish. Now available in an improved formula and a convenient gallon pump. Improved formula provides better sudsing, easier rinsing and no settling.

- Perfect for bumper covers
- Removes waterborne contaminants and road grime
- Uniform scratch improves top coat adhesion
- Easier rinsing
- No shaking or stirring necessary
- Less mess, less waste

SEM Soap
A mild abrasive cleaner used as the first step in refinishing flexible substrates.

- Gravitates into surface and floats contaminants for easy removal
- Mild abrasive helps with adhesion
- Foaming action removes body oils and other water soluble contaminants

Vinyl Prep
A strong solvent blend critical to refinishing vinyl.

- Removes soil, wax and grease
- Temporarily softens substrate
- Works quickly

Plastic & Leather Prep
A mild solvent blend to clean plastic and leather prior to refinishing.

- Removes mold release, fingerprints, grease and oil
- Will not soften or distort plastic parts
- Easy to use

SEM Solve
A virgin solvent blend to clean panels prior to refinish or repair.

- Effectively removes adhesive residue, wax, grease, road tar, oil, silicone, paint overspray and bug remnants
- Easy to use
- Leaves no residue

Suitable substrates:
- Vinyl
- Leather
- Plastic

Suitable substrates:
- Primed or painted surfaces
- Plastic

Suitable substrates:
- Plastic
- Leather
- Carpet
- Velour

Suitable substrates:
- Bare metal
- Primed or painted surfaces
- SMC and plastic – limit exposure
### XXX Universal Adhesive Remover
A mild solvent blend used to remove adhesive residue left by tapes, decals, and body molding as well as dirt, road tar, sap, wax, silicone, grease, oil, and bugs from interior or exterior surfaces.

- Quick acting formula dissolves adhesive residue, tar, and more
- Will not damage thoroughly cured paint when used as directed
- Will not soften, discolor, or distort plastic, vinyl, or fabric when used as directed

#### Suitable substrates:
- Primed or painted surfaces
- Leather
- Vinyl
- Plastic
- Aluminum
- Bare steel

**New**
77763 | 20 oz. Aerosol
77773 | 16 oz. Aerosol
77774 | Quart

### XXX Universal Surface Cleaner
**VOC Compliant Everywhere**
A super compliant, waterborne cleaner that removes solvent and water soluble contaminants prior to refinishing.

- 2-in-1 cleaner reduces products needed in collision center
- Helps eliminate static for improved metallic orientation and reduced dust contamination
- Solvent strong in waterborne formula
- Exceptional grease-cutting power

#### Suitable substrates:
- Primed or painted surfaces
- Leather
- Vinyl
- Plastic
- Aluminum
- Bare steel

**New**
77763 | 20 oz. Aerosol
77773 | 16 oz. Aerosol
77774 | Quart

### SPRAY GUN CLEANERS
Keeping spray equipment clean will lengthen its service life, saving money in the long run and eliminating costly rework. SEM cleaners are specially formulated to quickly and easily keep equipment looking and operating as new.

### Sprayable Seam Sealer Gun Cleaner
A blend of solvents to help clean one-component sprayable seam sealer applicators.

- Makes a difficult job easier
- Perfect when changing sealer colors
- High strength virgin solvent blend
- Does not contain chlorinated solvents
- Attached straw for tight areas

**XXX Universal Gun Cleaner**
**Your waterborne and solvent-based, 2-in-1 cleaning solution.**
Quickly removes solvent-based and waterborne coatings from spray equipment.

- 2-in-1 heavy duty cleaner reduces products needed in collision center
- Removes waterborne or solvent-based paint and overspray
- Superior 100% virgin solvent
- Reduces mistakes from choosing wrong cleaners

**New**
77763 | 20 oz. Aerosol

### XXX Gun Cleaner
A heavy-duty aerosol solvent that quickly cleans spray equipment and aerosol spray tips.

- For a 2-in-1 cleaning solution, use 77763

**XXX Waterborne Gun Cleaner**
Easily removes wet waterborne coatings from spray equipment.

- For a 2-in-1 cleaning solution, use 77763

**XXX Universal Adhesive Remover**
A mild solvent blend used to remove adhesive residue left by tapes, decals, and body molding as well as dirt, road tar, sap, wax, silicone, grease, oil, and bugs from interior or exterior surfaces.

- Quick acting formula dissolves adhesive residue, tar, and more
- Will not damage thoroughly cured paint when used as directed
- Will not soften, discolor, or distort plastic, vinyl, or fabric when used as directed

#### Suitable substrates:
- Primed or painted surfaces
- Leather
- Vinyl
- Plastic
- Aluminum
- Bare steel

**New**
77763 | 20 oz. Aerosol
77773 | 16 oz. Aerosol
77774 | Quart

### XXX Waterborne Gun Cleaner
Easily removes wet waterborne coatings from spray equipment.

- For a 2-in-1 cleaning solution, use 77763
# DUAL-MIX

**ADHESIVES • PLASTIC REPAIR • SEAM SEALERS • SOUND DAMPENING**

The only cartridge system that’s entirely OEM recommended and forever warrantied

![OEM Recommended]({})

**TRUSTED FOR OVER 25 YEARS**

## ADHESIVES
Urethanes, acrylics, and epoxies for large and small applications.

- Roof Skins
- Door Skins
- Applique Panels
- Quarter Panels

## PLASTIC REPAIR
For repairing flexible, semi-rigid and rigid plastics with ease.

- Bumper Covers
- Interior Plastics
- Molded Body Panels

## SEALERS
Direct to metal and paintable immediately sealers that restore OEM appearance while preventing corrosion.

- Roof Skins
- Door Skins
- Strut Towers
- Floor Pans
- Fender Wells
- Body Pans and Trunk Areas

## SOUND DAMPENING
Reduces noise and vibrations and matches OEM textures.

- Roof Bows
- Hoods
- Door Intrusion Beams
- Rocker Panels and Floor Pans
- Quarter Panels
- Body Pans and Trunk Areas
- Deck Lids and Filler Necks

---

**DUAL-MIX FOREVER WARRANTY**

When used according to directions, SEM guarantees to the purchaser that all Dual-Mix products will perform to specifications forever. This warranty covers reasonable costs for labor, loss of use of the vehicle, parts and materials only, and excludes consequential or incidental damages.

---
ADHESIVES
SEM adhesives are formulated with the technician in mind. With epoxy, acrylic and urethane technologies, no matter the substrate or job size, SEM can cover all your adhesive application needs.

Dual-Mix™ Structural Impact Resistant Adhesive (SIRA)
Dual-Mix Forever Warranty
A two-component, epoxy-based adhesive for bonding structural and non-structural components where specified by the vehicle manufacturer.

• Superior impact and peel strength
• Excellent corrosion resistance
• 60 minute working time
• Minimized down times with multiple heat cure options
• Spacer beads for consistent bond line thickness
• Rivet and weld bonding compatible

39757 | 7 oz. 2K Cartridge
Working Time: 1 Hr
Clamp Time: 8 Hr
Cure Time: 48 Hr
Heat Clamp Time: 15 Min
Heat Cure Time: 30 Min
Resin Base: Epoxy

Dual-Mix Multi-Purpose Panel Adhesive
Dual-Mix Forever Warranty
A two-component epoxy for panel bonding of steel, aluminum, SMC and fiberglass.

• Long working time, 100% reactive
• Superior impact and peel strength
• Excellent corrosion resistance
• Spacer beads for consistent bond line thickness
• Non-sag formula
• Simple surface preparation

39747 | 7 oz. 2K Cartridge
Working Time: 90 Min
Clamp Time: 4 Hr
Cure Time: 24 Hr
Heat Cure Time: 1 Hr
Resin Base: Epoxy

Dual-Mix Door Skin & SMC Adhesive
Dual-Mix Forever Warranty
A two-component epoxy that quickly bonds any combination of steel, aluminum, fiberglass and SMC.

• Non-sag formulation
• Excellent corrosion protection
• Bonds multiple substrates
• Extended two year shelf life

39337 | 7 oz. 2K Cartridge
Working Time: 30 Min
Clamp Time: 2 Hr
Cure Time: 24 Hr
Heat Cure Time: 1 Hr
Resin Base: Epoxy

Dual-Mix Weld-Bond Adhesive
Dual-Mix Forever Warranty
A non-sag, two-component acrylic adhesive system formulated to bond metal surfaces without the use of an external primer.

• Superior impact and peel strength
• Spacer beads for consistent bond line thickness
• Non-sagging gaps filled up to ½”
• Excellent environmental resistance
• Extended one hour working time

39537 | 7 oz. 2K Cartridge
Working Time: 1 Hr
Clamp Time: 3 Hr
Cure Time: 24 Hr
Heat Cure Time: 1 Hr
Resin Base: Acrylic

Dual-Mix Patch Panel Adhesive
Dual-Mix Forever Warranty
A two-component adhesive for quickly bonding metal panels without the use of an external primer.

• Superior impact and peel strength
• Non-sag formula
• Quick cure time
• Excellent corrosion resistance

39897 | 7 oz. 2K Cartridge
Working Time: 10 Min
Clamp Time: 20 Min
Cure Time: 30 Min
Heat Cure Time: 15 Min
Resin Base: Acrylic

ADHESIVES • PLASTIC REPAIR • SEAM SEALERS • SOUND DAMPENING
**Dual-Mix™ Quick Set 20**

**Dual-Mix Forever Warranty**
A fast, two-component, clear urethane adhesive designed for bumper tab repair and bonding most small plastic, steel and aluminum parts.

- High strength and sandable
- Bonds almost anything
- Non-sag formula fills gaps
- Colorless
- Super fast setting

**40207** | 7 oz. 2K Cartridge
**40202** | 1.7 oz. 2K Cartridge

**Working Time:** 15 Sec
**Set Time:** 20 Sec
**Cure Time:** 15 Min
**Resin Base:** Urethane

---

**Dual-Mix Quick Set 50**

**Dual-Mix Forever Warranty**
A very fast two-component black urethane adhesive designed for automotive plastic repair and bonding most small plastic, steel and aluminum parts.

- High strength and sandable
- Bonds almost anything
- Non-sag formula fills gaps
- 1 hour cure

**40507** | 7 oz. 2K Cartridge
**40502** | 1.7 oz. 2K Cartridge

**Working Time:** 45 Sec
**Set Time:** 50 Sec
**Cure Time:** 15 Min
**Resin Base:** Urethane

---

**Dual-Mix Quick Set 180**

**Dual-Mix Forever Warranty**
A general purpose, black adhesive designed for repairing and bonding most plastic, steel, aluminum, glass, SMC and fiberglass parts.

- High strength and sandable
- Bonds multiple substrates
- Non-sag formula fills gaps
- Extended 3 minute working time

**41807** | 7 oz. 2K Cartridge

**Working Time:** 3 Min
**Set Time:** 30 Min
**Cure Time:** 24 Hr
**Resin Base:** Urethane

---

**Mini-Max™ Clear Fast Set Adhesive**
A two-component clear epoxy for an invisible bond on plastic, metal, fiberglass and wood.

- Superior adhesion
- High strength
- Fast cure
- Bonds multiple substrates

**68442** | 1 oz. 2K Cartridge

**Working Time:** 2 Min
**Set Time:** 5 Min
**Cure Time:** 1 Hr
**Resin Base:** Epoxy

---

**Mini-Max General Purpose Adhesive**
A two-component epoxy-based adhesive for fast bonds on most surfaces.

- Superior adhesion
- Ideal working time
- Bonds multiple substrates
- Isocyanate free

**68432** | 1 oz. 2K Cartridge

**Working Time:** 3 Min
**Set Time:** 7 Min
**Cure Time:** 1 Hr
**Heat Cure Time:** 15 Min
**Resin Base:** Epoxy

---

**Insta-Bond**
A general purpose, acrylic adhesive for bonding trim pieces, emblems, moldings and other small parts. **Insta-Bond Accelerator** is a chemical catalyst for acrylic adhesives.

- Holds torn plastic together during repair
- Provides high strength bonds
- Also for use on vinyl, metal and glass
- Accelerator creates an instant bond

**39310** | 3 oz. Kit
**39311** | 1 oz. Adhesive
**39312** | 2 oz. Accelerator

**Suitable substrates:**
- Plastic
- Vinyl
- Metal
- Glass
- SMC
- Fiberglass
- Rubber
# Plastic Repair

Increase shop revenue through plastic repair. From bumpers and ground effects to trim components and mirrors, repairing plastic parts is often less expensive than replacement. SEM plastic repair products allow you to fill, repair and contour plastic parts with ease.

## Dual-Mix™
### Multi-Plastic Repair Material

**Dual-Mix Forever Warranty**

A two-component epoxy for fast repairs on virtually all plastic bumper covers.

- No adhesion promoter required
- Exceptional sanding and feather edge
- Remains flexible
- Does not shrink or pinhole
- Excellent leveling and sag resistance

## Dual-Mix Problem Plastic Repair Material

**Dual-Mix Forever Warranty**

A two-component, epoxy-based filler for repairing olefin-based plastics and similar rigid and semi-rigid substrates.

- No adhesion promoter required
- Superior adhesion
- Excellent sanding and feather edging
- Does not shrink or pinhole
- Zero VOC

## Plastic Repair Reinforcing Tape

A non-backed mesh tape to strengthen repairs on plastic and fiberglass.

- Light adhesive for easy application
- Ideal width for tears
- Use with all fillers

| 70006 | 36' Roll |

## Plastic Repair Contouring Tape

A film-backed reinforcing tape used to strengthen repairs on plastic and fiberglass and for creating or repairing bumper tabs.

- Backing material perfect for tab repair
- Ideal width for holes and larger repairs
- Use with all fillers

| 70007 | 15' Roll |
Direct to metal and paintable immediately.*
SEM Seam Sealers reduce time, reduce steps and reduce waste.

* Paintable immediately with most solvent based paint systems.
# SEAM SEALERS

Proper sealing is the only way to ensure the correct appearance and complete corrosion protection of your repairs. SEM has a comprehensive line of two-component and one-component seam sealers to meet your repair requirements.

* Paintable immediately with most solvent based paint systems.
Dual-Mix™
High-Build
Self Leveling
Seam Sealer

Dual-Mix Forever Warranty
A two-component, controlled flow epoxy ideal for use on roof seams, drip rails and trunk seams.

- Direct to metal on non-flexing roof skins
- Paintable in 15 minutes
- Will not shrink, harden or crack
- Permanently flexible

39777 | 7 oz. 2K Cartridge
Working Time: 10 Min
Set Time: 15 Min
Top Coat Time: 15 Min
Cure Time: 1 Hr

1K Seam Sealer
A versatile, single component sealer for sealing interior or exterior seams, joints, and voids.

- Direct to metal
- Paintable immediately*
- Remains flexible without shrinking or cracking
- Colors match many OEM sealers
- Optimal working time
- Corrosion resistant
- Resistance weldable
- Excellent adhesion

10.1 oz. Tube
29362 | White
29372 | Gray
29382 | Beige
29392 | Black
Working Time: 5 – 10 Min
Top Coat Time: 0 – 24 Hr
* Paintable immediately with most solvent based paint systems.

1K Sprayable
Seam Sealer
A high performance, modified silane polymer sealer for duplicating OEM sprayed seams and sound dampening pads.

- Direct to metal
- Paintable immediately*
- Excellent adhesion
- Remains flexible without shrinking or cracking
- Color variety to match OEM sealers
- Optimal working time

9.5 oz. Tube
29462 | White
29472 | Gray
29482 | Beige
29492 | Black
Working Time: 5 – 10 Min
Top Coat Time: 0 – 24 Hr
* Paintable immediately with most solvent based paint systems.

SOUND DAMPENING
Sound dampening is the key to reducing noise and vibration when completing repairs on roofs, quarter panels or other vehicle cavities. SEM products are formulated with this solution in mind.

Dual-Mix
Panel Vibration
Control Material

Dual-Mix Forever Warranty
A two-component epoxy/urethane blend for reducing noise and vibration on roof skins and intrusion beams.

- Excellent sag resistance
- Reduces noise and vibration
- Protects against corrosion
- Superior flexibility
- Up to 60 minutes of working time

39977 | 7 oz. 2K Cartridge
Working Time: 1 Hr
Set Time: 1 Hr
Cure Time: 1 Hr

Dual-Mix
Flexible
Urethane Foam

Dual-Mix Forever Warranty
A two-component, urethane, expanding foam that stops vibration and dampens sound in most voids.

- Excellent sound dampening qualities
- Stops panel flutter
- 10X volume expansion
- Does not require moisture to cure
- Resists shrinking
- Bonds to most substrates

39357 | 7 oz. 2K Cartridge
Working Time: 15 Sec
Set Time: 2 Min
Top Coat Time: 15 Min
### Sound Dampening and Fillers & Glazes

#### FILLERS & GLAZES

When repairing pinholes, scratches and minor damage, SEM has a range of high quality products to suit your needs. All SEM fillers and glazes come with the same cream hardener reducing likelihood of hardener errors.

**Dual-Mix™ Rigid Urethane Foam**

**Dual-Mix Forever Warranty**

A two-component, urethane expanding foam for filling pillars, posts, and box sections.

- Meets UL 94HB flammability tests
- Restores crash parts to OEM condition
- Superior expansion
- Reinforces weak panels
- Fast cure
- Bonds to most substrates

**Dual-Mix Sound & Seal Sprayable Coating**

**Dual-Mix Forever Warranty**

A unique sprayable epoxy/urethane blend for replacing OEM coatings under rocker panels, in trunks, and on floor sections and frame rails.

- Will not shrink, harden or crack
- Retains flexibility
- Excellent adhesion to properly prepped surfaces
- Paintable in 30 minutes

**Metal Bite™ Finishing Glaze**

A two-component polyester finishing glaze that quickly fills sand scratches and other minor imperfections.

- Fast drying to a tack-free finish
- Seals the repair area and prevents staining
- Exceptional sanding and feather edge
- Outstanding adhesion
- Use on aluminum, steel, SMC and fiberglass

**Bumper Bite™ Flexible Glaze**

A two-component flexible polyester filler that quickly fills sand scratches, pinholes, and other minor imperfections on many automotive substrates.

- Smooth, tack free finish
- Superior sanding qualities
- Stays flexible
- Excellent adhesion
- Dries quickly
- Use on most plastics, aluminum and metal

**Carbo Fill+™**

A carbon fiber enriched filler for repairing SMC, fiberglass, PP, steel and aluminum.

- Carbon fiber for added strength
- Prevents swelling
- Resists staining and shrinkage
- Eliminates halo effect
- Easy to sand in 10-15 minutes
- Excellent corrosion control

REPAIR EQUIPMENT
Applicators, tips and accessories for professional and efficient application of SEM repair materials.

2K REPAIR EQUIPMENT

Universal Manual Applicator
An applicator for dispensing all Dual-Mix 7 oz. 2K cartridges.

71119 | Applicator
- Ensures proper mix ratio
- Ideal gear ratio for smooth dispersion
- Release button for precision

Universal Pneumatic Applicator
A dispensing gun for 7 oz. cartridges.

70039 | Applicator
- Use with both 1:1 and 2:1 ratio products
- Decreases fatigue
- Increases efficiency
- Smooth even dispensing
- Adjustable flow rate
- Use with Quick Spray System

1.7 oz. Manual Applicator
Convenient and compact for dispensing 1.7 oz. cartridges. Material is dispensed quickly and consistently.

70019 | Applicator
- Ensures proper mix
- Ideal for small repairs
- Mechanical advantage for easy dispensing

2K REPAIR ACCESSORIES

Integral Nut Square Static Mixer
Mixing tips for use with two-component 7 and 10 oz. cartridge products.

70011 | 6 Pack
70012 | 50 Pack

Versa-Tip
Create ribbon beads out of 7 oz. seam sealer cartridges.

70070 | 6 Pack

1.7 oz. Turbo Static Mixer
Mixing tips for use with 1.7 oz. Dual-Mix cartridge products.

70020 | 6 Pack
70021 | 50 Pack

Quick Spray System Static Mixer
Extended mixing tips for use when spraying seam sealers and sound dampening materials.

70103 | 6 Pack
**Quick Spray System Starter Kit**
Everything necessary to start spraying two-component sealers and sound dampening materials.

- Duplicate OEM sprayed seams
- Easy assembly and clean up
- For use on trunks, doors, wheel wells and more

**NOTE:**
70039 Universal Pneumatic Applicator is not included in the 70100 kit. Only use the Quick Spray System with specified SEM products.

<table>

- 39377 Dual-Mix™ Seam Sealer
- 39477 Dual-Mix Beige Seam Sealer
- 40377 Dual-Mix Heavy Bodied Black Seam Sealer
- 40477 Dual-Mix Heavy Bodied White Seam Sealer
- 40977 Dual-Mix Sound & Seal Sprayable Coating

**Adapter Assembly**
An air regulator and hose for the Quick Spray System only.

| 70104 | Assembly |

**Air Baffle**
Atomization tips used with the Quick Spray System only.

| 70106 | 5 Pack |

**Round Air Assembly**
A round air cap and baffle for use in the Quick Spray System only.

| 70101 | Assembly |

**Flat Air Assembly**
A flat air cap and baffle for use in the Quick Spray System only.

| 70102 | Assembly |

**1K REPAIR EQUIPMENT AND ACCESSORIES**

**1K Pneumatic Applicator**
An air-driven applicator gun designed for use with our 1K Seam Sealers.

<table>
<thead>
<tr>
<th>29342</th>
<th>Applicator</th>
</tr>
</thead>
</table>
| • Reduces hand fatigue  
• Adjustable flow rate  
• Dispenses product consistently  
• Ideal for frequent use or large jobs |

**1K Sprayable Seam Sealer Applicator**
A premium applicator for 1K Sprayable Seam Sealers.

<table>
<thead>
<tr>
<th>29442</th>
<th>Applicator</th>
</tr>
</thead>
</table>
| • Fully adjustable to match any sprayed seams  
• Spray sound dampening pads  
• Tight patterns with minimal overspray  
• Able to apply material in beads  
• No clean up if used regularly |

**1K Doorskin Nozzle**
Designed for use with the 1K Sprayable Seam Sealer Applicator.

| 29312 | 6 Pack |

**1K Extrusion Nozzle**
Designed for use with the 1K Sprayable Seam Sealer Applicator.

| 29322 | 6 Pack |

**Sprayable Seam Sealer Gun Cleaner**
Cleans the 1K Sprayable Seam Sealer Applicator.

| 29433 | 20 oz. Aerosol |

See page 3 for complete details.
# Fleet Line™ Repair

Commercial fleet repair – simplified. Fleet Line products are optimized to work on multiple surfaces and repairs, reducing SKUs and improving inventory.

## Fleet Line™ Composite Adhesive and Repair

A two-component, fiber-enriched, epoxy used for bonding and/or cosmetic repair of composite plastics, such as SMC, fiberglass and carbon fiber as well as Metton™ and other rigid plastics.

- One product for bonding and repair
- Exceptional bonding strength
- Outstanding sanding and feather edging
- Heat set options available
- Fiber-enriched formula helps control swelling and halos
- Easy to disperse and spread

**43110 | 10 oz. 2K Cartridge**
- Working Time: 35 Min
- Set Time: 3 Hr
- Sand Time: With Air Dry: 3 Hr, With Paint Booth: 30 Min, With Heat Lamp: 10 Min

## Fleet Line 3 Minute General Purpose Adhesive

A two-component, black, urethane adhesive with a 3 minute working time for general purpose bonding and repairing of plastic, steel, aluminum, glass, SMC and fiberglass parts.

- High strength and sandable
- Bonds multiple substrates
- 3 minute working time
- Non-sag formula

**43310 | 10 oz. 2K Cartridge**
- Working Time: 3 Min
- Set Time: 30 Min
- Cure Time: 24 Hr

## Fleet Line Flexible Plastic Repair

A two-component, 15 minute sandable epoxy for repairing most flexible plastic parts without an adhesion promoter.

- Exceptional sanding and feather edging
- Remains flexible after cure
- No adhesion promoter
- Compatible with all polyester glazes and putties

**43210 | 10 oz. 2K Cartridge**
- Working Time: 7 Min
- Sand Time: 15 Min
- Top Coat Time: 20 Min
- Cure Time: 1 Hr

## Fleet Line White Seam Sealer

A two-component, high viscosity, epoxy seam sealer for use on interior or exterior seams, joints and voids.

- Direct to metal
- Paintable immediately with most solvent based coatings
- High viscosity, non-sag formula
- Remains flexible after cure
- True white non-yellowing color

**43410 | 10 oz. 2K Cartridge**
- Working Time: 10 Min
- Set Time: 15 Min
- Top Coat Time: Most Solvent-Based: 0 Min, Waterborne: 15 Min
- Cure Time: 1 Hr

## Fiberglass Cloth

4” X 12’ roll of woven fiberglass cloth for reinforcing the backside repair of cracks or tears of composite plastics.

**70025 | 4” x 12’ Roll**

## Release Film

5” X 12’ roll of polyethylene plastic creates a barrier between repair materials and allows technicians to mold or press the product into place, then peel off effortlessly.

**70026 | 5” x 12’ Roll**

## Fiberglass Roller

3/8” X 3” aluminum roller presses composite repair materials into place to improve adhesion and remove air pockets. Best when used with 70026 Release Film.

**70027 | Roller**
### Fleet Line™ Manual Applicator

A heavy-duty manual applicator for 10 oz. Fleet Line cartridges. Ergonomically designed, well balanced and a 26:1 gear ratio provides nearly effortless dispensing even the thickest materials. Accepts most 1:1, 7 oz. and 10 oz. cartridges.

- Ideal gear ratio
- Heavy duty chassis
- Works with 7 and 10 oz., 1:1 cartridges
- Ergonomically designed

**71139 | Applicator**

### Fleet Line Pneumatic Applicator

A high performance, air-operated applicator for 10 oz. Fleet Line cartridges. Lightweight and well balanced, this applicator reduces technician hand fatigue commonly experienced with some manual applicators. Accepts most 1:1, 7 and 10 oz. cartridges.

- Adjustable flow rate
- Increases efficiency
- Decreases fatigue
- Works with 7 and 10 oz. 1:1 cartridges
- Consistent, even dispensing

**70059 | Applicator**
CLEARS
Durability, gloss and optimal performance on every job. Technicians experience easy application and fast dry times without dieback, no matter the VOC level or mix ratio. SEM clears maintain their finish for years.

World Class™
EZ Finish™ Clearcoat

4.4 VOC | 4:1 Mix
A production oriented, national rule urethane clearcoat for exceptionally easy application and refinishing.

• 24 Month Warranty
• Simple 2 coat application
• Excellent leveling
• High gloss & DOI
• Cures quickly and thoroughly
• Exceptional sand and buff properties
• Excellent UV protection

World Class
Universal Clearcoat

4.2 VOC | 4:1 Mix
A high quality, versatile, two-component urethane clearcoat for collision shops.

• 24 Month Warranty
• Great product at mid-grade price
• Two coat application
• Superior vertical hold
• Exceptional gloss and DOI
• Chemical resistant
• Easy to buff
• Excellent UV protection

World Class
4.2 VOC Euro Clear

4.2 VOC | 2:1 Mix
A high quality, national rule, two-component urethane clearcoat for productive collision shops.

• 24 Month Warranty
• Excellent flow and leveling
• Exceptional gloss and DOI
• Chemical resistant
• Easy to buff
• Excellent UV protection
• 4 activator speeds

World Class
Production Clearcoat

2.1 VOC | 4:1 Mix
A 2.1 VOC two-component, full cure urethane clearcoat for collision facilities in regulated areas.

• 24 Month Warranty
• Great product at mid-grade price
• 2 coat application
• Excellent vertical hold
• Firm after bake
• Easy to buff
• Excellent UV protection

World Class
2.1 VOC Euro Clear

2.1 VOC | 2:1 Mix
A higher solids, 2.1 VOC compliant, two-component clearcoat for collision shops in regulated areas.

• 24 Month Warranty
• Great product at mid-grade price
• Exceptional appearance
• Chemical resistant
• Easy to buff
• Excellent UV protection

16    Built Better in the USA
## World Class™ Accelerator

Increases productivity by reducing full cure time of urethane coatings.

- Reduces cure times
- Cuts handle time by 25%
- Only 0.5 oz. needed per sprayable quart
- For use with all World Class clears

![World Class™ Accelerator](image)

| 50918 | Pint |

## 1K HS Clear

**Improved Formula**

Perfect for refinishing small accessories, door jams, and new part cut-ins.

- Improved fan pattern is second only to a spray gun
- Increased gloss for a showroom finish
- Lays flat to blend perfectly with spray gun patterns
- Quick drying for increased production
- Shop floor compliant (NESHAP)
- Save time and material

![1K HS Clear](image)

| 40903 | 20 oz. Aerosol |

Find out how to reduce labor up to 85% using the OEM Refinishing System™ on page 22.

## 1K HS Semi-Gloss Clear

**Improved Formula**

A mid-gloss, aerosol, acrylic clearcoat for duplicating OEM lower gloss panels.

- Matches underhood gloss
- Quick-drying for increased production
- Shop floor compliant (NESHAP)
- Professional spray pattern
- Sprays evenly without streaks
- Saves mixing time and eliminates waste

![1K HS Semi-Gloss Clear](image)

| 40913 | 20 oz. Aerosol |

Find out how to reduce labor up to 85% using the OEM Refinishing System on page 22.

## Blenz-In

An aerosol blending solvent designed to melt the edge of two-component urethane refinish top coats into the existing coating. It allows users to keep repairs to a single panel by creating an invisible blend.

- Saves time and money
- Seamless blends
- Use with most clearcoats
- 100% UV stable

![Blenz-In](image)

| 38403 | 20 oz. Aerosol |
#世界级HS

## Urethane Primer

- **4.2 VOC | 4:1 Mix**
- 高建链, 二组分聚氨酯底漆，适用于汽车底材。
- **特性**
  - 4.2 VOC含量
  - 优异的附着力
  - 优秀的填充性
  - 快速干燥，易于打磨
  - 优秀的耐久性
  - 可选容量：加仑或夸脱

## World Class Acrylic Primer Surfacer

- **2.1 VOC | 1:1 Mix**
- 符合VOC的涂层，用于快速填充汽车底材。
- **特性**
  - 2.1 VOC含量
  - 优秀的填充性
  - 快速干燥，易于打磨
  - 优秀的耐久性
  - 可选容量：加仑或夸脱

## World Class Waterborne Flexible Primer

- **2.1 VOC | Ready to Spray**
- 水基弹性涂层，用于汽车保险杠翻新。
- **特性**
  - 优秀的灵活性和附着力
  - 作为保护涂层防止翘边
  - 优秀的填充性
  - 容易干燥
  - 符合VOC和环保
  - 节省时间和劳动
  - 可选容量：夸脱

## High-Build Primer Surfacer

- **Improved Aerosol**
- 一种灵活的丙烯酸涂层，用于基材，铝，聚氨酯，玻璃钢和塑料。
- **特性**
  - 优秀的附着力
  - 优秀的填充性
  - 适用于柔韧或刚性底材
  - 易于干燥
  - 可以与大多数面漆材料一起使用
- **容量**
  - 20盎司气溶胶

## SEM Fast Drying Primers

- 理想的涂层厚度，易于涂覆和砂磨。每种底材，应用，环境，SEM底漆都是溶剂型或水性颜色的基础。
### Self Etching Primer

**VOC Compliant**

**Improved Aerosol**

Provides excellent adhesion and corrosion resistance to properly prepped steel, aluminum and stainless steel.

- Excellent adhesion to steel, aluminum and stainless steel
- Quick drying
- 3 colors available - black, gray and green
- Bulk products are VOC compliant
- Packaged in gallons, quarts and aerosols

### Copperweld™ and Brushable Copperweld

A weld-through primer for superior corrosion protection between welded substrates.

- Copper and zinc enriched
- Exceptional conductivity
- Minimizes the heat zone
- Reduces distortion and splatter
- Superior corrosion protection
- Fast drying

<table>

### Waterborne Flexible Primer

**2.1 VOC Compliant**

A waterborne flexible coating for priming urethanes, plastics and other similar substrates.

- Superior adhesion
- Excellent sealing properties
- VOC compliant and environmentally friendly
- High solids formula
- Topcoat with most refinish material
- Sands easily
- Saves time and labor
- Ready to spray – no mixing

BUMPER COATERS
Increase shop revenue by repairing or restoring bumper covers. With multiple OEM matched colors and formulas to eliminate adhesion promoter or meet VOC restrictions, SEM Bumper Coater™ is the perfect choice.

Flexible Bumper Coater
A line of advanced coatings formulated to restore the OEM finish on automotive bumpers and plastic cladding.
- No adhesion promoter required
- No primer required
- Excellent adhesion and durability
- Matches OEM appearance
- Retains flexibility
- Great coverage
- Professional results

Low VOC Bumper Coater
2.8 VOC Compliant
A black, flexible coating designed for easy reconditioning of most plastic bumpers.
- Superior adhesion
- OEM matched color and gloss
- Great for flexible or rigid substrates
- Easy to apply
- Excellent hiding
- Available in gallons and quarts

Bumper Coater Aerosols
A line of advanced coatings formulated to restore the OEM finish on automotive bumpers and plastic cladding.
- No adhesion promoter required
- No primer required
- Excellent adhesion and durability
- Matches OEM appearance
- Retains flexibility
- Great coverage
- Professional results

Guide Coat Black
Helps detect low spots, sand scratches or other minor imperfections while sanding primer.
- Quick drying
- Improves production
- Will not clog sandpaper
- Helps create a perfect repair

Premium Powder Guide Coat
A dry powder for identifying low spots, pinholes and other surface defects when sanding primer.
- Dries instantly
- Sandable immediately
- Will not clog sandpaper
- No masking required
- No mess or waste
- Overspray wipes off

REFINISH | Primers and Bumper Coaters

BUILT BETTER™ IN THE USA
OEM REFINISHING SYSTEM™
Reduce cycle time to increase throughput with SEM’s OEM Refinishing System. Shop floor compliant (NESHAP) aerosols eliminate mixing paint, waiting on a painter, tying up the paint booth, and cleaning spray guns. Now you can quickly refinish support parts, cut-ins and jambs.

Factory Pack™
A unique, time saving aerosol basecoat for jambs, cut-ins, small accessories, and touch ups.
- 180 crossovers from 17 car manufacturers
- Saves hours per job
- Lower material cost
- Reduces booth bottlenecks
- Superior adhesion, flexibility, and hiding
- Shop floor compliant (NESHAP)
- Should be clear coated

Crossover manufacturers include Ford, Honda, Toyota, GM, BMW, Chrysler, Hyundai, Kia, Mazda, Mercedes and Nissan.

16 oz. Aerosol

Ez Coat™
The original direct to metal coating that matches the color and gloss of factory primer and e-coat colors.
- Duplicates factory appearance
- Direct to steel and aluminum
- Quick curing and hiding
- Available in 9 popular OEM colors
- Paintable with most automotive basecoats
- Excellent corrosion control
- Shop floor compliant (NESHAP)

Ez Coat 6 Pack Assortment
The original direct to metal coating that matches the color and gloss of factory primer and e-coat colors. Contains 1 each of Black, Olive Green, Light Green, Gray, Tan and Olive Brown.

Aerosol Clears
Improved Formula
Perfect for protecting refinishing color on small accessories, door jambs, and new part cut-ins.

See page 17 for complete details.
# TRIM PAINTS

The standard by which all others are measured, SEM Trim Black professionally restores the OEM look of automotive trim components. With several options to match color and gloss, SEM brings high performance flexibility and color stability to each job.

## Trim Black

**The Industry Standard**

An acrylic coating formulated to match the OEM finish on automotive trim components. For use on plastic, aluminum, steel, stainless steel and chrome.

- Excellent adhesion and durability
- No primer required
- Matches OEM appearance
- Retains flexibility
- Great coverage
- Professional results

Sure-Coat™ Mixing System

**VOC Compliant**
A waterborne coating system that provides outstanding flexibility and adhesion for refinishing most leather, vinyl, and plastic.

- Superior resins provide great adhesion and durability
- Retains flexibility, will not soften or crack
- Maintains texture of substrate
- 1000s of formulas including many OEM matched colors
- Easy brush or spray application
- Quick drying
- Add cross-linker to resist cleaning chemicals

14 Colors
Sure-Coat Mixing System includes 9 toners, 3 clears, a Fleet and Foreign Color Selector, pint labels and Dauber Bottles.

**Color Coat™**

**Improved Aerosol**

A specialty, flexible coating formulated to restore or change the color of most vinyl surfaces, flexible and rigid plastics, carpet and velour. **Color Coat** is not a dye, but a fade-resistant, flexible and permanent coating.

- Refinish vehicle interiors and motorcycle seats
- Enhance automotive carpet and velour
- Superior adhesion, flexibility, and hiding
- Will not crack
- Quick drying and simple to use
- Ready to spray quarts and gallons
- Mixing system available for endless colors

**Color Coat Mixing System**

The **Cone Top Mixing System** is for the jobber, shop or mobile technician.

The **Quart Mixing System** is perfect for the jobber or shop to start mixing **Color Coat**.

The **Gallon Mixing System** is for the jobber or shop that mixes **Color Coat** regularly.

- 9 toners and 3 clears
- Convenient pourable containers
- Includes intermix labels and sales aids
- Comes with 5 years of color chips and a Fleet and Foreign Color Selector

**Color Coat Aerosol Blanks**

A blank aerosol can that can be filled with any custom color.

**Improved Aerosol**

15993 | Universal Color Coat

61983 | Custom Fill™ Color Coat

**Tac Free**

A flexible satin top coat used to eliminate plasticizer migration on coated surfaces.

- Eliminates tackiness on refinished vinyl
- Wet on wet application saves time
- Protective coating
- Resistant to alcohol based cleaners

**Fleet and Foreign Color Selector**

320 solid and metallic color deck to help users select the proper color of Sure-Coat and **Color Coat**.

See page 31-32 for complete details.

**Color Coat Flattener**

An additive that lowers gloss and adds versatility when custom matching **Color Coat** intermix formulas.

MARINE

Keep your watercraft looking new, season after season, by restoring the original color to your vinyl seats and plastic components. Save hundreds, if not thousands of dollars, over replacement or recovering.

**Engine Paint**
A flexible coating formulated to restore the color of plastic marine engine cowlings and other painted metal parts on the stern drive and lower unit.

- Convenient aerosols
- Quick drying
- Excellent for fiberglass, plastic and precoated metal
- Flexible coating – will not crack
- Superior hiding and gloss
- Smooth, consistent finish
- Matches OEM finish
- Excellent corrosion control

16 oz. Aerosol
M25503 | Evinrude White
M25513 | Mercury Phantom Black

**Vinyl Coat™**
A line of flexible aerosol coatings to match, restore or change the color of most marine vinyl and plastic surfaces.

16 oz. Aerosol
25 Colors

M25003 | Ultra Purple
M25013 | Ultra Turquoise
M25023 | Ranger Orchid Green
M25033 | Ultra Blue

M25173 | Ranger Charcoal

**GripTide™ Non-Skid Deck Coating**
A two-component high quality urethane, grip-enhancing, textured coating that provides a durable, protective finish for boat floors, boat decks and other marine surfaces.

- Adhesion to most surfaces
- 2K technology for durability and a quick cure
- Easy one-step spray or roller application
- Durable coating that maintains flexibility
- Four popular marine colors
- Chemical resistant
- Fade resistant

Gallon Kits
M25610 | Sail White
M25620 | Gull Grey
M25630 | Mateo Wheat
M25640 | Sportsman Green
71140 | Heavy Texture Roller

**GripTide Primer**
**2.1 VOC Compliant**
A 2.1 VOC compliant, two-component primer that provides bare metal adhesion and filling in one product.

- 2.1 Mixed VOC
- Outstanding adhesion on steel, fiberglass, aluminum
- Excellent corrosion control
- Builds quickly, sands easily
- Excellent color holdout
- Rollable or sprayable

Gallon Kits
M25674 | Primer | Quart
M25686 | Primer Activator | Half Pint
CUSTOM FINISH

Whether your style is bright, chromatic colors or laid-back subtle nuances, SEM offers a product that's right for you. From basecoats, candies, fluorescents and effect pigments to the best selling, high quality line of matte finishes in the industry, SEM has your custom paint needs covered.

**Hot Rod Black**

The industry leading matte, two-component, single stage black for low gloss accent stripes, hoods or entire vehicles.

- Durable and mar resistant
- Excellent resistance to chalking and fading
- Retains color
- Smooth and uniform finish
- National Rule VOC compliant

**Low VOC Hot Rod Colors**

2.8 VOC Compliant

The leading matte finish, two-component, single stage topcoat system for low gloss accent stripes, hoods, or entire vehicles.

- Durable and mar resistant
- Excellent resistance to chalking and fading
- Retains color
- Smooth and uniform buff-free finish
- 2.8 VOC compliant
- Black, silver, smoke & white
- Intermix for one-off colors

**Hot Rod Clear**

2.1 VOC Compliant

Provides the ultimate custom low gloss look on any color when painting accent stripes, hoods or entire vehicles.

- Durable, two-component, matte finish
- Smooth and uniform appearance
- 2.1 VOC compliant
- Convenient kit format

**Base Colors**

Fast covering clean colors that provide maximum color effect for custom paint jobs.

- Superior pigmentation
- Ideal atomization
- Smooth and uniform finish
- Excellent adhesion
- Easy to apply with no recoat issues
- Accepts isocyanate hardener in multi-layer jobs

**Mix Clear**

A one-component colorless coating used as a carrier for custom finish concentrates and effect pigments.

- Excellent color holdout
- Can be used as a mid-coat clear to protect artwork
- Transparent for vivid colors
- Minimizes tape tracking
- Fast drying
- Easy to use

**Quart**

- 02014 | Gold
- 02024 | Silver
- 02044 | Bright White
- 02054 | Jet Black
- 02064 | Titanium
- 02094 | Lt Gold
- 02114 | Yellow
- 02154 | Red

**Gallon**

- MC011 | Gallon
- MC014 | Quart
Candy Concentrates
A vibrant line of transparent pigments that add spectacular color to custom paint jobs.

- Outstanding depth and clarity
- Brilliant, clean colors
- Easy to apply
- Combine with effect pigments for the ultimate custom look
- Compatible with multiple paint technologies

Fluorescent Concentrates
A line of intense, eye-catching colors for creating custom graphics.

- Extra bright colors
- High visual impact
- Compatible with multiple paint technologies

Flakes
Precision cut resin coated chips for adding intense sparkle to custom paint jobs.

- Brilliant, jewel-like colors
- Provides extreme effect
- Fade and solvent resistant
- Easy to apply

Lightning FX
Vibrant glass pearl pigments that provide extra brilliance and sparkle to custom paint jobs.

- Add to color or clear
- Highly reflective
- Adds intense sparkle in sunshine

Paste Pearls
Concentrated effect pigments that add a mild frosted sparkle effect to custom paint jobs.

- Concentrated for easy mixing
- Highly reflective pigments
- Easy to create one-off colors

A 70 year heritage.
Best-in-class products for collision centers, restoration shops and DIYers.
AEROSOL FILLING
Increase throughput with shop floor compliant aerosols. Fill one custom aerosol or hundreds with our quick, clean and easy to use filling equipment and aerosol blanks. Limitless color combinations for solvent and waterborne paint systems increase your revenue.

Custom Fill™ Aerosol Blank
Can be filled with a variety of automotive paints using a Custom Fill Machine. Custom aerosols are compliant for use by professional shops outside of the booth and give DIY customers professional results.

- No clean up
- Comfort tip eases finger fatigue
- Holds pressure throughout the can
- Shop floor compliant (NESHAP)
- Quick and easy to fill
- Professional spray pattern

61993 | 16 oz. Aerosol

Custom Fill+ High Build Aerosol Blank
Custom Fill+ High Build Aerosol Blanks provide higher film build and quicker coverage for 1K and 2K solvent primers, clear, and color.

- Superior basecoat and single stage hiding
- Shop floor (NESHAP) compliant
- Utilize your preferred primer, basecoat, or clear with your activator to ensure proper mix
- 1K & 2K compatible

62013 | 16 oz. Aerosol

Custom Fill Waterborne Aerosol Blank
Can be filled with Sure-Coat™ and automotive waterborne basecoat for convenient high quality repairs.

- No clean up
- Comfort tip eases finger fatigue
- Holds pressure throughout the can
- Shop floor compliant (NESHAP)
- Quick and easy to fill
- Professional spray pattern

62003 | 16 oz. Aerosol

Custom Fill Color Coat™ Aerosol Blank
Designed to be filled with Color Coat using a Custom Fill machine. Custom aerosols provide unlimited colors for refinishing vinyl and plastic or touching up carpet and velour.

- No clean up
- Comfort tip eases finger fatigue
- Holds pressure throughout the can
- Shop floor compliant (NESHAP)
- Quick and easy to fill
- Professional spray pattern

61983 | 16 oz. Aerosol

Custom Fill Pneumatic Machine
A pneumatic filler to fill custom aerosols.

| Width: 5.25" | Height: 15" |

Accessories:
70704 | Wall Bracket
70706 | Cylinder

70701 | Pneumatic Machine

Custom Fill Manual Machine
A hand operated aerosol filler to fill custom aerosols.

| Width: 5.25" | Height: 22" including handle |

70801 | Manual Machine
**Aerosol Filling and Adhesion Promoters**

**Multi-Coat™ Aerosol Blank**

**Improved Aerosol**
An aerosol blank for filling enamels, urethanes, and other paints.

- Create customer specific aerosols
- Ideal for industrial applications
- Compliant for use on shop floor
- Use with Omni or Fillon machines
- Economical

![Image](image1.png)

61003 | 16 oz. Aerosol

**Universal Color Coat™ Aerosol Blank**

**Improved Aerosol**
A blank aerosol for filling custom Color Coat colors.

- Ideal solvent blend for Color Coat
- Use with Omni or Fillon machines
- Professional spray pattern

![Image](image2.png)

15993 | 16 oz. Aerosol

**Custom Fill™ Wide Fan Tip**

WTIP25 | Wide Fan Tip – 25 Pack
Replaces tip on Custom Fill Aerosol Blank (61993). May also be used on Custom Fill+ High Build (62013).

**Custom Fill Medium Fan Tip**

MTip25 | Medium Fan Tip – 25 Pack
Replaces tip on Custom Fill+ High Build (62013). May also be used on Custom Fill Aerosol Blank (61993).

**ADHESION PROMOTERS**

Eliminate costly rework from paint not sticking to plastic or other difficult substrates. Simple to use, SEM adhesion promoters make painting substrates quick and easy.

**XXX Adhesion Promoter**

Increases adhesion of top coat materials to surfaces such as plastics, aluminum, steel, glass, chrome and previously painted surfaces.

- Superior bonding properties
- Top coat with most refinish products
- Excellent on olefin based plastics
- Easy to apply
- 3 convenient sizes

![Image](image3.png)

77721 | Gallon
77723 | 16 oz. Aerosol
77724 | Cone Quart

**Sand Free Adhesion Promoter**

A unique wet-on-wet adhesion promoter for ABS, PVC and similar plastics.

- Wet-on-wet application melts color into substrate
- Perfect for interior plastic parts
- Easy to use

![Image](image4.png)

38363 | 16 oz. Aerosol
38364 | Cone Quart
### Plastic Adhesion Promoter

Increases adhesion of top coat materials to a wide variety of raw plastics.

- Superior bonding properties
- Topcoat with most refinish products
- Excellent on olefin based plastics
- Easy to apply
- 3 convenient sizes

**39861** | Gallon
**39863** | 20 oz. Aerosol
**39864** | Cone Quart

### GENERAL PURPOSE AEROSOLS

**MultiMax™**

A multi-purpose aerosol enamel for exterior or interior use on metal, wood, fiberglass and rigid plastic.

- Outstanding coverage
- Excellent filling properties
- Durable, fast drying finish
- Great adhesion
- Professional finish

### PAINT STRIPPERS

**XXX Bumper Stripper**

An aerosol material designed to safely remove refinish materials from flexible parts.

- Won’t swell or attack substrate
- Safe for most bumpers
- Non-sag formula

**77713** | 16 oz. Aerosol

**Urethane Bumper Stripper**

Safely removes refinish materials from flexible parts.

- Won’t swell or attack substrate
- Safe for most bumpers including urethane pieces
- Non-sag formula

**39913** | 20 oz. Aerosol

### UV CURED CLEAR

**Solaray™ UV Clearcoat**

A UV cross-linked coating for restoring headlights and refinishing wheels and accessories.

- Long lasting OEM replacement material
- Cures fast to a hard high gloss finish
- Superior durability
- Shop floor compliant (NESHAP)
- Use on wheels, small parts and accessories

**21013** | 12 oz. Aerosol
**Power Station**

**Easily mix and fill your preferred primers, basecoats and clears into aerosols on the shop floor.**

- Fill your preferred basecoat, primer, or clear with recommended activator ensuring proper mix
- Reduce labor up to 85% through time savings and less steps
- Eliminate waste from costly cups, gun cleaning, and hazardous waste
- Extend pot life of mixed products
- Rationalize SKUs needed for filling
- Free up paint team for larger jobs
- Compliant for shop floor application (NESHAP 6H)
- Compact, mobile design provides easy integration

REDUCE REPAIR TIME, STEPS AND WASTE WITH THE POWER STATION

NOW YOU CAN FILL AEROSOL BLANKS WITH YOUR PREFERRED 2K PRIMER, BASECOAT, OR CLEAR AND SPRAY WHILE ON THE SHOP FLOOR

1. Choose the correct Custom Fill Aerosol Blank to suit your coating. Mix your preferred 2K coating and activator.

2. Place the Custom Fill™ cap in the Fill Cylinder and fill your pre-mixed coating for quick and easy refinishing on the shop floor.

TURN MORE CARS WITH THE POWER STATION AND CUSTOM FILL AEROSOLS

- Reduces labor up to 85% through time savings and less steps
- Eliminates costly cups, gun cleaning, and hazardous waste
- Extends pot life of mixed products
- Frees up paint team for larger jobs
PROTECTIVE COATINGS

UNDERCOATINGS

SEM undercoatings eliminate headaches caused by poor performance of low quality products. Our rubberized products offer industry leading color and texture without bleed through. Our asphalt-based products give fantastic coverage and dry times at an economic price.

Rubberized Undercoating
A premium, single component, paintable, textured coating for sound dampening, chip resistance, rust protection and corrosion protection.

- Uniform final appearance
- Quality asphalt-free formula
- Paintable without bleed through
- Sound-dampening properties
- Aerosol includes straw for tight spots
- Fast-drying
- Chip and corrosion resistant

Low VOC Rubberized Undercoating

VOC Compliant
A premium paintable textured coatings for areas needing sound deadening, chip resistance and corrosion protection.

- Uniform final appearance
- Quality asphalt-free formula
- Paintable without bleed through
- Sound-dampening properties
- Aerosol includes straw for tight spots
- Fast-drying
- Chip and corrosion resistant

Undercoating
A non-paintable, asphalt-based aerosol coating for corrosion protection, chip resistance and sound deadening on automotive frames, wheel wells and undercarriage areas.

- Uniform appearance
- Excellent adhesion
- Economical

Low VOC Undercoating

VOC Compliant
An asphalt-based, aerosol coating for corrosion protection, chip resistance and sound deadening on frames, wheel wells and undercarriage areas.

- Uniform appearance
- Excellent adhesion
- Economical

Intelligent Product Design.
Reduce repair time, steps and waste.

It’s the way we work. It’s the way we think.
CHIP GUARDS
SEM has the top products for restoring OEM chip resistance and corrosion protection to lower body panels. From fine to heavy textured coatings, SEM has a chip guard that is right for the job.

Pro-Tex™
2K Chip Guard
A two-component, urethane, textured coating for the ultimate protection of lower panels prone to chipping and corrosion.
- Tintable and paintable
- Duplicate all OEM textures
- Topcoat with solvent or waterborne systems
- Best in class protection
- Excellent gloss retention
- No special equipment needed

Heavy Texture Chip Guard
An aerosol coating that matches medium to heavy OEM textures and protects lower panels from impact, chipping, and abrasion.
- Excellent chip and impact protection
- Duplicate a variety of factory textures
- Simple aerosol application
- Medium to coarse texture
- Dries fast

Satin Black Chip Guard
A durable, acrylic coating that matches light to medium OEM textures and protects lower panels from impact, chipping, and abrasion.
- Excellent chip and impact protection
- Duplicate a variety of factory textures
- Available in aerosol and a ready to spray quart
- Available in 20 oz. aerosol and quart
- Dries fast

Clear Chip Guard
A durable, acrylic coating that matches light to medium OEM textures and protects lower panels from impact, chipping, and abrasion.
- Excellent chip and impact protection
- Duplicate a variety of factory textures
- Available in aerosol and a ready to spray quart
- Dries fast

COATING EQUIPMENT
SEM has the top products for restoring OEM appearance and protection.

Pro-Tex Truckbed Liner Gun
A siphon feed spray gun used to apply Pro-Tex liners.
- 0.5” pick up tube required for Pro-Tex
- Adjustable pattern

Premium Undercoat Applicator
A siphon feed heavy plastic applicator for spraying bed liners, undercoatings, and rust proofing.

Rock-It Liner™ Gun
A low cost, cast aluminum siphon gun for spraying bulk undercoatings and Rock-It Liner.
TRUCKBED LINERS
SEM offers three sprayable urethane bedliners with various advantages in protection and cosmetic appearance. Available in black and tintable versions, SEM bedliners will not chalk, fade or peel after proper application.

Rock-It Liner™
Improved Formula
A high quality, urethane, textured coating that provides a durable protective finish for truckbeds and restoration projects.

- Excellent sound dampening
- Outstanding adhesion
- Superior fade resistance
- Chemical and corrosion resistant
- Free applicator gun included in every kit

Professional Truckbed Liner
A two-component, urethane, textured coating that provides superior adhesion, film build and flexibility to truckbeds and restoration projects.

- Durable, slip resistant, non-corrosive coating
- Outstanding adhesion and chemical resistance
- Will not fade
- Bonds to most surfaces
- Tintable version to match OEM colors
- Sound dampening properties
- Air and water tight

PROTECTION. TEXTURE. DURABILITY.

**Pro-Tex™ Truckbed Liner**

**Lifetime Warranty**
A professional, two-component, urethane liner system that provides a hard, durable finish and superior protection to truckbeds and equipment.

- Tough, durable and non-corrosive
- Air and water tight
- Tintable version to match OEM colors
- Outstanding chemical resistance
- Bonds to most surfaces
- Resists fading
- Excellent sound dampening
- No maintenance

Apply with the Pro-Tex Truckbed Liner Gun or Premium Undercoat Applicator on page 37, 42.

**Pro-Tex Extender**
An additive to lengthen the pot life of Pro-Tex Truckbed Liners.

- 40688 | Pint

**Plastic Schutz Bottle**
A black HDPE plastic bottle for applying undercoatings and liner systems.

- 71004 | 1 each
  
See page 42 for attachable applicators.

**40640 | Black | Kit**

KIT CONTAINS:
1 – 40641 | Black | Gallon
2 – 40674 | Catalyst | Quart
2 – 71004 | Plastic Schutz Bottle
2 – Mixing Cups

SOLD SEPARATELY:
40645 | Black | 5 Gallon
4064-DR | Black | 54 Gallon New
40671 | Catalyst | Gallon

**40660 | Tintable | Kit**

KIT CONTAINS:
1 – 40661 | Tintable | Gallon
2 – 40674 | Catalyst | Quart
2 – 71004 | Plastic Schutz Bottle
2 – Mixing Cups

**For race day...and every day.**

**For race day.**
Furniture Row Racing and 28 other professional auto racing teams trust SEM Products.

**Every day.**
Collision centers, restoration shops, and DIYers trust SEM’s OEM recommended products to reduce repair time, steps and waste in every application.

©CIA Stock Photo
**RUST PREVENTION**

Restoring OEM corrosion protection is critical to a lasting repair. These products provide OEM quality corrosion protection while improving repair process efficiencies.

**Rust Preventer Cavity Wax**
A semi-transparent black internal panel compound to restore OEM corrosion protection on inner body panels and cavities.

- Non-hardening
- Sprayable in 360° pattern
- Superior adhesion
- Excellent corrosion protection
- Superior wicking

**Copperweld™**
An aerosol weld-through primer for superior corrosion protection between welded substrates.

40783 | 20 oz. Aerosol
See page 19 for complete details.

**Brushable Copperweld™**
A weld-through primer for superior corrosion protection between welded substrates.

40786 | 8 oz. can
See page 19 for complete details.

**Weld-Thru Primer**
A zinc-enriched coating that neutralizes rust and provides temporary rust protection prior to top coating.

39783 | 16 oz. Aerosol
See page 19 for complete details.

**Premium Undercoat Applicator and Wand**
A siphon feed heavy plastic applicator for spraying bed liners, undercoatings, and rust proofing.

71110 | Applicator and 1 Spray Wand
See page 42 for complete details.

**RUST CONVERTERS & SEALERS**
Removing rust can damage your substrate. With SEM rust products, stop oxidation and prevent further damage or convert existing rust to a paintable surface. Never let rust stop you from completing your repair.

**Rust Mort™**
An acidic compound that removes or converts rust to an insoluble coating prior to applying body filler, primer or top coat.

- Completely removes light rust
- Converts heavy rust into a stable, workable substrate
- Creates ideal surface for filler or primer
- Ready to apply
- Requires minimal surface prep

69501 | Gallon
69504 | Quart
69508 | Pint

**Rust Seal™**
A dual-purpose acidic compound that neutralizes mild rust and provides a temporary rust-protective layer prior to top coating.

- Neuturalizes mild rust
- Remains on surface for short-term rust prevention
- Must be topcoated to prevent new rust
- Apply with brush or roller
- Apply to damp or dry rusted surfaces
- Can be sanded for body filler or top coat

39304 | Quart
39308 | Pint
RUST COATINGS
Make difficult refinish projects quick and easy by painting directly to rust and bare steel at the same time. Whether a small job at home or a large piece of industrial equipment, SEM rust products transform old and rusty items.

Rust Trap™
A high gloss, moisture-cured urethane coating for restoring and protecting rusty metal.

- Premium moisture-cured urethane technology
- Paint directly to rust or bare sanded steel
- No conversion products needed
- Wet-on-wet application for faster repairs
- Compliant everywhere
- Flattener available
- Can be topcoated

Rust Shield™
2.8 VOC Compliant
A direct to metal coating that isolates and controls oxidation, rust, and corrosion on metal substrates.

- Paint directly to rust or bare sanded steel
- Fast application
- Compliant everywhere
- Enhancer available for gloss adjustment
- Can be topcoated
- Restore agriculture, industrial and heavy equipment

Use Rust Trap™ to permanently stop rust and corrosion prior to topcoating or as a stand alone coating.

PROTECTIVE COATING SYSTEM
CORROSION CONTAINMENT
COATING
RUST EQUIPMENT
With applicators and accessories for applying rust and corrosion coatings, preventers, and converters, SEM offers the equipment to get the job done right.

Premium Undercoat Applicator
A siphon feed heavy plastic applicator for spraying bed liners, undercoatings, and rust proofing.
- Adjustable pattern
- Easy to clean
- 0.5” pick up tube

Spray Wand
A 28” plastic wand with a 360° tip that sprays undercoating and rust proofing behind body panels.
- 360° spray pattern
- 28” length ensures full coverage

Rock-It Liner™ Gun
A low cost, cast aluminum siphon gun for spraying bulk undercoatings and Rock-It Liner™.
- Sprays a variety of products including undercoatings, truckbed liners and chip guards
- Simple operation
- Low cost

Rust Preventer Aero Wand
A rust preventer aerosol wand with a 24” length that sprays a 360° pattern for applying Rust Preventer Cavity Wax.
- 360° spray pattern

70080 SHOP CABINET

Updated Look and Product Mix

AVAILABLE FALL 2017

SEM's 70080 Shop Cabinet Assortment is a comprehensive system of 23 products a technician needs every day for panel bonding, plastic repair, seam sealing, sound dampening, and corrosion protection. The product assortment is delivered with a locking, steel welded cabinet for added protection and organization.

- 23 product assortment of SEM's most popular collision center products
- Includes two-component 71119 Universal Manual Applicator
- Durable, steel welded construction
- All included Dual-Mix™ products are OEM recommended and forever warrantied

SHOP CABINET INCLUDES 1 EACH OF THE FOLLOWING PRODUCTS:
