# THROTTLE BODY SPACERS

- Designed to increase mid-range torque with the added benefits of faster acceleration and quicker throttle response
- Engineered with a slight peak on the leading edge of the entry point into the intake manifold, increasing the speed of the air entering the intake manifold which increases the internal pressure, creating additional torque and horsepower at lower RPM
- Also acts as a throttle body spacer which increases the volume of air inside the manifold adding even more power
- Includes all necessary gaskets and hardware to bolt directly to the factory components
- Can usually be installed in less than an hour using common hand tools with no drilling or cutting required
- Manufactured from quality machine finished aluminum
- Application specific - bolts directly to factory components
- 50 state legal - CARB exempt E.O. # D-629-5

# MUSCLE CAR COLD AIR INTAKE SYSTEMS

Spectre® has engineered these universal air box systems for classic V6/V8 muscle cars/pickups that use a throttle body injection assembly or carburetor with a 5-1/8 inch neck. These air intake systems use enclosed filter assemblies with flexible air intake ducts, to help reduce hot under hood air. The tubes can be routed to a location that will provide cooler outside air.

# MUSCLE CAR COLD AIR INTAKE SYSTEMS

Spectre® muscle car air intake systems are designed to increase performance by routing the intake inlet away from heat sources like the radiator and headers. Manufactured from high quality polished 4" diameter aluminum tubing, these air intake systems are just the solution you are looking for.

## SINGLE PLENUM WITH WELDED 45° X 90° TUBE

### #741 PASSENGER SIDE

- Kit includes:
- Single Plenum
  - (1) Coupler with 2-clamps
  - 45° x 90° welded passenger side tube

### #742 DRIVER SIDE

- Kit includes:
- Single Plenum
  - (1) Coupler with 2-clamps
  - 45° x 90° welded driver side tube

## SINGLE PLENUM KIT WITH 90° TUBE

### #747

- Kit includes:
- Single Plenum
  - 90° aluminum tube
  - (1) Coupler with 2-clamps
  - Can be used on driver side or passenger side

(Filters and air cleaner nut not included)

## DUAL PLENUM KIT WITH 45° TUBES

### #761

- Kit includes:
- Dual Plenum
  - (2) 45° Aluminum tubes
  - (2) Couplers with 4 clamps

(Filters and air cleaner nut not included)

(shown here with tubes facing forward)

(Filters and air cleaner nut not included)

Street legal in most states, but may not be used in California or states with similar emissions control laws except on pre 1976 vehicles.

## MUSCLE CAR COLD AIR INTAKE SYSTEMS

### LOW PROFILE SINGLE PLENUM WITH 45° X 90° WELDED TUBES

(Filters and air cleaner  
nut not included)

#### #751 PASSENGER SIDE

Kit includes:

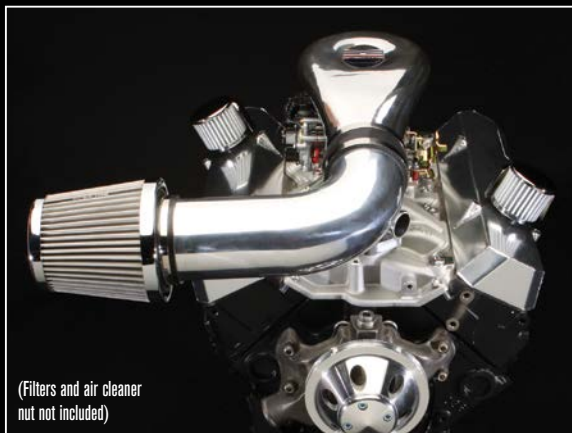

- Low profile single plenum
- (1) Coupler with 2-clamps
- 45° x 90° welded passenger side tube

#### #752 DRIVER SIDE

Kit includes:

- Low Profile Single Plenum
- (1) Coupler with 2-clamps
- 45° x 90° welded driver side tube

### LOW PROFILE SINGLE PLENUM WITH 90° TUBE

(Filters and air cleaner  
nut not included)

#### #757

Kit includes:

- Low profile dual plenum
- (1) 90° tube
- (1) Coupler with 2-clamps

### LOW PROFILE DUAL PLENUM WITH 45° X 90° WELDED TUBES

(Filters and air cleaner  
nut not included)

#### #771

Kit includes:

- Low profile dual plenum
- 45° x 90° welded driver side tube
- 45° x 90° welded passenger side tube
- (2) Couplers with 2-clamps

Street legal in most states, but may not be used  
in California or states with similar emissions  
control laws except on pre 1976 vehicles.

## LOW PROFILE DUAL PLENUM WITH Y-TUBE

**#758**

Kit includes:

- Low profile single plenum
- (1) Coupler with 2-clamps
- (1) 4" Y-tube with 150° angle and 90° legs

(Filters and air cleaner nut not included)

## ULTRA LOW PROFILE DUAL PLENUM WITH WELDED 45° X 90° TUBES

**#764**

Kit includes:

- Low profile dual plenum
- (2) Couplers with 4 clamps
- 45° x 90° welded passenger side tube
- 45° x 90° welded driver side tube

(Filters and air cleaner nut not included)

## ULTRA LOW PROFILE DUAL PLENUM WITH 90° TUBES

**#765**

Kit includes:

- Low Profile Dual Plenum
- (2) Couplers with 4 clamps
- (2) 90° aluminum tubes

(Filters and air cleaner nut not included)

Street legal in most states, but may not be used in California or states with similar emissions control laws except on pre 1976 vehicles.

# AIR INTAKE PLENUMS

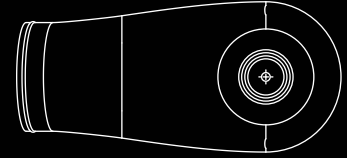

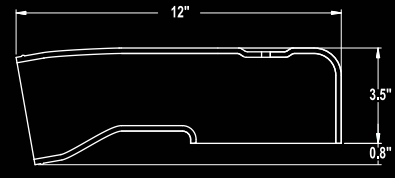

- Polished cast and fabricated aluminum, offered in single or dual inlet and standard or low profile
- Applications to fit all carburetor and 4BBL throttle body injection systems with 5-1/8" inlet

## #9849 4" SINGLE INLET

- 3.5" tall
- Cast aluminum construction
- Can be rotated to point in any direction
- Designed for maximum flow
- Polished aluminum finish

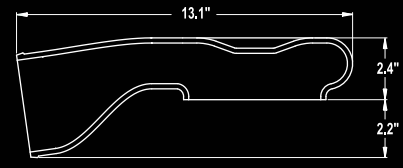

Air cleaner nut not included - see page 67

## #98499 4" LOW PROFILE SINGLE INLET

- 2.4" tall
- Cast aluminum construction
- Can be rotated to point in any direction
- Designed for maximum hood clearance
- Use with #4208 or 4206 low profile nut for maximum clearance (not included)
- Polished aluminum finish

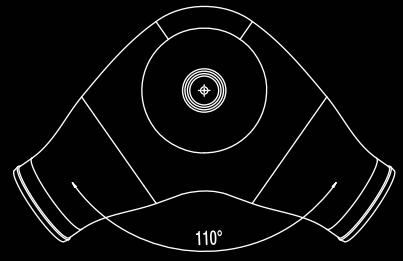

Air cleaner nut not included - see page 67

## #98999 4" DUAL PLENUM FOR DOMINATOR® CARBURETORS

- Fits carburetors with 7 1/4" neck
- 3" tall
- Cast aluminum construction
- Inlets are 110° apart
- Designed for maximum flow and hood clearance
- Polished aluminum finish

Air cleaner nut not included - see page 67

- Inlets are 180° apart
- Designed for maximum hood clearance
- Use with #4208 or #4206 low profile nut for maximum clearance (not included)
- Polished aluminum finish

Air cleaner nut not included - see page 67

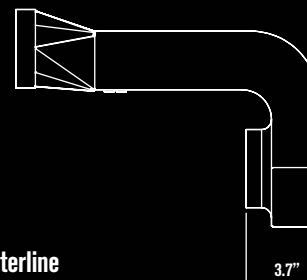

## #9879 LT1 INLET PLENUM

- Cast aluminum construction
- Replaces stock LT1 air inlet elbow
- Includes adapters for sensors and vacuum hose
- Includes boots and clamps
- Polished aluminum finish

## #98261 LSX PLENUM

- Sheet metal aluminum construction
- Designed for Chevrolet LS engine swaps
- Requires 4.25" minimum clearance between the throttle body and the fan or radiator
- Requires 7.25" inch minimum clearance from centerline of the throttle body to the underside of the hood
- Polished aluminum finish

Street legal in most states, but may not be used in California or states with similar emissions control laws except on pre 1976 vehicles.

## **MODULAR AIR INTAKE SYSTEMS (M.A.I.S.)**

- The Modular Air Intake System (MAIS) is an innovative clamp together system that allows you to add a cold air or short ram air intake system to practically any car
- Since the system is modular, the tubes can be combined in nearly infinite combinations and arrangements to bring cold air to hundreds of vehicles that would otherwise require a custom system
- To capitalize on the benefits of a cold air intake, we use a base material of an engineering grade co-polymer ABS with the low heat absorption characteristics and triple chrome plate the surface to help deflect heat
- The finished chrome surface also allows for easy cleaning for a great looking appearance

## M.A.I.S. STARTER KIT - #8208

- 3" diameter air intake system
- Kit includes:
  - (2) 4" long straight tubes with connector collars
  - (1) 45° elbow
  - (1) intake tube coupler/reducer
  - (2) gear drive clamps
  - (3) 3" O-rings
  - (1) vacuum sensor tube with connector collar
  - (2) universal mounting brackets
  - (1) each vacuum hose and tube adapters (5mm, 10mm and 13mm)
- Starter kit for many applications. Add additional M.A.I.S. parts for a more elaborate intake system or use as a starting point for your specific application.
- Increase horsepower! For every 10° decrease in intake air temperature, you get a 1.5% to 2% gain in power.

# CHROME AIR CLEANERS

Spectre® chrome air cleaners are designed with a flame resistant paper media and are available in a variety of shapes and sizes to fit a variety of applications.

## PAPER AIR CLEANERS

- Fits all carburetors bodies with 5-1/8" necks
- Drop base lowers air cleaner 1-1/4" for additional hood clearance
- Spectre® Riser Kit #4954 makes it easy to raise the air cleaner to clear linkage or choke mechanism

### #4760 14" X 3" ROUND CHROME AIR CLEANER

- Triple chrome-plated steel top
- Flame retardant filter element
- See Pg. 66 for air cleaner nuts

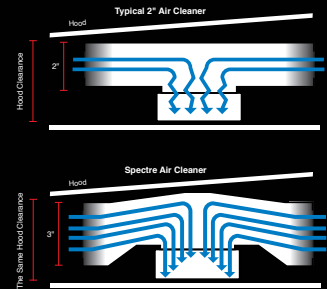

### #4758 14" X 3" ROUND CHROME AIR CLEANER WITH EMBOSSED FLAMES

- Embossed flame design
- Triple chrome-plated steel top
- Flame retardant filter element
- Replacement element available #4802
- Air cleaner nut not included

### #4770 9" X 2" ROUND CHROME AIR CLEANER

- Triple chrome-plated steel top
- Flame retardant filter element
- Flat base
- See Pg. 66 for air cleaner nuts

Drop base air cleaner assembly means increased filter area for increased airflow with the same low hood clearance.

## AIR CLEANER BASES

- 14" diameter, 5-1/8" (Offset) and 7-1/4" (Dominator) opening
- Raises assembly 1-1/4" higher than our drop base cleaners

**OFFSET- #4768**

**DOMINATOR- #4767**

**FLAT BASE - #4765**

May not be legal for use on pollution-controlled vehicles. Check local laws.

# CHROME AIR CLEANERS

**#4780**  
**6-3/8" X 2-1/2" ROUND CHROME AIR CLEANER**

- Fits all carburetors with 5-1/8" neck
- Triple chrome-plated steel top
- Flame retardant filter element
- See Pg. 66 for air cleaner nuts

**#4790**  
**4" X 2" ROUND CHROME AIR CLEANER**

- Fits all carburetors with 2-5/8" or 2-5/16" diameter neck
- Triple chrome-plated steel top
- Flame retardant filter element
- Zinc plated steel base
- See Pg. 66 for air cleaner nuts

## ROUND PAPER AIR FILTER ELEMENTS

- Accommodates Spectre® and most other air cleaner assemblies
- Flame retardant filter media

### CHROME ENGINE KITS

Chrome always adds that great look under the hood. Spectre® offers kits that include chrome valve covers, valve cover hold downs, breathers, timing chain covers, dipsticks and in some kits chrome air cleaners or lids. Applications available for classic big block and small block Chevy, Chrysler, Ford and Oldsmobile engines.

### VALVE COVERS

Spectre® valve covers are offered in various sizes, heights, and finishes depending on your engine. Engineered for optimum fit and function, Spectre® valve covers are available in triple chrome plated steel, polished aluminum, and even gold iridite finishes, ideal for any custom build.

### OIL PANS

Spectre® offers multiple size and finish options for your replacement engine oil pans. We offer chrome plated steel, polished aluminum and raw finishes. These oil pans are designed to bolt directly onto your engine with ease. Deep sump pans are available with optional extended oil pan pick-up.

### PULLEYS

Spectre® offers many styles of triple plated chrome or aluminum alternator, water pump, power steering and crank pulleys for various Ford, Chevy small block and big block engine applications.

### OTHER ACCESSORIES

Spectre's vast list of engine accessories include multiple brackets and latches, universal cap kits, master cylinder covers and power steering dipsticks for popular GM, Ford and Chrysler applications, engine oil and transmission pans and dipsticks, timing chain covers and many different interior and exterior accessories are also available. Engineered for optimum fit and function, Spectre® accessories are the perfect complementing detail piece on your custom build.

To determine correct replacement hose size, remove existing hose and measure each end for inside diameter. Next lay the hose as flat as possible and measure length. Hoses can be cut up to 1-1/2" on each end for exact sizing. If the old hose is not available, measure the outside diameter of your radiator, thermostat and water pump outlets. Then, using some old heater hose or similar material, mock-up the hose shape using smooth curves as needed. Allow hose to overlap outlets by 1-1/2" to 2" on each end and trim. With the mock-up flat, measure the overall length. Order the closest size hose from one of the charts on this page.

Some intake systems are not legal for sale or use on any pollution controlled motor vehicle in California or states adopting California emission standards. See Spectreperformance.com for CARB status on each part for a specific vehicle.

## EMISSIONS STANDARDS AND SMOG TESTING

Some intake systems are not legal for use on certain vehicles in California or other states adopting CA emission standards. See the application section of this catalog for information on a particular vehicle. For an intake system to be legally used on the street in California or states adopting California emission standards, the intake must receive an EO number from The California Air Resources Board (CARB) that is specific to a particular part on a specific vehicle. This means a specific part number can be CARB exempt for some vehicles and not others. Intake system/vehicle combinations that do not have a CARB EO are not legal for highway use in California and several other states. They will not pass a state regulated visual inspection test if they do not have a valid CARB EO decal clearly displayed on the vehicle. You can check with your local motor vehicle or emissions agency to determine if your state requires CARB exemption.

## INTAKE HORSEPOWER ESTIMATES AND DYNO TESTING

Spectre® performs tests to measure vehicle power on a dynamometer before and after an air intake is installed. Our air intake horsepower estimates are based on the results of specific or similar vehicle testing. Sometimes an air intake will fit several vehicles or different years of the same model. In these cases it is not practical to test every application so our horsepower estimates are based on similar vehicles where we believe the horsepower estimates are reliable.

Horsepower measurements can vary some from day to day due to environmental conditions, the dynamometer used, and the vehicle's on-board computer adjusting to changing airflow or environmental conditions.
