

SPICER®

Spicer Wing® Series Driveshaft Components

There is no substitute for genuine Spicer® driveshaft components.

Demand ONLY genuine Spicer drivetrain products. Don't risk your vehicle's performance by using unproven, knock-off replacement parts. Spicer® brand products are manufactured to the exact original equipment standards set forth by Dana, a global leader and OE supplier in driveshaft components. Spicer® parts are designed, engineered, manufactured, and tested to ensure they maintain the same level of quality you expect from parts installed in a brand-new vehicle. You can count on the Spicer® name to ensure less drivetrain vibration, improved balance and stiffness, and better lateral protection against contaminants. Using Spicer® ultra-premium synthetic grease can also extend the life of your universal joints. Don't settle for knock-off aftermarket replacement parts—Demand the best...Demand genuine Spicer® drivetrain products.

Nomenclature

This document is intended for nomenclature purposes only and is not to be used for assembly instruction. It does not include every possible scenario or product name. Parts pictured are for reference only and are not intended to be all-inclusive. Alignment of yoke ears are not representative of all forms of phasing. Yoke ears are phased per Original Equipment Manufacturers' requirements.

Warning: Rotating shafts can be dangerous. You can snag clothes, skin, hair, hands, etc. This can cause a serious injury or death. Do not work on a shaft (with or without a guard) when the engine is running.
