

OXYGEN SENSOR

Innovative engineering, manufacturing technology and quality control ensure that Spectra Premium oxygen sensors meet or exceed the performance of the original equipment they replace.

- Trilingual branded packaging & Spectra part number engraved on the part itself
- Connectors are fully water proof and resistant to external climate conditions (car wash, puddle spray, dust, etc.)
- Continuous quality testing throughout manufacturing process
- Exact electrical connector match to the vehicle mating harness
- Robust sensing element manufacturing process to ensure product specifications and performance
- All accessories included for installation (rubber grommets, tie wraps, push in clips)
- Increase vehicle fuel economy and engine performance while decreasing vehicle exhaust emissions
- 100% performance tested to meet vehicle requirements
Anti-seize pre-applied on all parts
- Protective cap on all models to protect the sensing element from dirt and contamination
