## Part # 7099 STEERING STABILIZER

HD OEM Replacement Kit:

1. Remove OEM steering stabilizer from the OEM mounting brackets. Do not remove the brackets. (See Photo # 1) Insert a poly bushing & steel sleeve # 54314 into each eye of the new Skyjacker steering stabilizer. Position the poly boot onto the new steering stabilizer & secure with the supplied boot tie.

2. Install the new steering stabilizer into the OEM mounting brackets using the OEM hardware. Tighten all nuts. (See Photo # 2)
