

# HEATER CORE

Innovative engineering, manufacturing technology and quality control ensure that Spectra Premium heaters meet or exceed the performance of the original equipment they replace.

- Variable pipe positioning to accommodate restrained casing fit
- Unit is leak tested to ensure product quality at installation
- High density fin count for maximum heat dissipation
- Precisely tooled tanks for strength and durability
- Optimum tube pitch spacing to maximize heat transfer
- OE design to ensure exact fit, form and function
- Installation guidelines provided in the box
