

# STRAINER

Innovative engineering, manufacturing technology and quality control ensure that Spectra Premium strainers meet or exceed the performance of the original equipment they replace.

- Designed with gradient density to meet or exceed OE specifications
- Engineered and developed in Canada
- Designed to ensure optimal filtration to prevent fuel system contamination
- Strainer material tested and validated for capacity and efficiency by accredited, third party
- Engineered to stringent tolerances based on our Canadian engineers' in-depth knowledge of the OE part it's designed to replace
- Engineered and developed by Spectra Premium; proud member of the A.A.S.A. fuel pump manufacturers working group
