

**Installation Instructions**  
Winch Cradle  
Part # 2811

**Note:** Read instructions entirely before assembling this product.

Parts Included	Qty	Parts Included	Qty
Main Base Plate	1	10mm Ny-lock Nut	4
Gear Side Handle	1	10mm x 20mm Bolt	4
Motor Side Handle	1	Flat Washer	4

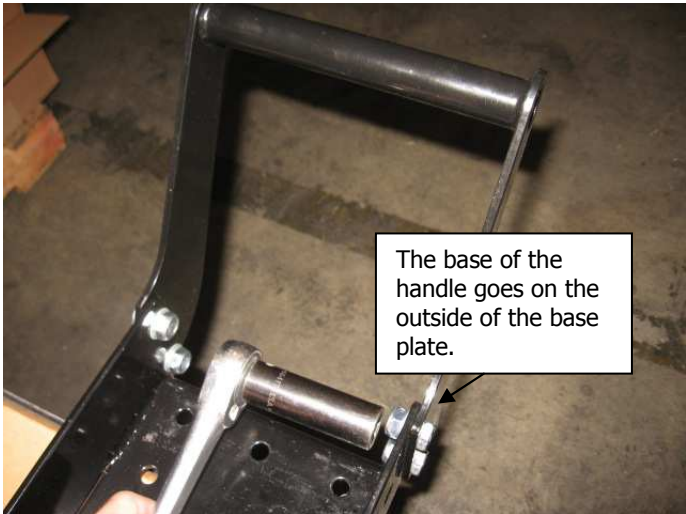

**Step 1:** Set main base plate on a flat surface. (Fig A)

**Step 2:** Install the gear box handle (Shorter handle) on the right side of the main base plate with the included 10mm hardware. The base of the handle goes on the outside of the base plate. (Fig A)

**Step 3:** Install the motor side handle (Longer handle) on the left side of the main base plate with the included 10mm hardware. The base of the handle goes on the outside of the base plate. (Fig A)

(Fig A)

The base of the handle goes on the outside of the base plate.

(Fig B)

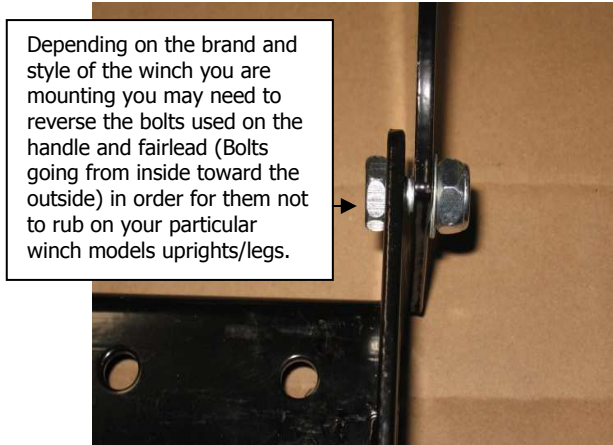

**Step 4:** Depending on the brand and style of the winch you are mounting you may need to reverse the bolts used on the handle and fairlead (Bolts going from inside toward the outside) in order for them not to rub on your particular winch models uprights/legs. (Fig C)

**Step 5:** On some model winches that have the clutch lever on the end of the gear box instead of on top, it may be necessary to switch the handles.(Attach the longer handle on the gear box side and the shorter handle on the motor side)

**Installation Instructions**  
**Winch Cradle**  
**Part # 2811**

**Step 6:** Assembly of the cradle is now complete. Make sure all hardware is tightened completely.

Depending on the brand and style of the winch you are mounting you may need to reverse the bolts used on the handle and fairlead (Bolts going from inside toward the outside) in order for them not to rub on your particular winch models uprights/legs.

(Fig C)

On some model winches that have the clutch lever on the end of the gear box instead of on top, it may be necessary to switch the handles. (Attach the longer handle on the gear box side and the shorter handle on the motor side)

(Fig D)

**Note:** It is recommended to connect any winch wires/control box to the winch per manufacturers instructions prior to installing winch on the winch cradle.
