

The Benefits of **SLIPLO** Skid Plate

Keep Your Car Looking Better Than Ever

Eliminate steep driveway scrapes, parking curb strikes, and deep pothole bumper damage with this new amazing add-on.

SLIPLO universal skid plate is *the* solution for a protected, pristine bumper. It's strong, easy to install, and performs as promised to safeguard against damage.

Get Ready to Take On the World

Drive with confidence knowing that your car is protected

SLIPLO's proprietary Polyurethane formulation gives our bumper skid plate its durability and protective qualities. It's the same hard-wearing, high-performance material that's used on snow plows, designed to deliver high strength, maximum cold-temperature flexibility, and exceptional hydrolysis resistance.

No Drill Solution Allows for Easy Installation

The smart way to protect your bumper

You don't need to drill, weld, fix rivets, or cure liquid adhesive to fit SLIPLO bumper lip guard on your car! Ultra-strong 3M adhesive means that SLIPLO attaches directly to the under side of your bumper without the need to use any hardware. This really is the ultimate in bumper protection.

Enhance Gliding Properties While Reducing Friction

Smoothly glide over asphalt and reduce scraping noise

With its special foam acrylic adhesive and Easy Glide Polyurethane blend, SLIPLO is incredibly strong, wear resistant and also reduces your vehicles surface friction area by 50%. This reduction leads to less surface area coming into contact during impacts which results in better gliding properties and a lot less scraping sound.

Protect Any Bumper With One Product

Patent pending universal modular design

The universal one size fits all notched features combined with the proper flexibility of the Polyurethane material have been designed to fit virtually any shaped bumper. The modular feature allows you to combine multiple pieces to cover any size area including bumpers, rockers and other high impact areas.

We've Got You Covered

Drive with confidence knowing that your car is protected with SLiPLO. Prevent bumper damage that result from steep driveway and parking curb scrapes by adding a cushioning layer to resist impact.

Next Level Bumper Protection

Use our patent pending universal one size fits all design to protect your bumper lip without the need to drill any holes or use any hardware.

YOUR FEATURES & BENEFITS

Specifications

- Size: .25"(6.35 mm) x 12"(304.8 mm) x 1.5"(38.1 mm)
- Material: snow-plow tough polyurethane
- Color: glossy black finish
- Life expectancy: 10 years plus

- EZ Glide reduces contact surface area by over 50%
- 10 pieces per box / Average bumper requires 6-8 pieces
- Unit size: .25"(6.35 mm) x 12"(304.8 mm) x 1.5"(38.1 mm)

SLIPLO UNIVERSAL SKID PLATE GALLERY

With over 4 years of extensive research and development, SLIPLO has been built to last under the toughest conditions.

SLIPLO's proprietary Polyurethane formulation has been specially formulated for maximum cold temperature flexibility, excellent wear performance, high tear strength, and excellent hydrolysis resistance.

Combined with tough as nail 3M double sided adhesive tape, featuring excellent adhesion to traditional automotive paint systems and excellent resistance to impact in cold weather.

With no drilling and no damage to the paint, SLIPLO universal skid plate is trusted to protect some of the rarest and most expensive cars in the world. See images of the Sliplo Universal Skid Plate on some of these cars, below.

Installation Manual

3M Adhesive promoter (x2 pieces)

DIY Kit

SLIPLO Universal Skid Plate (x10 pieces)

One DIY Box

- 10 pieces per box
- Most cars require 6-8 pieces to protect the front portion of the lip.

Two DIY Boxes

- 10 pieces per box (x2)
- Some exotics and carbon fiber lips could require 12-18 pieces to protect the front and rear portion of the lip. We recommend 2 boxes for complete coverage

Four DIY Boxes

- 10 pieces per box (x4)
- Mostly for exotics cars that require extended protection for the front bumper and also both rocker panels. Generally requires 32- 38 pieces
